Politics Of Accommodation And Resistance In The Black Church:

The Politics of Accommodation and Resistance in the Black Church Rupe Simms, 2000 This study argues that the church has the capacity of fostering ideological resistance to the dominant order and therefore making a profound contribution to the sociopolitical liberation of black Americans By developing this position using quantitative research methods in three African American churches the work confirms the reality of this potential showing that a counter hegemonic approach to church in the black community is possible This is significant because many politically active scholars even African American radicals disparage the institution as a politically destructive hegemonic organisation that misuses social and economic resources

Du Bois's Dialectics Reiland Rabaka, 2009-01-01 With chapters that undertake ideological critiques of education religion the politics of reparations and the problematics of black radical politics in contemporary culture and society Du Bois's Dialectics employs Du Bois as its critical theoretical point of departure and demonstrates his and African Studies contributions to as well as contemporary critical theory's connections to critical pedagogy sociology of religion and reparations theory Rabaka offers the first critical theoretical treatment of the W E B Du Bois Booker T Washington debate which lucidly highlights Du Bois's transition from a bourgeois black liberal to a black radical and revolutionary democratic socialist

Political Process and the Development of Black Insurgency Doug McAdam, 2010-05-15 In this classic work of sociology Doug McAdam presents a political process model that explains the rise and decline of the black protest movement in the United States Moving from theoretical concerns to empirical analysis he focuses on the crucial role of three institutions that foster protest black churches black colleges and Southern

chapters of the NAACP He concludes that political opportunities a heightened sense of political efficacy and the development of these three institutions played a central role in shaping the civil rights movement In his new introduction McAdam revisits the civil rights struggle in light of recent scholarship on social movement origins and collective action A first rate analytical demonstration that the civil rights movement was the culmination of a long process of building institutions in the black community Raymond Wolters Journal of American History A fresh rich and dynamic model to explain the rise and decline of the black insurgency movement in the United States James W Lamare Annals of the American Academy of Political and Social Science

The Politics of Faith During the Civil War Timothy L. Wesley, 2013-05-13 In The Politics of Faith during the Civil War Timothy L Wesley examines the engagement of both northern and southern preachers in politics during the American Civil War revealing an era of denominational governmental and public scrutiny of religious leaders Controversial ministers risked ostracism within the local community censure from church leaders and arrests by provost marshals or local police In contested areas of the Upper Confederacy and Border Union ministers occasionally faced deadly violence for what they said or would not say from their pulpits Even silence on political issues did not guarantee a preacher s security as both sides arrested clergymen who defied the dictates of civil and military authorities by refusing to declare their loyalty in sermons or to pray for the designated nation army or president The generation that fought the Civil War lived in arguably the most sacralized culture in the history of the United States The participation of church members in the public arena meant that ministers wielded great authority Wesley outlines the scope of that influence and considers conversely the feared outcomes of its abuse By treating ministers as both individual men of conscience and leaders of religious communities Wesley reveals that the reticence of otherwise loyal ministers to bring politics into the pulpit often grew not out of partisan concerns but out of doctrinal historical and local factors The Politics of Faith during the Civil War sheds new light on the political motivations of homefront clergymen during wartime revealing how and why the Civil War stands as the nation s first

Luther's Theology of Two Kingdoms in Buddhist and Christian Communities Pa Yaw, 2024-05-29 Socially engaged religion teaches that people of faith have a responsibility to address and reduce suffering in all its forms both physical and spiritual including suffering resulting from social injustice exploitation oppression false faith and so forth True religion engages with society to alleviate suffering and bring transformation In other words religious violence is an obscenity a deviation from the true character of religion Martin Luther's Theology of Two Kingdoms in Buddhist and Christian Communities examines the principle of separation between religion and politics in the context of both Buddhist and Christian communities In predominantly Buddhist contexts such as Myanmar where a reciprocal relationship between religion and politics is expected separation is not effective Attempts by Christians to separate religion and politics cause the church to run away from tyranny and follow the state with blind obedience Martin Luther's model of two distinct but interconnected systems for religion and politics creates space for each institution to give constructive advice and criticism to the other for the health of all human beings

Black Theology and Ideology Harry H. Futures of Black Radicalism Gaye Theresa Johnson, Alex Lubin, 2017-08-29. With racial justice struggles on the rise, a probing collection considers the past and future of Black radicalism. Black rebellion has returned. Dramatic protests have risen up in scores of cities and campuses; there is renewed engagement with the history of Black radical movements and thought. Here key intellectuals inspired by the new movements and by the seminal work of the scholar Cedric J. Robinson recall the powerful tradition of Black radicalism while defining new directions for the activists and thinkers it inspires. In a time when activists in Ferguson, Palestine, Baltimore, and Hong Kong immediately connect across vast distances, this book makes clear that new Black radical politics is thoroughly internationalist and redraws the links between Black resistance and anti-capitalism. Featuring the key voices in this new intellectual wave, this collection outlines one of the most vibrant areas of thought today. With contributions from Greg Burris, Jordan T. Camp, Angela Davis, Ruth Wilson Gilmore, Avery F. Gordon, Stefano Harney, Christina Heatherton, Robin D. G. Kelley, George Lipsitz, Fred Moten, Paul Ortiz, Steven Osuna, Kwame M. Phillips, Shana L. Redmond, Cedric J. Robinson, Elizabeth P. Robinson, Nikhil Pal Singh, Damien M. Sojoyner, Darryl C. Thomas, and Françoise Vergès.

The Other Black Church Joseph L. Tucker Edmonds, 2020-12-02. The Other Black Church: Alternative Christian Movements and the Struggle for Black Freedom examines the movements led by Father Divine, Charles Mason, and Albert Cleage, later known as Jaramogi Abebe Agyeman, as alternative Christian movements in the middle of the twentieth century that radically re-envisioned the limits and possibilities of Black citizenship. These movements not only rethink the value and import of Christian texts and reimagined the role of the Black Christian prophetic tradition but they also outlined a new model of protest that challenged the language and logic of Black essentialism, economic development, and the role of the state. By placing these movements in conversation with the long history of Black theology and Black religious studies, this book suggests that alternative Christian movements are essential for thinking about African American critiques of and responses to the failures of U.S.-based democracy. These prophets of Black theological thought and their attention to the limits of the state and traditional Black religious formations are most fully appreciated when studied in light of their conversations and interactions with other key Black prophetic and theological figures of the mid-twentieth century. Ultimately, *The Other Black Church* will use those conversations and archives from these movements to highlight their protest of the racial state, to explore the limits of the Black church, and to argue for their continued significance for thinking about the variety and vibrancy of Black protest, specifically Black religious protest, during the twentieth century.

Between Sundays Marla Frederick, 2003-11-20. To be a Black woman of faith in the American South is to understand and experience spirituality in a particular way. How this understanding expresses itself in everyday practices of faith is the subject of *Between Sundays*, an

innovative work that takes readers beyond common misconceptions and narrow assumptions about black religion and into the actual complexities of African American women's spiritual lives Gracefully combining narrative interviews and analysis this book explores the personal political and spiritual commitments of a group of Baptist women whose experiences have been informed by the realities of life in a rural southern community In these lives spirituality emerges as a space for creative agency of vital importance to the ways in which these women interpret inform and reshape their social conditions conditions often characterized by limited access to job opportunities health care and equitable schooling In the words of these women and in Marla F Frederick's deft analysis we see how spirituality expressed as gratitude empathy or righteous discontent operates as a transformative power in women's interactions with others and in their own more intimate renegotiations of self

The Strengths of African American Families Robert B. Hill, 1999-01-14 Returning to his innovative work of twenty five years ago Robert Hill once more offers an incisive analysis of five key cultural strengths of African American families With compassion and eloquence he argues that these existing strengths provide a solid foundation upon which to develop the kind of public policies and self help initiatives that will truly promote the interests not only of the African American community but of our diverse nation as a whole *American Congregations, Volume 1* James P. Wind, James W. Lewis, 1994 The congregation is a distinctly American religious structure and is often overlooked in traditional studies of religion But one cannot understand American religion without understanding the congregation Volume 1 Portraits of Twelve Religious Communities chronicles the founding growth and development of congregations that represent the diverse and complex reality of American local religious cultures The contributors explore multiple issues from the fate of American Protestantism to the rise of charismatic revivalism Volume 2 New Perspectives in the Study of Congregations builds upon those historical studies and addresses three crucial questions Where is the congregation located on the broader map of American cultural and religious life What are congregations distinctive qualities tasks and roles in American culture And what patterns of leadership characterize congregations in America **African American Religious Thought** Cornel West, Eddie S. Glaude, 2003-01-01 Believing that African American religious studies has reached a crossroads Cornel West and Eddie Glaude seek in this landmark anthology to steer the discipline into the future Arguing that the complexity of beliefs choices and actions of African Americans need not be reduced to expressions of black religion West and Glaude call for more careful reflection on the complex relationships of African American religious studies to conceptions of class gender sexual orientation race empire and other values that continue to challenge our democratic ideals **A History of Sociological Research and Teaching at Catholic Notre Dame University, Indiana** Anthony J. Blasi, Bernard F. Donahoe, 2002 In a series of documented chapters this work places the emergence of sociology at Notre Dame in the context of that institution's particular history and of the changing doctrines of Roman Catholicism more generally **God in Public** Mark G. Toulouse, 2006-01-01 In this important study Mark Toulouse maps the ambiguous landscape between American Christianity

and American public life Built on an extensive study of religious periodical literature since the mid 1950s and on an analysis of landmark events in American history Toulouse develops an insightful typology for understanding how Americans have related their Christian faith to public life For Toulouse the relationship between American Christianity and American public life exists in four styles of interaction iconic faith priestly faith the public Christian and the public church with each model appearing in various forms across the terrain of American history Carefully examined and accessibly written this study is sure to generate discussion and bring clarity to the many ambiguities and diversities that continue to mark American Christianity
