The Politics of Congo-Brazzaville René Gauze,1973 **Readings in African Politics** Tom Young,2003 Table of contents Politics in Francophone Africa Victor T. Le Vine,2004 Explores the elements that have shaped the particular political dynamics of the 14 former French colonies in west and equatorial Africa while allowing them to remain part of a unique francophone sociopolitical community Military Power and Politics in Black Africa Simon Baynham,2021-05-11 First published in 1986 Military Power and Politics in Black Africa explores many themes that concerned military power and politics in sub Saharan Africa at the time of publication Adopting a thematic approach the book considers the nature of both intervention and disengagement and looks at the relationship between civilian and military institutions The final chapters put forward arguments for the importance of foreign intervention in the politics and civil military relations of African states

The Politics of African and Middle Eastern States Anne Gordon Drabek,Wilfrid Knapp,2013-10-22 The Politics of African and Middle Eastern States An Annotated Bibliography is a record of books written about the politics history and the lives of the leaders of Africa and the Middle East The book is divided per chapter according to the geographical area being discussed Each chapter contains a list of books that fall under the following categories Political History Political Systems and Government Biographies Memoirs Speeches and Writings and External Relations Chapters I to VII cover different regions of Africa while Chapters VIII to XI cover the Middle East The text is a recommended for historians and political scientists especially those interested in the areas mentioned in the book The selection also serves a guide to those who plan to have further readings or make a paper about the political history government and development of the areas mentioned

Political Reform In Francophone Africa John F Clark,2018-02-07 Most African states experienced only a few fleeting years of democratic rule after independence before succumbing to authoritarianism During the 1970s and 1980s Africans and Westerners alike came to view dictatorship to be as much a part of the region s social landscape as its grinding poverty Yet the end of the Cold War and the sharpening of the economic crisis at the end of the 1980s have breathed new life into campaigns for democracy in Africa shaking the foundations of many long standing autocracies In some cases dramatic transitions took place though the fate of the new democracies is far from certain This volume explores the origins and evolution of political reform movements in several states of francophone Africa The authors first make the case for the distinctiveness of francophone Africa based on the influences of colonial history language and France s contemporary role in Africa then survey the challenges of reform including the problems of transition from authoritarianism and consolidation of democratic regimes Case studies of thirteen former French and Belgian colonies follow organized by level of reform achieved peaceful regime change incremental reforms repressed reform efforts and reform in the midst of war African Culture and Global Politics Toyin Falola,Danielle Sanchez,2014-01-10 This volume attempts to insert itself within the larger discussion of Africa in the twenty first century especially within the realm of world politics Despite the underwhelming amount of attention

given to Africa's role in international politics in popular news sources it is evident that Africa has a consistent record of participating in world politics one that pre-dates colonization and continues today. In continuance of this legacy of active participation in global political exchanges Africans today can be heard in dialogues that span the world and their roles are impossible to replace by other entities. It is evident that a vastly different Africa exists than ones that bolster images of starvation, corruption and compliance. The essays in this volume center on Africa and Africans participating in international political discourses but with an emphasis on various forms of expression and philosophies as these factors heavily influence Africa's role as a participant in global politics. The reader will find a variety of essays that permeate surface discussions of politics and political activism by inserting African culture, rhetoric, philosophies into the larger discussion of international politics and Africa's role in worldwide political, social and economic debates.

The Oxford Companion to Politics of the World Joel Krieger, Margaret E. Crahan, 2001-08-02. The world has seen dramatic changes since the publication of the first edition of *The Oxford Companion to Politics of the World* in 1993. In the post-Cold War world, globalization now offers wealth and opportunities on a broader scale as well as greater international harmony but threatens to reinforce the advantage gap between wealthy and poor regions and intensify environmental degradation. Conflict and squalor expressed in brutal brushfire wars, epidemics and chronic underdevelopment vie with equally dramatic accounts of growth and democracy associated with a liberal political order and the global diffusion of trade, investment and communications. Drawing on the breadth of the first edition, this updated edition reflects the changing world with a reassessment of many of the core themes of the Companion and new articles on the people, concepts and events that have shaped the world since 1993. The second edition includes biographies of Kofi Annan, Tony Blair, Bill Clinton and Gerhard Schröder; articles on events such as the Rwandan Genocide and the war in Kosovo; and coverage of international trade developments such as NAFTA and the World Trade Organization. Eighty-seven of the 672 articles in the Second Edition are completely new; most others are thoroughly revised. This edition also features a substantial new set of articles: a dozen essays on critical issues written by influential figures. Recognizing the importance of including varying viewpoints, the editors have commissioned these essays to provide an informed and often passionate debate on controversial topics. Discussions include Lani Guinier and Glenn Loury on Affirmative Action; Francis Fukuyama and Milton Fisk on the Limits of Liberal Democracy; and Lloyd Axworthy and John Bolton on the United Nations. The contributors discuss nearly every nation in the world, including extensive information on institutions, political parties, leaders and the sources of political mobilization and conflict. The volume also includes biographies of more than seventy-five political leaders and thinkers who have shaped the contemporary political world. Articles include detailed discussions of critical historical developments and events, concepts, international law and organizations. *The Oxford Companion to Politics of the World*, Second Edition, is an accessible, timely, thought-provoking and comprehensive reference that captures the complexity and vitality of contemporary world affairs. Saideman,2001-04-18 Ethnic conflicts have created crises within NATO and between NATO and Russia produced massive flows of refugees destabilized neighboring countries and increased the risk of nuclear war between Pakistan and India Interventions have cost the United States the United Nations and other actors billions of dollars While scholars and policymakers have devoted considerable attention to this issue the question of why states take sides in other countries ethnic conflicts has largely been ignored Most attention has been directed at debating the value of particular techniques to manage ethnic conflict including partition prevention mediation intervention and the like However as the Kosovo dispute demonstrated one of the biggest obstacles to resolving ethnic conflicts is getting the outside actors to cooperate This book addresses this question Saideman argues that domestic political competition compels countries to support the side of an ethnic conflict with which constituents share ethnicities He applies this argument to the Congo Crisis the Nigerian Civil War and Yugoslavia s civil wars He then applies quantitative analyses to ethnic conflicts in the 1990s Finally he discusses recent events in Kosovo and whether the findings of these case studies apply more broadly **Africa** Army Library (U.S.),1973 Religion and Contemporary Politics Timothy J. Demy,Jeffrey M. Shaw Ph.D.,2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography *Secessionism in African Politics* Lotje de Vries,Pierre Englebert,Mareike Schomerus,2018-08-20 Secessionism perseveres as a complex political phenomenon in Africa yet often a more in depth analysis is overshadowed by the aspirational simplicity of pursuing a new state Using historical and contemporary approaches this edited volume offers the most exhaustive collection of empirical studies of African secessionism to date The respected expert contributors put salient and lesser known cases into comparative perspective

covering Biafra Katanga Eritrea and South Sudan alongside Barotseland Cabinda and the Comoros among others Suggesting that African secessionism can be understood through the categories of aspiration grievance performance and disenchantment the book s analytical framework promises to be a building block for future studies of the topic
