#### **Politics Of Ethnicity:**

Ethnicity and Machine Politics Jerome Krase, Charles LaCerra, 1991 This book shows how a machine political local Democratic organization in Brooklyn failed to make the transition necessary to survive in modern urban political life Political organizations do not live in a sociological vacuum They must struggle for survival in a highly competitive human environment The story of the Madison Club tells how the ethnic religious racial and generational transitions affect decisions group cohesion and the success of political organizations at all levels **Politics and Ethnicity** J. Rudolph, 2006-08-05 This book offers a brief broad comparative study of ethnic politics that places ethnic conflict within the context of particular political systems To develop these themes they are explored by comparing and contrasting the experiences of France Czechoslovakia and its subsequent division and Nigeria The Politics of Ethnic Consciousness C. Govers, H. Vermeulen, 2016-04-30 The Politics of Ethnic Consciousness criticizes essentialist and unitary notions of ethnicity and shows the complex interaction between historical processes recent political developments and competing views within and about ethnic groups Welcoming the social constructionist turn the editors disagree with its overemphasis on the arbitrary character of ethnic identification and the neglect of political economy Contributions on such diverse regions as Brazil Ghana Macedonia and Sri Lanka examine the multivocal process of the construction and reconstruction of ethnic identities through time Ethnicity and Politics Adrian Guelke, Jean Tournon, 2012-01-10 The book analyses the study of the growing field of ethnicity and politics from a number of different angles. These include the nature of the subject itself different theoretical approaches ways of addressing political issues the relationship gives rise to the impact of major global challenges and a survey of output in the field Comprehensive text book makes great course reading Questions of identity particularly ethnicity play an increasingly important role in people s lives They are also of growing significance in both domestic and international politics The increased attention to these issues has been matched by the mushrooming of scholarship in the field of ethnicity and politics The chapters in this survey of recent analytical developments examine the contribution that this literature has made within the broad area of comparative politics within the discipline of political science. They are written by experts active in the international network of scholars that has been devoted to the study of this subject. The question of what we mean when we use ethnic terminology is rigorously interrogated And the major theoretical approaches to the study of ethnicity and politics are critically examined Ways of addressing ethnic diversity are debated under the wide headings of accommodation and integration The issue of ethnicity in world politics is considered through an analysis of how watersheds of the last 25 years including the end of the Cold War 9 11 and the global economic downturn have impacted on the study of the subject Also analysed is the output of publications in scholarly journals that has addressed this subject area From the Contents Ethnicity What are we talking about Jean Touron Ethnic and national mobilization Eric Kaufmann Daniele Conversi The Politics of accomodation and integration in democratic States Brendan O Leary John McGarry Global Watersheds and the

Study of ethno politics Adrian Guelke Who is doing what where and how in the study of ethnicity and politics Britt Cartrite Dan Miodownik The Politics of Ethnicity Michael Walzer, 1982 Examines how ethnicity affects voting and party loyalty and looks at leadership among minority groups The Politics of Race and Ethnicity in the United States Sherrow O. Pinder, 2010-04-15 This book examines and analyzes Americanization De Americanization and racialized ethnic groups in America It shows that America's cultural homogeneity which is based on whiteness has important consequences for racialized ethnic groups in America The question then of who is an American becomes overriding Although racialized ethnic groups remain unassimilated into the dominant culture the recognition and celebration of the non dominant cultures are important for multiculturalism However non dominant cultures are tied to cultural otherness Cultural otherness is looked upon as Un Americanness For this reason there is a need to move beyond multiculturalism Postmulticulturalism then would be the new possibility The Issue of Political Ethnicity in Africa E Udogu, 2018-02-06 This title was first published in 2001 The central characteristics of political ethnicity and its dysfunctional attributes in African politics is vexing to Africa's policy makers Moreover as a conflictive ideology in national and international politics many political actors would rather avoid it In the past nationalists have blamed ethnic chauvinists for fanning the embers of ethnicity but today they realize they may have underestimated its prominence in African politics The Politics of Difference Edwin Norman Wilmsen, P. A. McAllister, 1996-08 According to most social scientists the advent of a global media village and the rise of liberal democratic government would diminish ethnic and national identity as a source of political action Yet the contemporary world is in the midst of an explosion of identity politics and often violent ethnonationalism. This volume examines cases ranging from the well publicized ethnonationalism of Bosnia and post Apartheid South Africa to ethnic conflicts in Belgium and Sri Lanka Distinguished international scholars including John Comaroff Stanley I Tambiah and Ernesto Laclau argue that continued acceptance of imposed ethnic terms as the most appropriate vehicle for collective self identification and social action legitimizes the conditions of inequality that give rise to them in the first place This ambitious attempt to explain the inadequacies of current approaches to power and ethnicity forges more realistic alternatives to the volatile realities of social difference The Politics of Ethnicity in Southern Mexico Howard Campbell,1996 **Ethnic Politics and Civil Liberties** Lucius Jefferson Barker,1992-01-01 The official publication of the National Conference of Black Political Scientists this annual publication includes significant scholarly research reflecting the diverse interests of scholars from various backgrounds who use a variety of models approaches and methodologies The central focus is on politics and policies that advantage or disadvantage groups because of race ethnicity sex or other such factors. The research is performed in a variety of contexts and settings This third volume includes an introductory note by the editor Lucius J Barker in which he assesses the performance of the Journal in defining a different political science and a note by incoming editor Matthew Holden Jr. outlining topics and agendas for future volumes Feature articles include Reconceptualizing Urban Violence Political Science

and the Black Political Experience The Impact of At Large Elections on the Representation of Black and White Women State Responses to Richmond v Croson A Survey of Equal Opportunity Officers Media in Warsaw Pact States Explanations of Crisis Coverage and Presence of Immigrants and National Front Vote The Case of Paris 1984 1990 The Book Review Section includes review essays on East European research black urban politics and the political reincorporation of southern blacks and regular book reviews on minority groups and American political culture and other areas **Census and Identity** Dominique Arel, David I. Kertzer, 2002 The Politics of Race Ethnicity and Language in National Censuses examines the ways that states have attempted to pigeon hole the people within their boundaries into racial ethnic and language categories. These attempts whether through American efforts to divide the US population into mutually exclusive racial categories or through the Soviet system of inscribing nationality categories on internal passports have important implications not only for people s own identities and life chances but for national political and social processes as well The book reviews the history of these categorizing efforts by the state and offers a theoretical context for examining them illustrating the case with studies from a range of countries The Politics of Race Edward Osei-Kwadwo, 2000-09 This book shows how race regimes worked in Canada Australia and the United States The Foundations of Ethnic Politics Henry E. Hale, 2008-06-30 Despite implicating ethnicity in everything from civil war to economic failure researchers seldom consult psychological research when addressing the most basic question What is ethnicity The result is a radical scholarly divide generating contradictory recommendations for solving ethnic conflict Research into how the human brain actually works demands a revision of existing schools of thought At its foundation ethnic identity is a cognitive uncertainty reduction device with special capacity to exacerbate but not cause collective action problems This produces a new general theory of ethnic conflict that can improve both understanding and practice A deep study of separatism in the USSR and CIS demonstrates the theory's potential mobilizing evidence from elite interviews three local languages and mass surveys The outcome is a significant reinterpretation of nationalism's role in the USSR's breakup which turns out to have been a far more contingent event than commonly recognized International relations in the CIS are similarly cast in new light **Public Policy and Ethnicity** Elizabeth Rata, Roger Openshaw, 2006-12-12 Public Policy and Ethnicity is a response to the growing concern in many democracies that ethnicity has become institutionalized as a political category. The book draws on a number of international studies including New Zealand to show that this process of public policymaking creates artificial divisions and boundaries that may become permanent and detrimental as well as being fundamentally at odds with the social fluidity of modern societies Includes a preface by Jonathan Friedman Uneven Roads Todd Shaw, Louis DeSipio, Dianne Pinderhughes, Toni-Michelle C. Travis, 2018-02-13 Uneven Roads helps students grasp how when and why race and ethnicity matter in U S politics Using the metaphor of a road with twists turns and dead ends this incisive text takes students on a journey to understanding political racialization and the roots of modern interpretations of race and ethnicity The book s

structure and narrative are designed to encourage comparison and reflection Students critically analyze the history and context of U S racial and ethnic politics to build the skills needed to draw their own conclusions In the Second Edition of this groundbreaking text authors Shaw DeSipio Pinderhughes and Travis bring the historical narrative to life by addressing the most contemporary debates and challenges affecting U S racial and ethnic politics Students will explore important issues regarding voting rights political representation education and criminal justice policies and the immigrant experience A revised final chapter on intersectionality encourages students to examine how groups go beyond the boundaries of race and ethnicity to come together on matters of class gender and sexuality **Communities, Networks and Ethnic Politics** Ken Hahlo, 2018-08-10 First Published in 1998 this study explores ethnic community political participation in local politics in the North West British town The analysis is located within the framework of the shift from Fordism to post Fordism From 1965 to 1980 ethnic communities increased their access to scarce resources including political influence by engaging in ethnic politics Using membership of religious organisations as structures of support elected men deployed ethnic identities to compete with others for ethnic support and influence over local decision making processes This gave ethnic minorities a positive role in local politics With the support of local community relations councils CRCs ethnic politics flourished It gave ethnic communities real opportunities to participate as ethnic communities in politics Using local events ethnic leaders competed for political influence and ethnic support After 1977 the shift from Fordism to post Fordism brought about a decline in ethnic political participation While conferment of citizenship secured their right to stay in Britain the rise in consumerism undermined the manufacturing sector on which they depended for work With no ethnic political identity today these communities are again politically disadvantaged Ethnic Politics Milton Jacob Esman, 1994 1 Ethnic Solidarity as a Political Force The Scope of the Inquiry 2 A Common Conceptual Framework 3 Malaysia Native Sons and Immigrants 4 South Africa Multiple Cleavages 5 Israelis and Palestinians Whose Land 6 Canada Quebec Two Nations Warring in the Bosom of a Single State 7 International Migration and Labor Diasporas 8 The Stakes in Ethnic Conflict 9 Outcomes and Prospects

Ethnic Minorities, Political Competition, and Democracy Jan Rovny,2024-09-24 Ethnic minorities make contemporary Europe increasingly diverse The wisdom in research on ethnicity is that it is a trouble maker disrupting programmatic politics prioritizing group identity over ideology polity over policy principle over compromise In this book Jan Rovny approaches ethnic politics as normal politics and investigates the ideological potential of ethnicity He shows that ethnic minorities often search for group preservation by championing liberal rights that would protect them from the tyranny of the majority This translates into broader ideological preferences and political behavior including the formation of liberal political poles which in turn configures political cleavages shapes party systems and informs the absorption of new political issues Ultimately the presence of ethnic minorities can be a force for liberal democracy Simultaneously ethnic liberalism is circumstantial as conditional factors cross pressure ethnic minority search for rights and liberties potentially attenuating

ethnic liberalism and inducing exclusionary particularism This book combines the study of ethnic politics with research on electoral behavior and party competition while comparing minorities and majorities in eastern Europe The book analyzes existing and new data using mixed experimental quantitative and qualitative methods. The empirical chapters in the book are organized into two parts one focusing on large N comparative analyses while the other presents three in depth case studies on interwar Czechoslovakia contemporary Slovakia and contemporary Estonia Transformations in Governance is a major academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism and environmental and urban studies concerned with the dispersion of authority from central states to supranational institutions subnational governments and public private networks It brings together work that advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and Walter Mattli of the University of Oxford **Imagining the United States of Africa** E. Ike Udogu, 2015-02-10 This book frames the debates around the pressing desire for some form of unification that found expression in the pan Africanist movement and formation of the Organization of African Unity in Addis Ababa Ethiopia in 1963 following the advent of home rule for many former colonies of the Western powers Discussions in this volume address the following fundamental issues nationalism and political integration and how the contradictions between both philosophies can be resolved the amelioration of corruption in order to attract internal and external investments critical for developing the vast natural resources housed in the continent the need for Africa's adaptation to the ideology and practice of capitalism and liberal globalization to suit the character of African states in a projected federal United States of Africa solutions to ethnic conflicts that are bound to happen over clashes of competing group interests the indispensability and promotion of information communication technologies and urgent need to strengthen a network of regional electric power grids that would provide constant energy to the Union and lead to improvement in communication and economic growth and recommendation of social democracy as the genre of democracy suitable for a proposed United States of Africa Ethnicity and Electoral Politics Jóhanna Kristín Birnir, 2006-12-25 This book asks what distinguishes peaceful plural democracies from violent ones and what distinguishes violent ethnic groups from peaceful ones within the same democracy Contrary to conventional wisdom it suggests that ethnic groups and their political demands are not inherently intransigent and that violence is not a necessary corollary of ethnic politics. The book posits that ethnic identity serves as a stable but flexible information shortcut for political choices influencing party formation and development in new and maturing democracies It furthermore argues that political intransigence and violence expressed by some ethnic groups stem from circumstances exogenous to ethnic affiliations In particular absolute restrictions on ethnic access to the executive produce conditions under

which ethnic group incentive to participate in peaceful electoral politics is eliminated A number of case studies and statistical analysis of all electoral democracies since 1945 are used to test and support the formal argument
