Adler,Paul du Gay,Glenn Morgan,Michael Reed,2014-10-16 Sociology and social theory has always been a major source of new perspectives for organization studies

Access to a series of authoritative accounts of theorists and research themes in sociology and social theory which have influenced developments in organization studies is essential for those wishing to deepen and extend their knowledge of the intersection of sociology and organization studies. This goal is achieved by drawing on a group of internationally renowned scholars committed in their own work to strengthening these links and asking them to provide critical accounts of particular theorists and research themes which have straddled this divide. This volume aims to strengthen ties between organization studies and contemporary sociological work at a time when there are increasing institutional barriers to such cooperation potentially generating a myopia that constricts new developments. Used in conjunction with its companion volume *The Oxford Handbook of Sociology and Organization Studies*, the reader is provided with a comprehensive account of the productive and critical interaction between sociology and organization studies over many decades. Highly international in scope, theorists and themes are drawn from both the USA and Europe in equal measure. Similarly, the authors of the chapters are drawn from both sides of the Atlantic. The result is a series of chapters on individuals and key research themes and debates which will provide faculty and post graduate researchers with appreciative, authoritative and critical accounts that can be drawn on to design courses or provided as guided reading to the field. *A Geography of Heritage* Brian

Graham, Greg Ashworth, John Tunbridge, 2016-04-29. The concept of heritage relates to the ways in which contemporary society uses the past as a social, political or economic resource. However, heritage is open to interpretation and its value may be perceived from differing perspectives, often reflecting divisions in society. Moreover, the schism between the cultural and economic uses of heritage also gives rise to potential conflicts of interest. Examining these issues in depth, this book is the first sustained attempt to integrate the study of heritage into contemporary human geography. It is structured around three themes: the diversity of use and consumption of heritage as a multi-sold cultural and economic resource; the conflicts and tensions arising from this multiplicity of uses; producers and consumers; and the relationship between heritage and identity at a variety of scales. Interrogating International Relations Jayashree Vivekanandan, 2012-03-12. The book interrogates the disciplinary biases that inform mainstream International Relations today. Examining the grand strategy of the Mughal empire under Akbar, it argues for a historico-cultural notion of power and critiques IR's tendency to usher in a selective return of history.

Tatarstan's Autonomy within Putin's Russia Deniz Dinç, 2021-12-13. This book explores how the Volga Tatars, the largest ethnic minority within the Russian Federation, a Muslim minority, achieved a great deal of autonomy for Tatarstan in the years 1988 to 1992 but then lost this autonomy gradually over the course of the Putin era. It sets the issue in context, tracing the history of the Volga Tatars, the descendants of the Golden Horde whose Khans exercised overlordship over Muscovy in medieval times, and outlining Tsarist and Soviet nationalities policies and their enduring effects. It argues that a key factor driving the decline of greater autonomy, besides Putin's policies of harmonisation and centralisation, was the behaviour of the minority elites who were, despite their earlier engagement in ethnic mobilization, very acquiescent to the

new Putin regime deciding that co operation would maximise their privileges

The Hip Hop Movement Reiland Rabaka,2013-04-04 The Hip Hop Movement offers a critical theory and alternative history of rap music and hip hop culture by examining their roots in the popular musics and popular cultures of the Civil Rights Movement and Black Power Movement Connecting classic rhythm blues and rock roll to the Civil Rights Movement and classic soul and funk to the Black Power Movement The Hip Hop Movement explores what each of these musics and movements contributed to rap neo soul hip hop culture and the broader Hip Hop Movement Ultimately this book s remixes as opposed to chapters reveal that black popular music and black popular culture have always been more than merely popular music and popular culture in the conventional sense and reflect a broader social political and cultural movement With this in mind sociologist and musicologist Reiland Rabaka critically reinterprets rap and neo soul as popular expressions of the politics social visions and cultural values of a contemporary multi issue movement the Hip Hop Movement Rabaka argues that rap music hip hop culture and the Hip Hop Movement are as deserving of critical scholarly inquiry as previous black popular musics such as the spirituals blues ragtime jazz rhythm blues rock roll soul and funk and previous black popular movements such as the Black Women s Club Movement New Negro Movement Harlem Renaissance Civil Rights Movement Black Power Movement Black Arts Movement and Black Women s Liberation Movement This volume equal parts alternative history of hip hop and critical theory of hip hop challenges those scholars critics and fans of hip hop who lopsidedly over focus on commercial rap pop rap and gangsta rap while failing to acknowledge that there are more than three dozen genres of rap music and many other socially and politically progressive forms of hip hop culture beyond DJing MCing rapping beat making break dancing and graffiti writing

Du Bois's Dialectics Reiland Rabaka,2009-01-01 With chapters that undertake ideological critiques of education religion the politics of reparations and the problematics of black radical politics in contemporary culture and society Du Bois s Dialectics employs Du Bois as its critical theoretical point of departure and demonstrates his and Africana Studies contributions to as well as contemporary critical theory s connections to critical pedagogy sociology of religion and reparations theory Rabaka offers the first critical theoretical treatment of the W E B Du Bois Booker T Washington debate which lucidly highlights Du Bois s transition from a bourgeois black liberal to a black radical and revolutionary democratic socialist

Public Relations As Activism Derina R. Holtzhausen,2013-06-17 This volume applies postmodern theory to public relations providing an alternative lens to public relations theory and practice and developing public relations theory within the context of postmodernism Author Derina R Holtzhausen focuses on two key issues and their application to public relations theory and practice the postmodernization of society and the possibilities postmodern theories offer to explain and understand public relations practice in today s changing society Holtzhausen s argument is that existing theory should be evaluated from a postmodern perspective to determine its applicability to postmodernity Utilizing practitioner perspectives throughout the volume she explores the practice of public relations as a form of activism The volume is intended for scholars

and students in public relations It may be used as a supplemental text in advanced courses on public relations theory PR management organizational communication and related areas **Relocating Agency** Olakunle George,2012-02-01 2003 CHOICE Outstanding Academic Title Combining a sustained critical engagement of Anglo American theory with focused close readings of major African writers this book performs a long overdue cross fertilization of ideas among poststructuralism postcolonial theory and African literature The author examines several influential figures in current theory such as Habermas Althusser Laclau and Mouffe as well as the theorists of postcolonialism and offers an extended reading of the Nigerian writers D O Fagunwa Wole Soyinka Amos Tutuola and Chinua Achebe He argues that contrary to what the purism and voluntarism common to postcolonial theory might suggest one lesson of African letters is that significant agency can result from acts that are blind to their determinations For George African letters offer an instance of agency in motion as opposed to agency in theory Unlearning Nader N. Chokr,2013-09-25 One view of education appealing to the Latin root educare to train or mold aims to fill students heads with knowledge and turn them into disciplined normalized and potentially productive members of the workforce An alternative appealing to the Latin root educere to lead out or draw out wants to produce well trained minds and create individuals capable of questioning critical thinking imagination and self reflective deliberation as engaged citizens This book commends a third way inspired by the Greek notion of paideia which sees education as the process of educating person into their true form the real and genuine human nature This education is not about learning a trade It is a dynamic living thing in which the ability to UNlearn is essential for developing a good and capable citizen trained for freedom autonomy and virtue The Religious and Romantic Origins of Psychoanalysis Suzanne R. Kirschner,1996-02-23 In this book Suzanne Kirschner traces the origins of contemporary psychoanalysis back to the foundations of Judaeo Christian culture and challenges the prevailing view that modern theories of the self mark a radical break with religious and cultural tradition Instead she argues they offer an account of human development which has its beginnings in biblical theology and neoplatonic mysticism Drawing on a wide range of religious literary philosophical and anthropological sources Dr Kirschner demonstrates that current Anglo American psychoanalytic theories are but the latest version of a narrative that has been progressively secularized over the course of nearly two millennia She displays a deep understanding of psychoanalytic theories while at the same time raising provocative questions about their status as knowledge and as science *Philosophic Classics, Volume V* Forrest Baird,2023-05-31 For courses in 20th century Philosophy recent Continental Philosophy Anglo American Philosophy as part of courses in Contemporary Philosophy or courses on Epistemology or Metaphysics that take a historical approach This anthology in 20th century philosophical classics includes recent European and American philosophers and contains texts that are presently seen as classics or as emerging classics It features complete works or complete sections of works Includes introductions to each philosopher an abundance of drawings diagrams photographs and a timeline **Africana Critical Theory** Reiland Rabaka,2009-01-01 Africana Critical Theory innovatively
