Contesting Nordicness Jani Marjanen, Johan Strang, Mary Hilson, 2021-12-20 The terms Nordic and Scandinavian are widely used to refer to the politics society and culture of Denmark Finland Iceland Norway and Sweden But why have people felt the need to frame things as Nordic and why has the adjective Nordic become so prominent This book adopts a rhetorical approach analysing the speech acts which have shaped the meanings of the term What do the different terms Nordic and Scandinavian have in common and how have the uses of these terms changed in different historical periods What accounts for the apparent upsurge in uses of the rhetoric of Nordicness in the 2010s Drawing on eight case studies of the uses of Nordic and Scandinavian from the nineteenth century to the present day the book explores the appeal and the flexibility of the rhetoric of Nordicness in relation to race openness gender equality food crime fiction Nordic co operation and the Nordic model Arguing that Nordic and Scandinavian are flexible and contested concepts that have been used in different often contradictory and inherently political ways the book suggests that the usage of the term has evolved from a means of creating a cultural community to forging political co operation and further to marketing models in politics and popular culture The rhetorical approach also shows how many of the hallmarks of Nordic political culture such as the Nordic model Nordic gender equality or Nordic openness are more recent conceptualisations than usually assumed As such the book argues for the need to turn attention away from analysing the different components of Nordicness into studying how when and for what purpose different features were made Nordic

Banking on Death Robin Blackburn,2020-05-05 Banking on Death offers a panoramic view of the history and future of pension provision A work of unique scope it traces the origins and development of the pension idea from the days of the French Revolution to the troubles of the modern welfare state As we live longer employers are closing their pension schemes and many claim that public treasuries will not be able to cope with the retirement of the babyboomers Banking on Death analyses the challenge facing public schemes and the malfunctioning of private retirement provision concluding with a bold proposal for how to pay for decent pensions for all Robin Blackburn argues that pension funds have been depleted by wasteful promotion and used as gambling chips by ruthless and overpaid top executives This is the world of grey capitalism where employees savings are sequestered from them and pressed into the service of corporate aggrandisement Even the best companies find it hard to run a business and a pension fund at the same time especially when the latter is larger than the former The fund managers notorious short termism and herd instinct and their failure to curb the greed and irresponsibility of the corporate elite lead to obscene inequalities and a blighted social landscape The pension privatisation lobby Blackburn shows has lost major battles in France and Germany the United States and Italy because of the popular fears it evokes And the case for privatisation looks intellectually threadbare after withering critiques from such notable theorists as Joseph Stiglitz and Pierre Bourdieu Banking on Death shows that pensions are political dynamite and have undone governments from France and Italy to Argentina Popular outcries led Reagan Clinton and Blair to change tack will this happen to George W Bush too Blackburn argues that the ageing society will generate increased costs but so long as the new life course is properly financed all age groups will gain He proposes a public regime of asset based welfare drawing on the ideas of John Maynard Keynes and Rudolf Meidner that could ensure secondary pensions for all and foster a more responsible egalitarian and humane pattern of economic development
