Networks, Movements and Technopolitics in Latin America Francisco Sierra Caballero, Tommaso Gravante, 2017-11-09 This edited collection presents original and compelling research about contemporary experiences of Latin American movements and politics in several countries The book proposes a theoretical framework that conceptualises different mediation processes that emerge between cyberdemocracy and the emancipation practices of new social movements Additionally this volume presents some Latin American practices and experiences that are autonomously and by using self management creating other identities and social spaces on the margins of and against the neoliberal system through the use of digital technology This book will be of great interest to scholars of media and social movements studies as well as of contemporary politics

The Politics of Technology in Africa Iginio Gagliardone, 2016-11-10 As more Africans get online information and communication technologies ICTs are increasingly hailed for their transformative potential Yet the fascination for the possibilities of promoting more inclusive forms of development in the information age have obfuscated the reality of the complex negotiations among political and economic actors who are seeking to use technology in their competition for power Building on over ten years of research in Ethiopia Iginio Gagliardone investigates the relationship between politics development and technological adoption in Africa s second most populous country and its largest recipient of development aid The emphasis the book places on the technopolitics of ICTs and on their ability to embody and enact political goals offers a strong and empirically grounded counter argument to prevalent approaches to the study of technology and development that can be applied to other cases in Africa and beyond

The Politics and Technology of Nuclear Proliferation Robert F. Mozley, 2011-10-01 Politics and technology intersect in the international effort to prevent nuclear proliferation Written for scientists policy makers journalists students and concerned citizens The Politics and Technology of Nuclear Proliferation makes a highly complex subject understandable This comprehensive overview provides information about both the basic technologies and the political realities Methods of producing weapon materials plutonium and highly enriched uranium as well as their use in bombs are described in detail as is the generally successful international effort to prevent the spread of the ability to make nuclear weapons In explaining the problems the world will face if nuclear weapons become generally available Mozley summarizes and reviews the methods used to prevent proliferation and describes the

status of those nations involved in trade in nuclear materials He places emphasis on the danger of attack by renegade nations or terrorist groups particularly the possibility that weapon material might be stolen from the presently impoverished and unstable former Soviet Union *Digital Technologies for Democratic Governance in Latin America* Anita Breuer,Yanina Welp,2014-01-10 This book is the first to comprehensively analyse the political and societal impacts of new Information and Communication Technologies ICT in a region of the Global South It evaluates under what conditions some Latin American governments and people have succeeded in taking up the opportunities related to the spread of ICTs while others are confronted with the pessimist scenario of increased digitally induced social and democratic cleavages Specifically the book examines if and how far the spread and use of new ICT affected central aims of democratic governance such as reducing socio economic and gender inequality strengthening citizen participation in political decision making increasing the transparency of legislative processes improving administrative processes providing free access to government data and information and expanding independent spaces of citizen communication The country case and cross country explore a range of bottom up driven initiatives to reinforce democracy in the region The book offers researchers and students an interdisciplinary approach to these issues by linking it to established theories of media and politics political communication political participation and governance Giving voice to researchers native to the region and with direct experience of the region it uniquely brings together contributions from political scientists researchers in communication studies and area studies specialists who have a solid record in political activism and international development co operation *Politics and Technology in the Post-Truth Era* Anna Visvizi,Miltiadis D. Lytras,2019-05-07 This book examines the relationship between information and communication technology ICT and politics in a global perspective *Politics, Technology, and Bureaucracy in South Asia* Malik,2022-05-09 **Information Technology and World Politics** Michael J. Mazarr,2002-12-05 This unique collection of essays explores the intricacies of how the Internet has changed the way we currently approach international security civil society and economic development The contributors move past the conventional wisdom tapping new and original sources to investigate new and unexpected developments One essay explores how wiring Russia's nuclear scientists into the Internet increases the threat of weapons proliferation Another looks at Internet enabled development projects and despite early success stories in Bangalore India explains why they will fail Together the essays in this collection try to bring a dose of reality to the rose colored futures many have predicted for world politics in the Information Age

Technology, Literature, and Digital Culture in Latin America Matthew Bush,Tania Gentic,2015-07-16 Grappling with the contemporary Latin American literary climate and its relationship to the pervasive technologies that shape global society this book visits Latin American literature technology and digital culture from the post boom era to the present day The volume examines literature in dialogue with the newest media including videogames blogs electronic literature and social networking sites as well as older forms of technology such as film photography television and music Together the essays interrogate how

the global networked subject has affected local political and cultural concerns in Latin America They show that this subject reflects an affective mode of knowledge that can transform the way scholars understand the effects of reading and spectatorship on the production of political communities The collection thus addresses a series of issues crucial to current and future discussions of literature and culture in Latin America how literary visual and digital artists make technology a formal element of their work how technology from photographs to blogs is represented in text and the ramifications of that presence how new media alters the material circulation of culture in Latin America how readership changes in a globalized electronic landscape and how critical approaches to the convergences boundaries and protocols of new media might transform our understanding of the literature and culture produced or received in Latin America today and in the future

Politics Latin America Gavin O'Toole,2017-08-23 *Politics Latin America* examines the role of Latin America in the world and its importance to the study of politics with particular emphasis on the institutions and processes that exist to guarantee democracy and the forces that threaten to compromise it Now in its third edition and fully revised to reflect recent developments in the region *Politics Latin America* provides students and teachers with an accessible overview of the region s unique political and economic landscape covering every aspect of governance in its 21 countries The book examines the international relations of Latin American states as they seek to carve out a role in an increasingly globalised world and will be an ideal introduction for undergraduate courses in Latin American politics comparative politics and other disciplines This new edition will include updated references to scholarship and debates new themes such as environmental rights women presidents the Latin American Pope Afro Latinos and the politics of sexual diversity examination of demographic change and social movements a new chapter on environmental economics and sustainable development This book is essential reading for undergraduates taking courses in Latin American Politics

East-West Relations in the 1990s: Politics and Technology (Praaning east-westrelations 1990's) Charles M. Perry,Rio Praaning,2024-12-09 **The Global Politics of Science and Technology - Vol. 2** Maximilian Mayer,Mariana Carpes,Ruth Knoblich,2014-08-20 An increasing number of scholars have begun to see science and technology as relevant issues in International Relations IR acknowledging the impact of material elements technical instruments and scientific practices on international security statehood and global governance This two volume collection brings the debate about science and technology to the center of International Relations It shows how integrating science and technology translates into novel analytical frameworks conceptual approaches and empirical puzzles and thereby offers a state of the art review of various methodological and theoretical ways in which sciences and technologies matter for the study of international affairs and world politics The authors not only offer a set of practical examples of research frameworks for experts and students alike but also propose a conceptual space for interdisciplinary learning in order to improve our understanding of the global politics of science and technology The second volume raises a plethora of issue areas actors and cases under the umbrella notion techno politics Distinguishing between interactional and

co productive perspectives it outlines a toolbox of analytical frameworks that transcend technological determinism and social constructivism *The Politics of Humanitarian Technology* Katja Lindskov Jacobsen,2015-06-05 This book offers a detailed exploration of three examples of humanitarian uses of new technology employing key theoretical insights from Foucault We are currently seeing a humanitarian turn to new digital technologies such as biometrics remote sensing and surveillance drones However such humanitarian uses of new technology have not always produced beneficial results for those at the receiving end and have sometimes exposed the subjects of assistance to additional risks and insecurities Engaging with key insights from the work of Foucault combined with selected concepts from the Science and Technology Studies literature this book produces an analytical framework that opens up the analysis to details of power and control at the level of materiality that are often ignored in liberal histories of war and modernity Whereas Foucault details the design of prisons factories schools etc this book is original in its use of his work in that it uses these key insights about the details of power embedded in material design but shifts the attention to the technologies and attending forms of power that have been experimented with in the three humanitarian endeavours presented in the book In doing so the book provides new information about aspects of liberal humanitarianism that contemporary critical analyses have largely neglected This book will be of interest to students of humanitarian studies peace and conflict studies critical security studies and IR in general **Communication,**

Technology, and Politics in the Information Age Gerald Sussman,1997-09-09 Gerald Sussman offers a detailed critical analysis of the political dimensions of 21st century communication information technologies mass media and transnational networks *Politics of Oil and Nuclear Technology in Iran* Akbar E. Torbat,2020-02-19 This book focuses on oil politics and the development of nuclear technology in Iran providing a broader historical context to understand Iran s foreign relations and nuclear policy The author assesses Iran s encounters with the West in light of major confrontations both in terms of open conflict as well as controversies surrounding treaties with foreign powers In seeking to understand the geopolitics of oil in direct parallel to the geopolitics of nuclear technology the book concentrates on Iran s struggles to nationalize its oil neo colonialism the formation of the oil consortium and the more recent US backtracking on the nuclear deal with Iran

Politics, Technology and Development Joseph S. Szyliowicz,1991-06-18 An in depth study of the process of descision making in both an empirical and theoretical context within the iron and steel industry in Turkey with respect to the planning development and implementation of major construction projects **The Politics and Technology of Cyberspace** Danny Steed,2019-06-03 Addressing the problems surrounding cyber security and cyberspace this book bridges the gap between the technical and political worlds to increase our understanding of this major security concern in our IT dependent society and the risks it presents Only by establishing a sound technical understanding of what is and is not possible can a properly informed discussion take place and political visions toward cyberspace accurately map and predict the future of cyber security Combining research from the technical world that creates cyberspace with that of the political world which seeks to

understand the consequences and uses of cyberspace Steed analyses and explains the circumstances that have led to current situations whereby IT dependent societies are vulnerable to and regularly victims of hacking terrorism espionage and cyberwar Two fundamental questions are considered throughout the book what circumstances led to this state of affairs And what solutions exist for the future of cyberspace In tackling these questions Steed also analyses the emergent and increasingly competing political positions on offer to stabilise the landscape of cyberspace This interdisciplinary work will appeal to researchers and students of Security Studies Intelligence Studies Strategic Studies and International Relations as well as cybersecurity practitioners charged with developing policy options
