Democratic Culture and Moral Character Jerome Braun, 2013-06-03 This book returns critical theory to its roots in both psychology and the social sciences It shows some of the relationships between equality in a political and social sense and personal identity that either relates well to such equality or rebels against it All this reflects processes of social and cultural influence that involve not only random change but also processes of social and cultural evolution that themselves have effects regarding potentials for self fulfillment and even public morality This book provides a framework to help one study the interaction between individual aspirations and social opportunities Jerome Braun known for his writings in interdisciplinary social science an approach he calls pragmatic critical theory here provides a book that discusses issues

relevant to the moral underpinnings of democratic society including issues of social evolution and of culture and personality This book will be of particular interest to scholars and students of Psychology particularly in the areas of Psychology of Personality and Cultural Psychology Sociology especially those interested in Sociology of Alienation and Sociology of Culture as well as Sociology of Mental Health Anthropology particularly in the area of Psychological Anthropology Cultural Studies and Social Theory in general **Experts, Activists, and Interdependent Citizens** T. The Self and Society in Aging Processes Carol D. Ryff, PhD, Victor W. Marshall, PhD, 1999-06-23 This volume focuses on the experience of growing old as it is linked to societal factors Ryff and Marshall construct this macro view of aging in society by bridging disciplines and bringing together contributors from all the social sciences The book is organized into three sections theoretical perspectives socioeconomic structures and contexts of self and society Leading psychologists anthropologists gerontologists and sociologists present theoretical and empirical advances that forge links between the individual and the social aspects of aging It is must reading for researchers in all gerontologic specialties and a valuable text for graduate courses in human development psychology of aging and other social aspects of aging Institutions, Mobilisation, and Political Participation Laura Morales Diez de Ulzurrun, 2004 Esta tesis mantiene que no podemos entender completamente el asociacionismo pol tico de los ciudadanos a menos que fijemos nuestra mirada m s all de las caracter sticas individuales es decir a menos que intentemos comprender qu efecto tiene sobre su comportamiento pol tico el contexto pol tico y social en el que los ciudadanos act an Los recursos y las caracter sticas socioecon micas proporcionan oportunidades para unirse a organizaciones pol ticas Las actitudes y las orientaciones proveen o por el contrario reducen la motivaci n para unirse a un grupo con objetivos pol ticos Sin embargo estos rasgos individuales no son necesariamente factores de desigualdad en todas las sociedades ni tienen siempre las mismas consecuencias El contexto social y pol tico en el que los

ciudadanos toman decisiones sobre su participaci n interact a de manera importante con los rasgos individuales para activar o desactivar su impacto pol tico Adem s el contexto social y pol tico que rodea a los ciudadanos tiene tambi n un impacto independiente sobre su comportamiento pol tico Las instituciones pol ticas y las pautas de movilizaci n pol tica condicionan de manera crucial el asociacionismo pol tico Estos dos conjuntos de factores instituciones y movilizaci n estructuran las oportunidades de participaci n que en realidad tienen los ciudadanos De hecho algunos sistemas democr ticos han desarrollado instituciones pol ticas que facilitan la pertenencia a grupos pol ticos As mientras que en algunos pa ses occidentales los ciudadanos son movilizados con mucha frecuencia a trav s de asociaciones pol ticas en otros lo son en mucha menor medida Esta tesis es por lo tanto un intento de incorporar de una manera sistem tica la pol tica y las instituciones en el an lisis del comportamiento pol tico A lo largo de la misma se demuestra que las enormes diferencias entre los pa ses occidentales en t rminos de la propensi n de sus respectivos ciudadanos a organizarse pol ticamente no pueden explicarse s lo por las distintas caracter sticas socioecon micas de los individuos Sin duda estos aspectos tambi n contribuyen a que sean menos participativos pero no nos ayudan gran cosa a explicar las variaciones que encontramos entre sociedades occidentales Los resultados de esta investigaci n ponen de manifiesto la enorme importancia del contexto sociopol tico para explicar por qu los ciudadanos de algunas democracias occidentales participan en pol tica a trav s de organizaciones y por qu no lo hacen los de otras sociedades similares Determinadas estructuras de oportunidades pol ticas favorecen la participaci n de los ciudadanos de manera muy importante As sistemas pol ticos m s abiertos a la influencia de las organizaciones pol ticas gracias a la existencia de arreglos corporativistas de intermediaci n de intereses y al mayor pluralismo y fragmentaci n de la representaci n parlamentaria contribuyen a que los ciudadanos encuentren mayores incentivos para participar en los asuntos p blicos Del mismo modo el grado en que las propias organizaciones pol ticas act an como agentes efectivos de movilizaci n pol tica influye en el comportamiento participativo de los ciudadanos All donde las organizaciones pol ticas tienen una red organizativa y de infraestructuras m s densas los ciudadanos est n m s expuestos a los est mulos de reclutamiento pol tico y por tanto participan m s Adem s el contexto pol tico no s lo estructura las oportunidades de participaci n de los ciudadanos sino que tambi n interact a con las caracter sticas de los propios ciudadanos contribuyendo as a aumentar o disminuir las desigualdades participativas de los mismos Las estructuras pol ticas m s abiertas y accesibles disminuyen las barreras y los costes a la participaci n de tal manera que los individuos con menores recursos socioecon micos por ejemplo la educaci n no se encuentran tan desfavorecidos en su capacidad de influir en el proceso de toma de decisiones Por el contrario las estructuras pol ticas m s cerradas exacerban el efecto de las desigualdades sociales y las transforman en desigualdades pol ticas De esta manera el contexto pol tico tiene un doble efecto sobre el asociacionismo pol tico en las democracias occidentales Por un lado condiciona cu nta gente participa en los asuntos p blicos a trav s de organizaciones pol ticas y por otro incide en qui nes son los que participan Los sistemas pol ticos m s abiertos extienden e igualan la participaci n

organizada de los ciudadanos los sistemas políticos más cerrados reducen la participación y la hacen más desigual socialmente

On the Interactions of News Media, Interpersonal Communication, Opinion Formation, and Participation

Jooheon Kim, 1997-12 Deliberative democracy can be defined as a political system based on citizens' voluntary and free discussions on public issues. Most scholars have discussed deliberative democracy within normative boundaries. However, based primarily on Katz's interpretation of Tardé, this study finds the concept of public sphere a useful framework for operationalizing the normative concept of deliberative democracy since the four components of the public sphere—news media use, interpersonal communication, opinion formation, and political participation—provide us with empirically testable categories. This study tests the validity of theories of deliberative democracy through examining the interrelationships among the four components of the public sphere. Methodologically, it includes a set of 63 items to probe where people talk and what they talk about in their daily life. An experimental treatment—a stop and talk question—is also included in the survey to simulate the effects of real conversation. Through a set of data gathered from a nationwide survey, sufficient evidence was found to support the basic hypotheses: 1) news media use encourages people to have political conversation; 2) news media use and political conversation tend to enhance the quality of opinions measured by consistency, opinionation, and consideredness; 3) news media use, political conversation, and enhanced opinions encourage political participation. The significance of this study is that 1) unlike other media effects studies, its dependent variables are not just of opinion positions or attitude changes but also opinion quality; 2) it does not consider media alone but deals with the combined effects of interpersonal communication, conversation, and mass media/news media use; 3) it combines an experimental design with a nationwide survey; and 4) it assumes that the effects of mass media do not stop at people's attitudes but are extended to their activities.

Society Philip A. Cowan, Dorothy Field, Donald A. Hansen, Arlene Skolnick, Guy E. Swanson, 2014-05-22 Any agenda for family research in the 1990s must take seriously a contextual approach to the study of family relationships. The editors and contributors to this volume believe that the richness in family studies over the next decade will come from considering the diversity of family forms, different ethnic groups and cultures, different stages of family life, as well as different historical cohorts. Their goal is to make more explicit how we think about families in order to study them and understand them. To illustrate the need for diversity in family studies, examples are presented from new and old families, majority and minority families, American and Japanese families, and intact and divorcing families. This variety is intended to push the limits of current thinking, not only for researchers but also for all who are struggling to live with and work with families in a time when family life is valued but fragmented and relatively unsupported by society's institutions. Students and researchers interested in family development from the viewpoint of any of the social sciences will find this book of value. *Joining*

Political Organisations Laura Morales,2009-04-01 From political parties to environmental organisations citizens join a host of associations in order to influence policymaking and political agendas Yet why in some western democracies do citizens join political organisations much more than in others Drawing on a large number of crossnational surveys and data sets Morales shows that huge crossnational variations in political membership are not so much related to social or attitudinal differences between these countries citizens but are explained to a great extent by the structure of the political system of each nation
