Politics Theology And History:

Politics, Theology and History Raymond Plant, 2001-01-29 This book examines the moral foundations of liberal societies through the role of Christian belief in public policy Christianity and Politics C. C. Pecknold, 2010-08-06 It is not simply for rhetorical flourish that politicians so regularly invoke God's blessings on the country It is because the relatively new form of power we call the nation state arose out of a Western political imagination steeped in Christianity In this brief guide to the history of Christianity and politics Pecknold shows how early Christianity reshaped the Western political imagination with its new theological claims about eschatological time participation and communion with God and neighbor The ancient view of the Church as the mystical body of Christ is singled out in particular as the author traces shifts in its use and meaning throughout the early medieval and modern periods shifts in how we understand the nature of the person community and the moral conscience that would give birth to a new relationship between Christianity and politics While we have many accounts of this narrative from either political or ecclesiastical history we have few that avoid the artificial separation of the two This book fills that gap and presents a readable concise and thought provoking introduction to what is at stake in the contentious relationship between Christianity and politics **American Political Theology** Chas Dunn, 1984-08-15 Dunn has admirably fulfilled his modest and useful intention to provide in textbook fashion a dispassionate exposition of how why and when politics and religion intersect Chronicles Postsecular History Maxwell Kennel, 2022 This book explores how contemporary approaches to the meaning of time and history follow patterns that are simultaneously political and theological Even after postsecular critiques of Christianity religion and secularity many influential ways of dividing time and history continue to be formed by providential narratives that mediate between experience and expectation in movements from promise to fulfilment In response to persistent theological influences within ostensibly secular ways of understanding time and history Postsecular History revisits and revises the concept of periodization by tracing powerful efforts to divide time into past present and future and by critiquing historical partitions between the Reformation and Enlightenment Developing a postsecular critique of theopolitical periodization in six chapters Postsecular History questions how relations of possession novelty freedom and instrumentality implied in the prefix post are reproduced in postsecular discourses and the field of political theology **The Encyclopedia of Christianity, Vol. 5** Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world the articles in this volume range from sin Sufism and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth **The English Modernist Novel as Political Theology** Charles Andrews, 2024-01-11 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE novels by Virginia Woolf D H Lawrence Evelyn Waugh and Sylvia Townsend Warner as political theology works that imagine a resistance to the fusion of Christianity and patriotism which fuelled and supported the First World War this book shows how we can gain valuable insights from their works for anti militarist anti statist and anti nationalist efforts today While none of

the four novelists in this study were committed Christians during the 1920s Andrews explores how their fiction written in the wake of the First World War operates theologically when it challenges English civil religion the rituals of the nation that elevate the state to a form of divinity Bringing these novels into a dialogue with recent political theologies by theorists and theologians including Giorgio Agamben William Cavanaugh Simon Critchley Michel Foucault Stanley Hauerwas and Jürgen Moltmann this book shows the myriad ways that we can learn from the authors theopolitical imaginations Andrews demonstrates the many ways that these novelists issue a challenge to the problems with civil religion and the sacralized nation state and in so doing offer alternative visions to coordinate our inner lives with our public and collective actions

Theo-politics of the Hussite Movement Martin Pjecha, 2024-08-26 This intellectual history of the dissident Hussite reform movement in early 15th century Bohemia explains the process of Hussite radicalization which led to their overthrow of secular and religious structures in the so called first European revolution It does this by discovering the political relevance of diverse heterodox leaders and the discourses they adapted into mobilizing calls to conflict As such the work represents a reimagining of the Hussite revolution which emphasizes the symbolic worldview of its agents This includes an appreciation of the Hussite debt to unexpected traditions of thought and of the movement's participation in innovative visions of theopolitical order

Apocalyptic Political Theology Thomas Lynch, 2019-01-24 Hegel's philosophy of religion contains an implicit political theology When viewed in connection with his wider work on subjectivity history and politics this political theology is a resource for apocalyptic thinking In a world of climate change inequality oppressive gender roles and racism Hegel can be used to theorise the hope found in the end of that world Histories of apocalyptic thinking draw a line connecting the medieval prophet Joachim of Fiore and Marx This line passes through Hegel who transforms the relationship between philosophy and theology by philosophically employing theological concepts to critique the world Jacob Taubes provides an example of this Hegelian political theology weaving Christianity Judaism and philosophy to develop an apocalypticism that is not invested in the world Taubes awaits the end of the world knowing that apocalyptic destruction is also a form of creation Catherine Malabou discusses this relationship between destruction and creation in terms of plasticity Using plasticity to reformulate apocalypticism allows for a form of apocalyptic thinking that is immanent and materialist Together Hegel Taubes and Malabou provide the resources for thinking about why the world should end The resulting apocalyptic pessimism is not passive but requires an active refusal of the world

T&T Clark Handbook of Political Theology Rubén Rosario Rodríguez, 2019-10-03 The T and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges emphasizing interreligious dialogue even while addressing concerns of relevance to a particular faith tradition The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion Complete with select bibliographies for each topic this companion features the most current overview of political theology that will reach a broader global audience of

students and scholars **Theology and World Politics** Vassilios Paipais, 2020 Situated within the wider post secular turn in politics and international relations this volume focuses not on religion per se but rather explicitly on theology Contributions to this collection highlight the political theological foundations of international theory and world politics recasting theology and politics as symbiotic discourses with all the risks promises and open questions this relation may involve The overarching claim the book makes is that all politics has theology embedded in it both in the genealogical sense of carrying ineradicable traces of rival theological traditions and also in the more ontological sense of being enacted by alternative configurations of the theologico political The book is unique in bringing together a diverse group of scholars spanning knowledge areas as varied as IR political theory philosophy theology and history to investigate the complex interconnections between theology and world politics It will be of interest to students and scholars of political theory international relations intellectual history and political theology Vassilios Paipais is Lecturer in International Relations at the University of St Andrews UK He is the author of *Political Ontology and International Political Thought Voiding a Pluralist World* 2017 **God, Race, and History** Matt R. Jantzen, 2021-02-05 In crafting racial visions of the modern world European thinkers appropriated the Christian doctrine of providence constructing the idea of European humanity's rule over the globe on the model of God's rule over the universe As a powerful ordering theory of the relationship between God and creation time and space self and other the doctrine served as an intellectual framework for the theorization of whiteness as the male European subject replaced Jesus Christ as the human being at the center of world history Through an analysis of the work of G W F Hegel Karl Barth and James H Cone *God Race and History* examines this subversion of the Christian doctrine of providence as well as subsequent attempts within modern Protestant theology to liberate the doctrine from its captivity to whiteness It then develops a constructive political theology of providence in conversation with Delores S Williams and M Shawn Copeland discerning Jesus Christ at work through the Holy Spirit in the struggles of ordinary overlooked and oppressed human creatures to survive and to carve out a flourishing life for themselves their communities and their world

The Political Discourse of Carl Schmitt Montserrat Herrero, 2015-08-06 Carl Schmitt is a key figure in modern political thought but discussion of his work often focuses upon specific elements or themes within his texts This book provides a wide ranging discussion of Carl Schmitt's discourse and provides a new perspective on his contribution presenting the idea of *Nomos of the Earth* as the key idea that organizes his political and legal discourse This book creates a reverse genealogy of Schmitt's theoretical system starting from his legal and political concept of *nomos* so as to reconstruct his understanding of order It connects the different topics the Carl Schmitt developed along his intellectual trajectory which have generally been approached in separate ways by scholars the legal theory the concept of the political the theory of international relations and political theology The text considers the whole of Carl Schmitt's work including writings that have been previously unknown to the English speaking academy old journals with just three or four pages newspaper articles

manuscripts of conferences and Festschriften. It provides a balanced examination of the whole complex of Carl Schmitt's political discourse.

Leo Strauss and the Theologico-Political Problem Heinrich Meier, 2006-12-25 This book by one of the most prominent interpreters of Leo Strauss's thought was the first to address the problem that Leo Strauss himself said was the theme of his studies: the theologico-political problem or the confrontation with the theological and the political alternative to philosophy as a way of life. In his theologico-political treatise which comprises four parts and an appendix, Heinrich Meier clarifies the distinction between political theology and political philosophy and reappraises the unifying center of Strauss's philosophical enterprise. The book is the culmination of Meier's work on the theologico-political problem. It will interest anyone who seeks to understand both the problem caused by revelation for philosophy and the challenge posed by political religious radicalism. The appendix makes available for the first time two lectures by Strauss that are immediately relevant to the subject of this book and that will open the way for future research and debate on the legacy of Strauss.

Professor of Apocalypse Jerry Z. Muller, 2022-05-24 The controversial Jewish thinker whose tortured path led him into the heart of twentieth-century intellectual life. Scion of a distinguished line of Talmudic scholars, Jacob Taubes (1923-1987) was an intellectual impresario whose inner restlessness led him from prewar Vienna to Zurich, Israel, and Cold War Berlin. Regarded by some as a genius, by others as a charlatan, Taubes moved among yeshivas, monasteries, and leading academic institutions on three continents. He wandered between Judaism and Christianity, left and right piety and transgression. Along the way, he interacted with many of the leading minds of the age, from Leo Strauss and Gershom Scholem to Herbert Marcuse, Susan Sontag, and Carl Schmitt. *Professor of Apocalypse* is the definitive biography of this enigmatic figure and a vibrant mosaic of twentieth-century intellectual life. Jerry Muller shows how Taubes's personal tensions mirrored broader conflicts between religious belief and scholarship, allegiance to Jewish origins and the urge to escape them, tradition and radicalism, and religion and politics. He traces Taubes's emergence as a prominent interpreter of the Apostle Paul, influencing generations of scholars, and how his journey led him from crisis theology to the Frankfurt School and from a radical Hasidic sect in Jerusalem to the center of academic debates over Gnosticism, secularization, and the revolutionary potential of apocalypticism. *Professor of Apocalypse* offers an unforgettable account of an electrifying world of ideas focused on a charismatic personality who thrived on controversy and conflict.

The Dramatic Society Klaas Tindemans, 2022-10-26 All societies are by their very nature dramatic. They present themselves especially for those who want to look back in time as a fascinating and confusing whole of theatrical events and constructions. Sometimes the theatre itself succeeds in capturing that fascination and confusion. This book describes the dramatic society in the form of case studies that link politics, history, and culture. *The Dramatic Society* uses selected plays to examine specific moments in history. Its range of subjects are extremely diverse, including Medea as an icon of terrorism, a choreography based upon Shakespeare's *As You Like It*, horror movies about the German unification, a truth commission dealing with human zoos, and the reconstruction of Ai Weiwei's

troubles with the tax authorities This collection of insightful essays deals with theatrical performances including happenings installations and movies of the past fifty years with every chapter attempting to link artistic events with politics and political theory from Hannah Arendt to Slavoj i ek This is a revealing assessment of the ways in which drama and politics become intertwined offering crucial insights for scholars and students of theatre studies performance studies contemporary politics and cultural studies
