Magna Carta Ancestry: A Study in Colonial and Medieval Families, 2nd Edition, 2011 , The Site of Petrarchism William J. Kennedy, 2004-12-01 Drawing upon poststructuralist theories of nationalism and national identity developed by such writers as Etienne Balibar Emmanuel Levinas Julia Kristeva Antonio Negri and Slavoj Zizek noted Renaissance scholar William J Kennedy argues that the Petrarchan sonnet serves as a site for early modern expressions of national sentiment in Italy France England Spain and Germany Kennedy pursues this argument through historical research into Renaissance commentaries on Petrarch's poetry and critical studies of such poets as Lorenzo de Medici Joachim du Bellay and the Pléiade brigade Philip and Mary Sidney and Mary Wroth Kennedy begins with a survey of Petrarch's poetry and its citation in Italy explaining how major commentators tried to present Petrarch as a spokesperson for competing versions of national identity He then shows how Petrarch's model helped define social class political power and national identity in mid sixteenth century France particularly in the nationalistic sonnet cycles of Joachim Du Bellay Finally Kennedy discusses how Philip Sidney and his sister Mary and niece Mary Wroth reworked Petrarch's model to secure their family's involvement in forging a national policy under Elizabeth I and James I Treating the subject of early modern national expression from a broad comparative perspective The Site of Petrarchism will be of interest to scholars of late medieval and early modern literature in Europe historians of culture and critical theorists

Postcolonial Theory and the Specter of Capital Vivek Chibber, 2013-03-12 Postcolonial theory has become enormously influential as a framework for understanding the Global South It is also a school of thought popular because of its rejection of the supposedly universalizing categories of the Enlightenment In this devastating critique mounted on behalf of the radical Enlightenment tradition Vivek Chibber offers the most comprehensive response yet to postcolonial theory Focusing on the hugely popular Subaltern Studies project Chibber shows that its foundational arguments are based on a series of analytical and historical misapprehensions He

demonstrates that it is possible to affirm a universalizing theory without succumbing to Eurocentrism or reductionism

Postcolonial Theory and the Specter of Capital promises to be a historical milestone in contemporary social theory [A Brief History of the English Reformation](#) Derek Wilson, 2012-06-21 Religion politics and fear how England was transformed by the Tudors The English Reformation was a unique turning point in English history Derek Wilson retells the story of how the Tudor monarchs transformed English religion and why it still matters today Recent scholarly research has undermined the traditional view of the Reformation as an event that occurred solely amongst the elite Wilson now shows that although the transformation was political and had a huge impact on English identity on England's relationships with its European neighbours and on the foundations of its empire it was essentially a revolution from the ground up By 1600 in just eighty years England had become a radically different nation in which family work and politics as well as religion were dramatically altered Praise for Derek Wilson Stimulating and authoritative John Guy Masterly Wilson has a deep understanding of characters reaching out across the centuries Sunday Times *Bastard Feudalism* M.A. Hicks, 2013-11-26 This major work is the most radical reinterpretation of the subject for fifty years Hicks argues that Bastard Feudalism was far more complex and positive in its effects than previous accounts have suggested A major contribution to historical debate which revolutionises our view of late medieval society *The Ebbs and Flows of Fortune* David M. Head, 1995-01-01 The Ebbs and Flows of Fortune is the first comprehensive biography of Norfolk In this study David M Head confronts the central paradox of Norfolk's career one that lies in his unpleasant personality marked by vain and tyrannical behavior Ultimately these flaws prohibited him from achieving the social position he believed was owed to him mainly because of his family's status and wealth Essentially a conservative socially and religiously Norfolk was uncomfortable with reformation ideology and the low brow men of the court The duke sought a primary position within the court on the model of that earned by Cromwell and Wolsey but was unwilling to perform the sustained hard work required to achieve that stature By the 1540s Norfolk was probably the richest man in England but nonetheless at the hands of Cromwell and Wolsey he was repeatedly exiled from the court for emotional excesses He found himself assigned to posts at considerable distances from the crown military assignments in France and diplomatic appointments to Ireland and Scotland While in France he illustrated the cruelty of his character by hanging dozens of men and lamenting his lack of authority to execute more *Encyclopedia of Tudor England* John A.
