Power Sharing in Lebanon Eduardo Wassim Aboultaif, 2019-01-15 This book studies the origins and evolution of power sharing in Lebanon The author has established a relationship between mobilization ethnurgy ethnic identification memory and trauma and how they impact power sharing provisions The book starts with the

events in the 1820s when communities began to politicize their identities and which led to the first major outbreak of civil violence between the Druze and the Maronites. Consequently these troubled four decades in Lebanon led to the introduction of various forms of power sharing arrangements to establish peace. The political systems introduced in Lebanon are the Kaim Makamiya dual sub governorship, a quasi federal arrangement, the Mutassarifiya, the prototype of a power sharing system, the post independence political system of Lebanon which the book refers to as semi consociation due to the concentration of executive powers in the Presidential office, and finally the full consociation of the Taif Republic. In each of these phases there was a peculiar interaction between the non structural elements that had a direct impact on power sharing. This led at times to instability and at other times it brought down the system as in 1840, 1860 and 1975. Power Sharing in Lebanon is the first academic work that emphasizes the influence of the non structural elements that hinder power sharing. This volume is now a key resource for students and academics interested in Lebanese Politics and the Middle East.

They also examine the essential role of party politics within and between these, drawing comparisons with a number of countries from Belgium to Israel.

Austro-corporatism Gunter Bischof, 2020-03-10. Corporatism was unpopular in the Europe of the past decade. During a time of neo conservative resurgence in both the United States and the United Kingdom, macroeconomic steering and statist centralism and regulation were in disfavor. However, Austria's unique Sozialpartnerschaft, its famed system of tripartite informal and formal labor business and state cooperation, continued to prosper. In spite of such powerful Anglo American trends, Austro Corporatism is the fourth volume in the interdisciplinary Contemporary Austrian Studies series. This effort in particular reflects the uniqueness of Austrian corporatism and looks at its deep historical roots from a comparative continental European perspective. The contributors include specialists on Austria from all parts of the world, making this a truly international effort. Andrei Markovits provides the larger European context for this analysis of Austrian corporatism. Emmerich Talos and Bernhard Kittel review the historical development of Austrian corporatism going back to its nineteenth century roots. Randall Kindley studies the institutional framework of Austrian corporatism, particularly its post World War II reincarnation. Hans Seidel looks at the subject from a neo Keynesian economic perspective, and Ferdinand Karlhofer at the chances of its survival in a changing international environment. Jonathan Petropoulos presents a fascinating biographical study of Nazi art plunderer Kajetan Mühlmann, and David McIntosh compares Eisenhower's policy vis à vis the small friendly countries of Lebanon, Costa Rica and Austria. A special forum looks at the model character and appeal of tripartite Austrian cooperation among its new eastern democratic neighbors, the Czech Republic, Slovakia, Hungary and Slovenia. A number of reviews of Austrian politics in 1994 complete the volume. *Austro Corporatism* will be of intense interest to foreign policy analysts, historians and scholars concerned with the unique elements
