

Politics In China

Derek J. Waller

Politics In China:

Handbook of the Politics of China David S.G. Goodman, 2015-11-27 The Handbook of the Politics of China is a comprehensive resource introducing readers to the very latest in research on Chinese politics David Goodman provides an introduction to the key structures and issues providing the foundations on which later learning can be built Including a comprehensive bibliography it is an ideal reference work for undergraduate and postgraduate students and academics The Handbook contains four sections of new and original research dealing with leadership and institutions public policy political economy and social change and international relations Each of the 26 chapters has been written by a leading internationally established authority in the field and each reviews the literature on the topic and presents the latest findings of research Presenting the state of the art of the field this reader oriented Handbook is an essential primer for the study of China's politics

Politics in China William A. Joseph, 2014-03-14 On October 1 2009 the People's Republic of China PRC celebrated the 60th anniversary of its founding And what an eventful and tumultuous six decades it had been During that time under the leadership of the Chinese Communist Party CCP China was transformed from one of the world's poorest countries into the world's fastest growing major economy and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence Over those same years the PRC also experienced the most deadly famine in human history caused largely by the actions and inactions of its political leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy Today China is for the most part peaceful prospering and proud This is the China that was on display for the world to see during the Beijing Olympics in 2008 The CCP maintains a firm grip on power through a combination of popular support largely based on its recent record of promoting rapid economic growth and harsh repression of political opposition Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities and a rising tide of social protest Politics in China is an authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today Written by leading China scholars the book's chapters offers accessible overviews of major periods in China's modern political history from the mid nineteenth century to the present key topics in contemporary Chinese politics and developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan

Politics in China William A. Joseph, 2019-04-25 On October 1 2019 the People's Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world's poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and

inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities ethnic unrest and a rising tide of social protest Politics in China provides an accessible yet authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book's chapters provide overviews of major periods in China's modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan

Politics in China James Roger Townsend, 1980 Local Government and Politics in China Yang Zhong, 2015-02-18 After over a decade of administrative and economic reform in mainland China the center has become increasingly remote and less important for many localities In many ways the mobilization capacity of the central government has been weakened Central government policies are often ignored and local officials are often more interested in personal projects than in centrally directed economic plans In this study of local government and politics in China the author explores when and why local government officials comply with policy directives from above Drawing on interviews with government officials in various municipalities and a review of county records and other government documents he provides the first in depth look at policy implementation at the county and township levels in the PRC The book examines the impact of the Chinese cadre system on the behavior of local officials local party and government structure relationships among various levels of Chinese local government policy supervision mechanisms at local levels village governance of China and more

The Politics of China Roderick MacFarquhar, 1997-01-13 The essays that make up this volume offer the reader a full introduction to and analysis of the politics of the People's Republic of China from 1949 to the mid 1990s *Governance and Politics of China* Tony Saich, 2024-12-26 In this revised fifth edition and essential guide to the subject Tony Saich delivers a thorough introduction to all aspects of politics and governance in post Mao China taking full account of the changes of the 20th Party Congress and the 13th National People's Congress This new edition analyses the latest developments in Chinese politics and governance including the situation in Hong Kong using contemporary case studies to illustrate a range of contemporary developments It covers current debates in Chinese society including questions of identity sexuality and religion With increased coverage of ideology and intellectual traditions in China the analysis allows students to place recent social movements such as MeToo in a longer historical context

China's Political System Ning Fang, 2020-09-30 This book

includes collective research by the Institute of Political Science of the Chinese Academy of Social Sciences which is an important research institution of political science and a think tank in China The book was completed by the expert team of China's Political System headed by Director Fang Ning for several years and after several changes in their manuscripts This book covers the core political systems of China such as the leadership system of the Communist Party of China the decision making system of the Party and government in Chinese politics the system of the people's congress the relationship between the central and local authorities the system of officials training and selection the system of discipline inspection and supervision the system of consultative democracy and the system of community level self governance etc This book aims to build a new paradigm of empirical research and introduction of the contemporary Chinese political system by using the description and research method of materialization and dynamics of the political system

The Government and Politics of Communist China Derek J. Waller, 1970

Politics in China F. Mengin, J. Rocca, 2016-09-27 Faced with the usual list of paradoxes that plague our views of China it is a communist regime with a capitalist economy an authoritarian state with an entrepreneurial spirit a unified nation with tendencies toward fragmentation the contributions to this volume work to go beyond them and to seek new paths to understanding China To do so the essays avoid the conventional approaches toward Chinese politics that focus on either evolutionist culturally bound or functionalist role bound issues Rather than separate state from society these essays explore how the interweaving of these different spheres creates a hazy border between them The contributors explore the moving frontiers between other spheres as well such as rural and urban populations internal evolution and external influence and money and politics This book does not aim to offer a new framework of analysis for understanding Chinese politics but to open up new directions for research and study on the topic The internationally diverse scholars in this volume offer readers an intriguing look at the present and future of China research

China's Quest for Political Legitimacy Baogang Guo, 2010-09-23 This book examines the new equity enhancing politics in China in the context of Chinese traditional cognitive patterns of political legitimacy and its implication for Chinese political development in the near future Based on an analysis of the new governing philosophy the generation of political elite and a new set of public policies the book reaffirms the emergence of a new Chinese polity that infuses one party rule with limited electoral and deliberative democracies Unlike many scholars who perceive the contemporary Chinese history as a constant search for democracy this book takes a very different approach It asserts that the enduring question in political development in China today is no different from what was sought after throughout Chinese history namely the constant search for political legitimacy Even though the quest for democracy is instrumental to that end it may not ultimately lead to the embrace of a full fledged liberal democracy The new politics is not only a rationalization of the efficiency based development but also a major paradigm shift in China's developmental strategy

Politics in China William A. Joseph, 2024 Politics in China is an authoritative introduction to how the world's second most populous nation and rapidly rising global power is governed today

Written by leading China scholars each chapter offers an accessible overview of a key topic in Chinese politics The fourth edition of *Politics in China* has been thoroughly updated and includes a new chapter on the rise and rule of Xi Jinping It is essential reading not only for students studying the PRC but also for any reader interested in learning how China has evolved in recent times how its political system works and about the most important challenges it faces in years ahead *Politics and Government in China* Guoli Liu, 2011-07-22 This concise thought provoking analysis explores the political changes and economic development emblematic of a rapidly rising China *Politics and Government in China* is an introduction to Chinese government and politics The book provides analysis of China's political history its key leaders and leadership transitions and its political party state institutions and party policies Moving beyond a strict definition of politics the book also explores the nation's economic development social policy law and order and foreign relations Throughout these analyses the book's primary focus is on modern China a nation poised to become an economic superpower It thus explores themes such as China's transition from a traditional society to a modern society from a less developed to a rapidly growing economy from a revolutionary regime to a modernizing state and from the rule of man to the rule of law Although the transitions are incomplete and the future still uncertain this book will help readers understand China as it is and as it may become **The Government and Politics of China** Tuan-shêng Ch'ien, 1950 Historical study of the legal structure of government and political institutions in China during the period from 1912 to 1949 includes general information on the country and the texts of the constitutions of 1923 and 1946 and covers the political leadership of the Kuomintang political theory political problems the administration of justice public administration the role of political parties incl The communist party etc Bibliography pp 483 to 510 *Politics in China* James Roger Townsend, Brantly Womack, 1986 **A Glossary of Political Terms of the People's Republic of China** Gucheng Li, 1995 A glossary of political terms of the People's Republic of China is a collection of 560 important and frequently used Chinese political terms and phrases that appeared between 1949 and 1990 Each entry begins with an explanation of the term and its origin a description of how and under what circumstances the term was used and a discussion of the changes of meaning over the years as well as the political and social significance of the words Jacket *The Politics of China's Accession to the World Trade Organization* Hui Feng, 2006-01-16 Grounded on a series of first hand interviews with Chinese government officials this book examines China's accession to the World Trade Organization providing an inside look at Chinese WTO accession negotiations Presenting a systematic political economy model in analyzing Beijing's decision making mechanisms the book argues that China's WTO policy making is a state led leadership driven and top down process Feng explores how China's determined political elite partly bypassed and partly restructured a largely reluctant and resistant bureaucracy under constant pressure from an increasingly globalized international system By addressing China's accession to the WTO from a political analysis perspective the book provides a theoretically informed and intriguing examination of China's foreign economic policy making regime The book highlights contemporary debates relating

to state and institutionalist theory and provides new and useful insights into a significant development of this century

Handbook on the International Political Economy of China Ka Zeng, 2019 This book examines the processes evolution and consequences of China's rapid integration into the global economy Through analyses of Beijing's international economic engagement in areas such as trade investment finance sustainable development and global economic governance it highlights the forces shaping China's increasingly prominent role in the global economic arena Chapters explore China's behavior in global economic governance the interests and motivations underlying China's international economic initiatives and the influence of politics including both domestic politics and foreign relations on the country's global economic footprint

China's Political System June Teufel Dreyer, 2018-07-27 China's Political System provides a concise introduction to the political economic and social factors that determine China's government Highly respected specialist June Teufel Dreyer offers expert analysis of the challenges facing China's economic legal military social and cultural institutions while examining the historical context and current trends China's Political System asks readers to think about the broader problem of governance and modernization in China and their global implications by comprehensively showing how the past and present impact leaders citizens ethnic minorities and policies New to the Tenth Edition the first text to incorporate results from the Nineteenth Party Congress and Thirteenth National People's Congress includes a new chapter on developments under Xi Jinping considers the effects of slowing economic growth on politics and society addresses recent Chinese assertiveness in military and foreign policy The tenth edition of China's Political System continues to provide all of the tools professors need to introduce their students to Chinese politics in ways that are informed accessible and intriguing **Politics in China**

since 1949 Robert Weatherley, 2007-01-24 Since the victory of the 1949 revolution the incumbency of the Chinese Communist Party has been characterized by an almost relentless struggle to legitimize its monopoly on political power During the Mao era attempts to derive legitimacy focused primarily on mass participation in political affairs a blend of Marxist and nationalist ideology and the charismatic authority of Mao Zedong The dramatic failure of the Cultural Revolution forced the post Mao leadership to discard these discredited paradigms of legitimacy and move towards an almost exclusively performance based concept founded on market economic reform The reforms during the 1980s generated a number of unwelcome but inevitable side effects such as official corruption high unemployment and significant socio economic inequality These factors culminated ultimately in the 1989 demonstrations in Tiananmen Square and throughout China Since Tiananmen the party has sought to diversify the basis of its legitimacy by adhering more closely to constitutional procedures in decision making and to a certain extent by reinventing itself as a conservative nationalist party This probing study of post communist revolution Chinese politics sets out to discover if there is a plausible alternative to the electoral mode or if legitimacy is the exclusive domain of the multi party system

The Enigmatic Realm of **Politics In China**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic.
