Politics Of Change:

Politics and Social Change Ishwaran,2022-09-12 **Politics and Change in Developing Countries** Colin

Leys,2011-02-03 This 1969 work gathers together essays on Third World development by nine social scientists with diverse academic interests These contributions are united by a relative uncertainty in relation to development derived from the contemporary critical reappraisal of the area together with a need to create fresh methodologies for the advancement of their respective fields Egypt and the Politics of Change in the Arab Middle East Robert Bowker,2010-01-01 The situation unfolding in Egypt and elsewhere in the Arab Middle East has important implications for the future of the Arab political order For the first time a secular but inclusive political alternative to Islamism has emerged It has captured the political imagination of the emerging Arab middle class It will shape the regional security environment Its consequences are unpredictable but the greatest risk to the region is the marginalization and alienation of a movement that has raised and galvanized its political horizons Robert Bowker In his book Egypt and the Politics of Change in the Arab Middle East Professor Robert Bowker argues that if regimes fail to address effectively the demands for empowerment of its educated youth they face the prospect of a tsunami like current of instability and regression Ambassador Bowker s new book achieves the challenging objective of making a contribution to scholarship on Egypt and the Arab world while being accessible to a general audience He addresses the key drivers of change such as globalization and Islamicization and the entrenched attitudes behavior and institutions they confront Drawing upon an impressive array of empirical information case studies and first hand observations he both illustrates and assesses the contending forces and the likely outcomes of their confrontations Robert Springborg Naval Postgraduate School Monterey US This book is certain to be a valued and respected addition to the literature on the eve of a potentially transformational moment in Egyptian history and thus possibly for the Arab world as well Jerrold D Green Pacific Council on International Policy Los Angeles US In this illuminating and informed book Robert Bowker tackles the prospects for change in the contemporary Arab world He persuasively argues that while long term demographic educational and social transformations pose formidable challenges for the future the important issues of political reform Islamism and regional security are contestable The message that this book so engagingly conveys is that change is both inevitable and not necessarily to be feared It is a refreshingly constructive and timely reminder for all who would see the new Middle East as destined to be volatile and precarious James Piscatori Durham University UK Dr Bowker s study provides the best encapsulation and explanation of changes in the Arab world s social and economic landscape in an age of faster and deeper interdependence Measured and sober in its analysis and challenging in its conclusions it should be read by all those who want to have a better understanding of the Middle East in general and Egypt in particular Amin Saikal The Australian National University Egypt and the Politics of Change in the Arab Middle East is a forward looking analysis of the relationship between economic and political reform in Egypt and of the evolving nature of Arab society and political

culture both in Egypt and elsewhere Writing from the perspective of a recently retired ambassador with extensive Arab regional experience Robert Bowker discusses the potential impact of systemic resistance to pressures for greater transparency accountability and political reform amid ongoing demographic educational and generational changes His analysis encompasses the military and security services the influence of the shadow state and the impact of social surveillance coercion and corruption Looking ahead he discusses emerging business models returning Arab expatriates the gradual empowerment of women and the impact of Islam He considers the political sustainability of economic reform including the challenges facing marginalized groups His analysis concludes by reviewing the regional security and political context of reform the importance of political leadership over the coming decade and the role of external parties Compelling insightful and thought provoking the book provides *Power, Politics, and Organizational Change* David Buchanan, Richard Badham, 2008-02-19 Many books on management are sanitized cleanly technical accounts of the unreality of managerial life and work Politics hardly feature This book tells it like it is it dishes the dirt gets low down into the funky and fascinating politics of organizational life Stewart Clegg Aston Business School and University of Technology Sydney Combining a practical and theoretical guide to the politics of organizational change this book provides an exceptional resource to students of change management and organizational behaviour Buchanan and Badham show how the change agent who is not politically skilled will fail and that it is necessary to be able and willing to intervene in the political processes of the organization This revised edition includes a range of excellent new material and features including a new chapter on gender in approaches to organization politics a full range of teaching materials including case studies incident reports self assessments and more Each chapter recommends a feature film or DVD to illustrate aspects of organization politics fresh research evidence recent literature on the nature of entrepreneurial politics a model of political expertise and how that can be developed This lively and engaging book is key to MBA and other Masters degree candidates taking courses in change management and organizational behaviour It will also be valuable for practising managers on tailored executive programmes in organization politics

Politics and Social Change Frederick George Bailey, 1963 *Power, Politics, and Organizational Change* David A. Buchanan, Richard J. Badham, 2020-05-11 Organization politics can be seen as a game in which players compete for different kinds of territory such as status power and influence In *Power Politics and Organizational Change* David Buchanan and Richard Badham ask What is the relevance of politics to change and innovation What kind of game is this What if any are the rules How is the game played What ethical issues arise Should one play this game to win and if so how How can you develop political expertise The third edition has been thoroughly updated and revised This includes discussion of current trends heightening the importance of developing political will and skill in a post truth era the rise of new power the role of BS busting the power of storytelling and the politics of speaking up

The Politics of Climate Change Paul G. Harris, 2013-09-13 Climate change is now a mainstream part of the international political agenda It

has become clear that it is not solely a technical issue to be resolved by scientists but a political issue with political implications at all levels of global governance. Indeed, some may argue that few long-term problems in international affairs are more important than this one. The purpose of this book is to reveal and apply some of the latest thinking on the implications of climate change for international affairs and to explore how various proposals for tackling climate change will affect interstate relations in coming years. Chapters by scholars of international relations, international political economy and international law contribute to current discussions of climate change, doing so in a way that is accessible to students, stakeholders, government officials and informed laypersons. Some questions considered in the book include the following: How has the discussion of climate change affected interstate relations? How does this problem and how do environmental issues more generally challenge international relations theory? How do international climate politics influence domestic politics and vice versa? How would climate change or action taken to tackle it affect the balance of power or balance of influence? Is climate change a matter of international security or international justice or both, and how does the answer to this question affect policy responses of governments? Which states are likely to benefit or suffer from the various proposals to address climate change? What are the legal, ethical and political implications of the uneven distribution of the impacts of climate change? This book was previously published as a special issue of the Cambridge Review of International Affairs.

The Politics of Climate Change Maxwell Boykoff, 2010-10-18 Climate change is a defining issue in contemporary life. Since the Industrial Revolution, heavy reliance on carbon-based sources for energy in industry and society has contributed to substantial changes in the climate, indicated by increases in temperature and sea level rise. In the last three decades, concerns regarding human contributions to climate change have moved from obscure scientific inquiries to the fore of science, politics, policy and practices at many levels. From local adaptation strategies to international treaty negotiation, the politics of climate change is as pervasive, vital and contested as it has ever been. On the cusp of a new commitment to international co-operation to rein in greenhouse gas emissions, this essential book intervenes to help understand and engage with the dynamic and compelling politics of climate change. This edited collection draws on a vast array of experience, expertise and perspectives with authors with backgrounds in climate science, geography, environmental studies, biology, sociology, political science, psychology and philosophy. This reflects the contemporary conditions where the politics of climate change permeates and penetrates all facets of our shared lives and livelihoods. Chapters include: the Politics of Climate Science; History of Climate Policy; the Cultural Politics of Climate Change; Interactions in the Spaces of Everyday; the Politics of Interstate Climate Negotiations; the Politics of the Carbon Economy and Addressing Inequality. An A-Z glossary of key terms offers additional information in dictionary format with entries on topics including Carbon tax, Stabilization, Renewable technologies and the World Meteorological Organization. A section of Maps offers a visual overview of the effects of environmental change.

The European Union in International Climate Change Politics Rudiger K.W. Wurzel, James Connelly, Duncan

Liefferink,2016-11-25 In recent years climate change has emerged as an issue of central political importance while the EU has become a major player in international climate change politics How can a leaderless Europe offer leadership in international climate change politics even in the wake of the UK's Brexit decision This book which has been written by leading experts offers a critical analysis of the EU leadership role in international climate change politics It focuses on the main EU institutions core EU member states and central societal actors businesses and environmental NGOs It also contains an external perspective of the EU's climate change leadership role with chapters on China India and the USA as well as Norway Four core themes addressed in the book are leadership multilevel and polycentric governance policy instruments and the green and low carbon economy Fundamentally it asks why we have EU institutional actors why certain member states and particular societal actors tried to take on a leadership role in climate change politics and how if at all have they managed to achieve this This text will be of key interest to scholars students and practitioners in EU studies and politics international relations comparative politics and environmental politics

The Gender Politics Of Educational Change Amanda

Datnow,2002-11-01 What is the relationship of gender to the micropolitics of school reform This book explores this timely research question revealing the everyday struggles that happen between different factions of teachers with different definitions of what school means for students The focus of this struggle however may not be on education but rather on such underlying issues as gender Using case studies the author shows how gender politics can be used by teachers to delay reform

Eco-Politics and Global Climate Change Sachchidanand Tripathi,Rahul Bhadouria,Rishikesh Singh,Pratap

Srivastava,Rajkumari Sanayaima Devi,2024-01-01 This book provides an in depth insight into the ecological perspective on a number of ongoing issues pertaining to security the economy the state global environmental governance development and the environment The chapters critically compare and analyze the role of global eco politics in understanding and sorting out issues linked with climate change Furthermore it presents a contemporary and accessible description of why we need to embrace eco politics in order to address the various ecological challenges that we face in the current changing climate scenario

Towards a Cultural Politics of Climate Change Harriet Bulkeley,Matthew Paterson,Johannes Stripple,2016-09-15 This book develops new perspectives on the cultural politics of climate change and its implications for responding to this challenge

Argument and Change in World Politics Neta Crawford,2002-07-25 Arguments have consequences in world politics that are as real as the military forces of states or the balance of power among them Neta Crawford proposes a theory of argument in world politics which focuses on the role of ethical arguments in fostering changes in long standing practices She examines five hundred years of history analyzing the role of ethical arguments in colonialism the abolition of slavery and forced labour and decolonization Pointing out that decolonization is the biggest change in world politics in the last five hundred years the author examines ethical arguments from the sixteenth century justifying Spanish conquest of the Americas and from the twentieth century over the fate of Southern Africa The book also offers a prescriptive analysis of how ethical

arguments could be deployed to deal with the problem of humanitarian intervention Co winner of the APSA Jervis Schroeder Prize for the best book on international history and politics **The Politics of Climate Change** Jill Jager,Timothy O'Riordan,2019-10-19 The Politics of Climate Change provides a critical analysis of the political moral and legal response to climate change in the midst of significant socio economic policy shifts Evolving from original EC commissioned research this book examines how climate change was put on the policy agenda with the evolution of the United Nations Framework Convention and subsequent Conference of Parties The international team of contributors devote in depth chapters to climate change policies of different nations reductions of greenhouse gas emissions legal aspects of external competence and moral obligations the political significance of the European experience within the wider global perspectives of America and Asia

The Politics of Adapting to Climate Change Leigh Glover,Mikael Granberg,2020-06-29 This book examines the political themes and policy perspectives related to and influencing climate change adaptation It provides an informed primer on the politics of adaptation a topic largely overlooked in the current scholarship and literature and addresses questions such as why these politics are so important what they mean and what their implications are The book also reviews various political texts on adaptation *Regime Change and Succession Politics in Africa* Maurice Nyamanga Amutabi,Shadrack Wanjala Nasong'o,2013 Bringing together scholars from a wide array of disciplines including anthropology economics history sociology and political science this volume addresses the problems of the regime change and state failure in Africa in the context of the global economy but from a specifically African perspective arguing that the underdevelopment of the African economy is linked to the underdevelopment of the continents nation states *The Politics of Climate Change under President Obama* Hugh Atkinson,2017-10-31 The last two decades have witnessed an ever growing partisan divide in US politics over climate change and global warming Significant elements in the Republican Party became openly hostile to the scientific evidence and following the election of George W Bush legislative action at the federal level effectively ground to a halt This opened up space at the state and local level to develop climate change policies with cities such as Chicago San Francisco and New York implementing a number of initiatives that brought real and substantive developments The election of Barack Obama in 2008 seemed to open new possibilities for federal and global leadership once more and whilst the Obama administration has been criticised for a somewhat contradictory approach to the issue at times there were nonetheless a number of substantive policy developments Through a substantive and detailed analysis of the politics of climate change this book places the evolution of US climate policy within broader debates on the nature of politics in the US and argues that there exists a latent potential often obscured by the complexities of its political system for America to act as a world leader on the issue This work will appeal particularly to students and scholars in American Politics but will also prove useful to those in the fields of general Politics climate change sustainability and environmental studies *The Politics of Climate Change Metaphors in the U.S. Discourse* Othman Khalid Al-Shboul,2023-02-28 This book uses critical metaphor analysis to

show from a cognitive perspective how climate change is conceptualized in the USA The author enriches his linguistic analysis with cognitive aspects such as source target domain mapping and metaphor opposition to explain how metaphor works in terms of framing this issue drawing on a Critical Discourse Analysis informed framework to demonstrate how politicians represent the climate crisis in their attempts to trigger social change Using a data set of speeches given by US based politicians governors and mayors speaking in the context of the withdrawal of the United States from the Paris Agreement the book categorizes metaphors on different conceptions such as war construction unfairness journey and cleanliness to bridge the gap between ecolinguistics and critical metaphor analysis This book will be of interest to students and scholars in fields including applied linguistics political communication ecolinguistics and cognitive linguistics and psychology

The European Union as a Leader in International Climate Change Politics Rüdiger Wurzel, James Connelly, 2010-11 Explaining the origins and key institutions this book provides an assessment of the European Union's leadership role in international climate change politics with case studies on Britain Germany France the Netherlands Poland Spain businesses and environmental NGOs

The Politics of the Climate Change-Health Nexus Maximilian Jungmann, 2021-05-09 This book compares how governments in 192 countries perceive climate change related health risks and which measures they undertake to protect their populations Building on case studies from the United Kingdom Ireland South Korea Japan and Sri Lanka The Politics of the Climate Change Health Nexus demonstrates the strong influence of epistemic communities and international organisations on decision making in the field of climate change and health Jungmann shows that due to the complexity and uncertainty of climate change related health risks governments depend on the expertise of universities think tanks international organisations and researchers within the public sector to understand strategize and implement effective health adaptation measures Due to their general openness towards new ideas and academic freedom the book shows that more democratic states tend to demonstrate a higher recognition of the need to protect their populations However the level of success largely depends on the strength of their epistemic communities and the involvement of international organisations This volume will be of great interest to students and scholars of climate change and public health It will also be a valuable resource for policymakers from around the world to learn from best practices and thus improve the health adaptation work in their own countries
