## **Politics Of Humanitarian Organizations Intervention:**

**The Politics of Humanitarian Organizations Intervention** Ndubisi Obiaga, 2004 Nigeria stands to become the most populous country in Africa accounting for perhaps one fifth of the continent's entire population. With its diverse cultures and abundant natural wealth it has attracted attention on the international level. Since gaining its independence from Britain in 1960 and the advent of civil war from 1967 to 1970 Nigeria has been in an upheaval of political and economic change. The military rule of the country for more than three decades has further contributed to the breakdown of its first and second republics. This book takes a close look at an aspect of Nigeria's development that has to date received inadequate attention: the role that humanitarian organizations played during the civil war. Using foreign policy historical analysis and the traditional law concept in defining intervention, this book will broaden the overall scope of critically analyzing the effect that non-governmental agents in a society have on foreign relations. By focusing on the role of the humanitarian organization as a societal determinant of foreign policy in the Nigerian Civil War, which demonstrates that local humanitarian actions dovetail into international foreign policy choices that are overly political, this book fills an up until now serious gap in the literature of Nigeria's development. Humanitarian organization as a societal determinant of foreign policy in the Nigerian Civil War which demonstrates that local humanitarian actions dovetail into international foreign policy choices that are overly political, this book fills an up until now serious gap in the literature of Nigeria's development.

Humanitarian Military Intervention Taylor B. Seybolt, 2007 Military intervention in a conflict without a reasonable prospect of success is unjustifiable especially when it is done in the name of humanity. Couched in the debate on the responsibility to protect civilians from violence and drawing on traditional just war principles, the central premise of this book is that humanitarian military intervention can be justified as a policy option only if decision makers can be reasonably sure that intervention will do more good than harm. This book asks: Have past humanitarian military interventions been successful? It defines success as saving lives and sets out a methodology for estimating the number of lives saved by a particular military intervention. Analysis of 17 military operations in six conflict areas that were the defining cases of the 1990s: northern Iraq after the Gulf War, Somalia, Bosnia and Herzegovina, Rwanda, Kosovo, and East Timor shows that the majority were successful by this measure. In every conflict studied, however, some military interventions succeeded while others failed, raising the question: Why have some past interventions been more successful than others? This book argues that the central factors determining whether a

humanitarian intervention succeeds are the objectives of the intervention and the military strategy employed by the intervening states. Four types of humanitarian military intervention are offered: helping to deliver emergency aid, protecting aid operations, saving the victims of violence, and defeating the perpetrators of violence. The focus on strategy within these four types allows an exploration of the political and military dimensions of humanitarian intervention and highlights the advantages and disadvantages of each of the four types. Humanitarian military intervention is controversial. Scepticism is always in order about the need to use military force because the consequences can be so dire. Yet it has become equally controversial not to intervene when a government subjects its citizens to massive violation of their basic human rights. This book recognizes the limits of humanitarian intervention but does not shy away from suggesting how military force can save lives in extreme circumstances.

**Just and Unjust Interventions in World Politics** C. Lu, 2016-01-18 Taking insights and controversies from feminist political theory, Lu looks to illuminate alternative images of sovereignty as privacy and sovereignty as responsibility and to identify new challenges arising from the increased agency of private global civil society and their relationship with the world of states.

**The Politics of International Humanitarian Aid Operations** Eric A. Belgrad, Nitza Nachmias, 1997-06-30 The theories and case studies examined in this volume constitute a thorough study of foreign intervention in civil conflicts for the purpose of rendering humanitarian aid. The classical paradigm of the ethics of intervention forbids the violation of territorial sovereignty. Public international law and the UN charter also mandate nonintervention within the territorial boundaries of a state. Nevertheless, in recent years, as a result of brutal civil conflicts and their violent and inhumane consequences, as in Rwanda, Bosnia and Cambodia, international aid interventions have become an accepted practice. Still, international humanitarian aid involves unsettled, controversial issues, dilemmas concerning donors, recipients and international organizations. These issues, as well as the concepts of sovereignty, human rights, coercive interventions and peacekeeping, are critically evaluated in this volume, which will be of interest to scholars and policymakers in international relations, human rights and military affairs.

**Disaster and the Politics of Intervention** Andrew Lakoff, 2010 Government plays a critical role in mitigating individual and collective vulnerability to disaster. Through measures such as disaster relief, infrastructure development and environmental regulation, public policy is central to making societies more resilient. However, the recent drive to replace public institutions with market mechanisms has challenged governmental efforts to manage collective risk. The contributors

to this volume analyze the respective roles of the public and private sectors in the management of catastrophic risk addressing questions such as How should homeland security officials evaluate the risk posed by terrorist attacks and natural disasters Are market based interventions likely to mitigate our vulnerability to the effects of climate change What is the appropriate relationship between non governmental organizations and private security firms in responding to humanitarian emergencies And how can philanthropic efforts to combat the AIDS crisis ensure ongoing access to life saving drugs in the developing world More generally these essays point to the way thoughtful policy intervention can improve our capacity to withstand catastrophic events Additional Columbia SSRC books on the Privatization of Risk and its Implications for Americans Bailouts Public Money Private Profit Edited by Robert E Wright Health at Risk America's Ailing Health System and How to Heal It Edited by Jacob S Hacker Laid Off Laid Low Political and Economic Consequences of Employment Insecurity Edited by Katherine S Newman Pensions Social Security and the Privatization of Risk Edited by Mitchell A Orenstein

by African peoples      **The Biafran Humanitarian Crisis, 1967-1970** Arua Oko Omaka, 2016-09-30 This book focuses on the Biafran humanitarian crisis of 1967-1970 which generated a surge of human rights anxieties and attracted the attention of world humanitarian organizations. For the first time in recent history, different church groups and humanitarian activists around the world came together for the sole purpose of alleviating human suffering and saving lives regardless of theological differences, race, ethnic affiliation, nationality, and geographical distance. Despite their role in shaping the course and outcome of the conflict, most scholars of the Nigeria Biafra War treat the humanitarian aspect of the war as a footnote, making it appear less important among other issues of interest in the conflict. Notable exceptions, however, include Joseph Thomson's *American Policy and African Famine*, which focuses on American policy on the humanitarian aid, and Reverend Tony Byrne's *Airlift to Biafra*. This study underlines that the international humanitarian aid largely contributed to the internationalization of the war. The efforts of the churches from thirty-three countries, which remain virtually unexplored, was not just the first of its kind in the developing world but also the largest civilian airlift in history. While the paucity of scholarship on the humanitarian aspect of the Biafra war could be attributed to the newness of this field of enquiry, the increase in conflicts in different parts of the world has just opened humanitarian aid studies as a new frontier in academic study. This book is a masterful example of scholarship in this newly emergent field.
