Politics Of National Party Conventions:

The Politics of National Party Conventions Paul Theodore David, 1960 American Cities and the Politics of Party Conventions Eric S. Heberlig, Suzanne M. Leland, David Swindell, 2017-09-19 Political party conventions have lost much of their original political nature serving now primarily as elaborate infomercials while ratifying the decisions made by voters in state primaries and caucuses While this activity hasn't changed significantly since the 1970s conventions themselves have changed significantly in terms of how they are recruited implemented and paid for American Cities and the Politics of Party Conventions analyzes how and why cities advance through the site selection process Just as parties use conventions to communicate their policies unity and competence to the electorate cities use the convention selection process to communicate their merits to political parties businesses and residents While hosting such a mega event provides some direct economic stimulus for host cities the major benefit of the convention is the opportunity it provides for branding and signaling status Combining a case studies approach as well as interviews with party and local officials Eric S Heberlig Suzanne M Leland and David Swindell bring party convention scholarship up to date while highlighting the costs and benefits of hosting such events for tourism bureaus city administrators elected officials and the citizens they represent *Cordial Concurrence* Larry David Smith, Dan Nimmo, 1991-11-08 This volume is a study of the orchestration of cordial concurrence at the quadrennial nominating conventions of the two major political parties The phrase cordial concurrence pertains to a party's endorsement of a candidate at the national convention whose nomination occurred elsewhere Since the candidate is the product of primaries and caucuses the convention's primary function involves not the nomination of the party standard bearer but the mobilization of party resources in support of a decision rendered elsewhere Smith and Nimmo oppose the view that national political conventions serve no major purpose and are relics from the past Instead they explain that the conventions are products of institutional coordination and reflect the institutional qualities of American democracy This definitive analysis examines how political party conventions mobilize resources through political governmental and media institutions in a telepolitical era This volume discusses the history and background of cordial concurrence It then explores what happens at the conventions and how the media especially television coverage has affected this institution Finally the authors examine the comments of the critics of national political conventions This intriguing work will provide both educators and professionals interested in political communication with new insight as to how the conventions are a microcosm of all that is American politics *The Politics of National Party Conventions* Paul T. David, Ralph M. Goldman, Richard C. Bain, Kathleen Sproul, 1972 *The Rhetoric of the American Political Party Conventions, 1948-2016* Theodore F. Sheckels, 2020-10-13 The Rhetoric of the American Political Party Conventions 1948-2016 establishes the rhetorical goals of the thirty six political party conventions that have taken place since 1948 against the backdrop of the fundamental changes that television brought to the conventions Theodore F Sheckels analyzes these conventions to determine whether the

gatherings met or failed to meet those goals including addressing civil rights unifying divergent wings of the party celebrating the triumph of a single wing overcoming dissent inside and outside the meeting hall overcoming or capitalizing on scandal reconstituting the party after defeats arguing for change and advocating for inclusion Sheckels observes that although speeches are the primary vehicle through which attendees strive to reach these goals the crucial addresses are not always by the principal players often events other than speeches such as negotiations demonstrations and media spin can be just as consequential Sheckels discusses both the similarities and differences in the ways in which the conventions do business and constitute and reconstitute what the political parties are aiming to persuade the public with rhetorical images and messages Scholars of communication rhetoric political science and American studies will find this book particularly useful
