Psychoanalysis and Digital Culture Jacob Johanssen, 2018-10-31 Psychoanalysis and Digital Culture offers a comprehensive account of our contemporary media environment digital culture and audiences in particular by drawing on psychoanalysis and media studies frameworks It provides an introduction to the psychoanalytic affect theories of Sigmund Freud and Didier Anzieu and applies them theoretically and methodologically in a number of case studies Johanssen argues that digital media fundamentally shape our subjectivities on affective and unconscious levels and he critically analyses phenomena such as television viewing Twitter use affective labour on social media and data mining How does watching television involve the body Why are we so drawn to reality television Why do we share certain things on social media and not others How are bodies represented on social media How do big data and data mining influence our identities Can algorithms help us make better decisions These questions amongst others are addressed in the chapters of this wide ranging book Johanssen shows in a number of case studies how a psychoanalytic angle can bring new insights to audience studies and digital media research more generally From audience research with viewers of the reality television show *Embarrassing Bodies* and how they unconsciously used it to work through feelings about their own bodies to a critical engagement with Hardt and Negri's notion of affective labour and how individuals with bodily differences used social media for their own affective digital labour the book suggests that an understanding of affect based on Freud and Anzieu is helpful when thinking about media use The monograph also discusses the perverse implications of algorithms big data and data mining for subjectivities In drawing on empirical data and examples throughout Johanssen presents a compelling analysis of our contemporary media environment

Rethinking the Psychoanalysis of Masculinity Karl Figlio, 2023-12-19 Drawing on a broad range of psychoanalytic cultural and social influences the author examines the concept of toxic masculinity for how it brings into focus a widespread anxiety about toxicity throughout daily life In nature society and personal relationships Aggressive misogynistic masculinity has become a major topic in recent years spreading throughout popular culture the

media and research Often called phallic it simmers in everyday life and hits the headlines for turning florid and violent in maintaining its dominance especially towards women But at the extreme phallic masculinity has recently crystallized in a very different form as toxic masculinity and toxic has become the near universal epithet for all forms of extreme destructiveness in a toxic culture It has brought into focus and named as masculine an anxiety over toxicity in every corner of everyday life Exploring toxic masculinity in depth brings out a misogynistic current that pervades individual and social realms but also throws a sharp light on normal masculinity By elaborating on the roots of this toxicity Figlio is able to draw out a different more positive alternative for masculinity with particular reference to the underlying fears around fertility and the seminal With a strong research and clinical base this book is essential reading for all psychoanalysts and psychoanalytic psychotherapists and cultural and social theorists interested in exploring concepts of masculinity

The Queerness of Psychoanalysis Vanessa Sinclair, Elisabeth Punzi, Myriam Sauer, 2024-11-29 The Queerness of Psychoanalysis From Freud and Lacan to Laplanche and Beyond is an exploration of psychoanalysis often complicated and fraught history with thinking about queerness as well as its multifaceted heritage Throughout the chapters the contributors write about psychoanalysis relationship with queerness the ways in which queerness is represented in the psychoanalytic archive and how that archive endures in the present and creates various disruptive effects both within and beyond the clinic Each chapter from the global cohort of contributors approaches queerness from a different angle they consider the literary aspects of queerness presence in the analytic world the clinical complexities of working with queer and trans people metapsychological inclusion and exclusion of queerness and many other subjects Taken together these contributions constitute a decisive intervention into the psychoanalytic canon They are an unabashed demand for accepting and furthering the representation and inclusion of queer and in particular trans people within psychoanalysis It is a call for action to utilize and deepen psychoanalysis enormous explicatory powers and bring together voices that have so far been denied a unity of expression while critically reevaluating psychoanalysis historical relationship to queerness Each chapter proposes different ways of thinking and writing psychoanalytically with many of the papers queering the format and forms of expression commonly found in academic writing through their use of dialogues conversations or other experimental forms of writing Written almost exclusively by analysts scholars and activists who identify as trans and or queer this important volume puts theory into practice by centering queer and trans voices

Crisis and Body Politics in Twenty-First Century Cultural Production Charlotte Spear, Madeleine Sinclair, 2025-01-31 The twenty first century has been deemed the Age of Crisis We are witnessing the catastrophic unfolding of environmental crisis financial crisis pandemic and conflict But are we to understand these crises as new phenomena Is their seemingly simultaneous existence purely coincidental Or rather do they instead form part of a singular historically produced unfolding crisis which only today has reached a generalised consciousness And perhaps most urgently how far can we separate the crises of human experience from those exacted upon the land The chapters collected in Crisis and Body

Politics in Twenty First Century Cultural Production Territorial Bodies deploy the framework of Territorial Bodies to address urgent social ecological and political challenges Examining themes such as inter national bodily governance racialised bodies eco feminist movements spatial justice and bodily displacement this collection provides a deeper analysis of the interconnected forms of violence perpetrated against marginalised human and non human bodies taking this combined violence as the defining feature of contemporary crisis Psychoanalysis in China David E. Scharff,Sverre

Varvin,2018-03-08 The introduction of psychoanalysis to China over the last twenty years brings a clash between Eastern and Western philosophical backgrounds Chinese patients therapists and trainees struggle with assumptions inherent in an analytic attitude steeped in Western ideas of individualism that are often at odds with a Chinese Confucian ethic of respect for the family and the work group The situation is further complicated by the rapid evolution of Chinese culture itself emerging from years of trauma new economics and the one child policy of the last generation that has introduced a new Chinese brand of individualism and new family structure that are not equivalent to those of the West This volume breaks new ground in exploring these issues and challenges to the introduction of analytic therapies into China from the viewpoint of Western teachers and Chinese teachers clinicians anthropologists and observers **Psychological Approaches to Pain**
