The Politics of Steel Keith Ovenden, 1979-01-01

Political Economy of Steel Development in Nigeria Daniel A. Omoweh, 2005 This is a critical comparative analysis of the origin nature problems and prospects of steel development and industrialisation in Nigeria and South Korea Focusing on the steel sector this ground breaking book examines the interplay among the state local capital transnational corporations the World Bank and IMF The book examines how all these factors have come to shape the content and direction of steel development in these two countries

Politics vs Economics in World Steel Trade Kent Jones, 2017-10-10 There can be few industries which have generated as much political controversy as the world steel industry Since 1968 the trade policies of both the US and the EEC have created a vicious circle of protectionism and delayed adjustment in their steel industries In particular protectionist policies by one government have tended to lead directly to rebound protectionist policies by the other This book first published in 1986 begins by tracing the historical roots of steel protectionism and describes the changing competitive structure of the world steel market which has led to increased government involvement in the traditional steel making countries as they became vulnerable to imports from the newly industrialised countries The most distinctive feature of the book is its economic analysis of a policy crisis a crisis whose inner dynamics work against a viable solution

Politics and Rhetoric of Italian State Steel Privatisation Edoardo Mollona, Luca Pareschi, 2022-05-17 The globally spreading privatisation wave that occurred in the 1990s deeply changed the structure of economic institutions worldwide This turmoil overturned not only economic institutions but shared cultural and societal institutions as well This book is the result of an investigation into the history of the privatisation of the steel industry in Italy completed between 1994 and 1995 It explores the history of the Italian steel industry by looking at the interplay of local intertwined interests political relations and ideological formations that characterised an idiosyncratic hegemonic historical bloc Rather than stigmatising this pattern as the legacy of a dysfunctional provincialism the authors mobilise Gramsci's theory of hegemony to explain how the Italian privatisation process unfolded to accommodate economic pressures political interests and ideological constraints of a hegemonic social group or aggregation of social groups Thus in reconstructing the privatisation of Italian steel this book proposes a hegemony theory of privatisation and more generally describes a model that explains how political and cultural dynamics give rise to idiosyncratic local variations in globally spreading policies It will be of interest to researchers academics and students in the fields of business history economics sociology and political science

Steel And The State Thomas R Howell, William A Noellert, Jesse G Kreier, Alan Wm Wolff, 2019-06-21 The problems of the U S steel industry have been a source of public controversy for over twenty years The industry has grown substantially smaller since the 1960s and hundreds of thousands of steelworkers have lost their jobs Some steel firms and many steel mills have shut down entirely profoundly affecting regional economies based on steel and its

related industries An industrial transformation of this magnitude has inevitably given rise to efforts to identify its underlying causes This book is a contribution to that effort *David Steel* David Torrance,2012-09-18 Michael Foot was speaking affectionately when in 1979 he quipped that David Steel had apparently gone from rising hope to elder statesman without any intervening period whatsoever But the remark also neatly captured a career which had seen the Boy David enter the House of Commons aged only twenty six become leader of the Liberal Party in 1976 at thirty eight years old one of the youngest party leaders in British history and then within months of his election lead his party into a controversial Lib Lab Pact with James Callaghan s Labour government Taking the lead in demanding cooperation with the new Social Democratic Party Steel helped the Alliance poll an unprecedented share of the vote for a third party in the 1983 election Alongside David Owen of the SDP he fought another memorable election four years later as one of the two Davids and later became the major force behind the troubled birth of the Liberal Democrat Party Based on extensive interviews and fresh archival research this biography with which Steel has cooperated charts both the rising hope and elder statesman phases in Steel s career as well as his role as the first Presiding Officer of the Scottish Parliament and his political legacy in light of the post 2010 Conservative Liberal Democrat coalition **Politics, Policy and the European Recession** Andrew Cox,1982-06-18

The Politics of Plant Closings John Portz,1990 A paper reprint of the 1988 original It is a political history that describes and analyzes the management of organized knowledge Wheatley takes Flexner and the Carnegie Foundation of 1910 as the model Portz political science Northeastern U combines a synthesis of the literature on urban politics and political economy with a close analysis of plant closings in Pittsburgh Pennsylvania Louisville Kentucky and Waterloo Iowa to illuminate the complexity of constraints upon and range of local government efforts to control the economic damage caused by shutdowns Paper edition unseen 12 95 Annotation copyrighted by Book News Inc Portland OR *The Political Economy of American Trade Policy* Anne O. Krueger,2007-12-01 Exploring the political and economic determinants of trade protection this study provides a wealth of information on key American industries and documents the process of seeking and conferring protection Eight analytical histories of the automobile steel semiconductor lumber wheat and textile and apparel industries demonstrate that trade barriers rarely have unequivocal benefits and may be counterproductive They show that criteria for awarding protection do not take into account the interests of consumers or other industries and that political influence and an organized lobby are major sources of protection Based on these findings a final essay suggests that current policy fails to consider adequately economic efficiency the public good and indirect negative effects This volume will interest scholars in economics business and public policy who deal with trade issues **American Politics (non-partisan) from the Beginning to Date** Thomas Valentine Cooper,Hector Tyndale Fenton,1884 **Steel Town** Eklund, Erik,2013-05-24 The sun moves across the narrow coastal plain that borders the range to the north It shows once separate places now merged into one suburban entity a ribbon of residential commercial and industrial development There is a commercial centre whose

tall metallic and glass structures reflect the light and celebrate an industrial heritage And to the south an area where a mass of industrial buildings converge around a large harbour This area stands as a telling symbol of the region's golden industrial age To most Australians Port Kembla is a grimy polluted industrial wasteland located down the coast from Sydney Such images were formed over fifty years ago when industrial development in the town was at its height and when the expanse of breathtaking coast had been colonised by the stacks and furnaces of heavy industry Yet the vision of stacks and pollution from furnaces was never the whole story there was always more to Port Kembla Although these ideas persist even today they obscure the real experiences of the people of the port Steel Town illuminates our understanding of the processes of industrial and social change Port Kembla was unique in Australian terms an urban environment where industrial society shaped local life and politics like nowhere else This book explores the advent and implications of industrial society and the impact of economic decline and deindustrialisation In his comprehensive and persuasive account of local life Erik Eklund draws together themes of migration gender class and identity Using archival records oral history interviews and company documents Steel Town charts the relationship between economic change and the human experience of that change The story of Port Kembla is the story of the big issues of Australian history writ small on the lives of three generations of local people The legacy of industrial society is a mixed one its experiences and consequences are full of contradictions And that of course is the beauty of history

Running Steel, Running America Judith Stein, 2000-11-09 The history of modern liberalism has been hotly debated in contemporary politics and the academy Here Judith Stein uses the steel industry long considered fundamental to the U S economy to examine liberal policies and priorities after World War II In a provocative revision of postwar American history she argues that it was the primacy of foreign commitments and the outdated economic policies of the state more than the nation's racial conflicts that transformed American liberalism from the powerful progressivism of the New Deal to the feeble policies of the 1990s Stein skillfully integrates a number of narratives usually treated in isolation labor civil rights politics business and foreign policy while underscoring the state's focus on the steel industry and its workers By showing how those who intervened in the industry treated such economic issues as free trade and the globalization of steel production in isolation from the social issues of the day most notably civil rights and the implementation of affirmative action Stein advances a larger argument about postwar liberalism Liberal attempts to address social inequalities without reference to the fundamental and changing workings of the economy she says have led to the foundering of the New Deal state

Cross-Party Politics in Britain, 1945-2019 Alan Wager, 2024 From Winston Churchill to Nick Clegg Tony Blair to Nigel Farage elite British politicians have privately and publicly toyed with the concept of co operating with their competitors Cross Party Politics in Britain 1945-2019 takes a historical comparative look at seven such cases from the last 80 years

Steel City Gospel Keith A. Zahniser, 2013-04-15 Demonstrating the power religious language ideas and institutions had in shaping progressive reform in Pittsburgh this cross disciplinary study addresses significant debates in the

fields of Progressive Era political history and American religious history while telling the story of an industrial city in a crucial era of change *Steel* Wilson Allen Wallis, 1984 **Politics and the Steel Industry: Post-1950** Trevor Boyns, 1997 **The Steel and Metal Digest** , 1912 **The Decline of American Steel** Paul A. Tiffany, 1988 Tiffany shows that American decision makers who ignore the past are likely to jeopardize America's future So persuasive is his account of the historical antagonism between steel management labor and government that advocates of industrial policy will have to reconsider the premise of cooperation on which it is based *The Bulletin of the American Iron and Steel Association* American Iron and Steel Association, 1892
