Politics Of The Miraculous In Peru:

The Politics of the Miraculous in Peru Fredrick B. Pike, 1986 *The Politics of the Miraculous in Peru* Fredrick B. Pike, 1986-01-01 *Militarism and Politics in Latin America* Daniel Masterson, 1991-08-26 This comprehensive case study of the modern Peruvian military examines the professional development of South America's most controversial military establishment from the early 1930s to the present. Based on extensive research in Peruvian military archives and numerous interviews with active and retired members of the Peruvian armed forces, this study is placed in the context of Peruvian national politics and South American military affairs. Particular emphasis is given to the impact of France and U.S. military theory upon the Peruvian military mentality. Revolutionary politics from the Alianza Popular Revolucionaria Americana (APRA) in the 1930s to the present day's Sendero Luminoso also figure prominently. This study also explores the rationale behind General Velasco's social and economic reforms, 1968-1975, and assesses the Velasco government's legacy for contemporary Peru. For the first time, the Soviet Union's heavy involvement in Peru is examined. As the only comprehensive case study in English of the modern Peruvian military, this volume will be of interest to students and scholars of contemporary Latin America. This is a detailed historical study of the highly complex Peruvian military establishment and its place in Peruvian society. It includes a review of the 1930s and an in-depth analysis of the armed forces from the late 1930s to the first Belaunde regime, 1963-1968; the immediate antecedents of Peru's 12-year military government, 1968-1980, known as the Docenio; a preliminary overview of the Docenio and its troubled legacy; an assessment of the Sendero Luminoso Shining Path insurgency; and a critique of the armed force's counter-terrorism campaign. *Militarism and Politics in Latin America* draws extensively on Latin American and U.S. archival sources and personal interviews and includes rare photographs. *Apocalyptic Faith and Political Violence* J. Rinehart, 2006-09-02 This study examines the functional relationship between millenarian inspired terrorism and the process of political change. Through an exhaustive investigation of late Twentieth century movements, Aum Shinrikyo, Sendero Luminoso, and Hezbollah, it concludes that in each case, apocalyptic expectations performed a significant group mobilization, leadership, and therapeutic function. **The History of Peru** Daniel Masterson, 2009-04-30 For centuries Peru's coast, mountains, and jungles have served as the grounds for bustling civilizations, including the Incan Empire. This exciting and comprehensive volume covers social life and culture, political practices, economics, and international influence throughout the ages in Peru, from the earliest social groups dating as far back as 500 BC to life today in the 21st Century. Ideal for high school students and general readers interested in South American history, this volume is an essential addition for high school and public libraries. A timeline of key events, list of notable people who made significant contributions to Peru's history, and a bibliography of print and electronic sources supplement the work. Warren,2010-10-24 By the end of the eighteenth century Peru had witnessed the decline of its once thriving silver industry and had barely begun to recover from massive population losses due to smallpox and other diseases At the time it was widely believed that economic salvation was contingent upon increasing the labor force and maintaining as many healthy workers as possible In Medicine and Politics in Colonial Peru Adam Warren presents a groundbreaking study of the primacy placed on medical care to generate population growth during this era The Bourbon reforms of the eighteenth century shaped many of the political economic and social interests of Spain and its colonies In Peru local elites saw the reforms as an opportunity to positively transform society and its conceptions of medicine and medical institutions in the name of the Crown Creole physicians in particular took advantage of Bourbon reforms to wrest control of medical treatment away from the Catholic Church establish their own medical expertise and create a new secular medical culture They asserted their new influence by treating smallpox and leprosy by reforming medical education and by introducing hygienic routines into local funeral rites among other practices Later during the early years of independence government officials began to usurp the power of physicians and shifted control of medical care back to the church Creole doctors without the support of the empire lost much of their influence and medical reforms ground to a halt As Warren s study reveals despite falling in and out of political favor Bourbon reforms and creole physicians were instrumental to the founding of modern medicine in Peru and their influence can still be felt today
