Politics Of Voice:

The Politics of Voice Malini Johar Schueller, 1992-01-01 This book is an analysis of the social criticism and the political implications of rhetorical strategies in personal political nonfictional narratives by liberal American writers from the 18th century till the 1970s Using the theories of Mikhail Bakhtin Schueller examines works by Benjamin Franklin Henry David Thoreau Henry James Henry Adams Jane Addams James Agee Norman Mailer and Maxine Hong Kingston **Political Voice**

Aidan McGarry, 2024 In *Political Voice* Aidan McGarry examines the agency of marginalised people emphasizing the processes through which different communities around the world articulate their political voices McGarry develops an innovative concept of political voice around three elements autonomy representation and constitution This conceptualization is illustrated through contemporary case studies of two persecuted and silenced groups LGBTIQ activists in India and Roma mobilization in Europe **The Politics of Silence, Voice and the In-Between** Aliya Khalid, Georgina Holmes, Jane L.

Parpart, 2023-12-19 *The Politics of Silence Voice and the In Between Exploring Gender Race and Insecurity from the Margins* seeks to dismantle the deficit discourses generated through research about people as agency less and by extension objects of study The book argues that regardless of marginalisation people create spaces of liminality where they seek control over their lives by navigating the structures that exclude them Challenging the false binary of silence as violence and voice as power the book introduces the idea of an in between liminal space which is created by people to navigate conditions of oppression and move towards a politically stable and inclusive world This book will be of great interest to students and scholars of gender studies international development peace and conflict studies politics and international relations sociology and media studies It will be an important resource for courses incorporating gender feminist and postcolonial perspectives

Religious Voices in the Politics of International Development Paul J. Nelson, 2021-04-15 This first study of faith based development NGOs FBOs political roles focuses on how U S FBOs in international development educate and mobilize their constituencies Most pursue cautious reformist agendas but FBOs have sometimes played important roles in social movements Nelson unpacks those political roles by examining the prominence of advocacy in the organizations the issues they address and avoid their transnational relationships and their relationships with religious and secular social movements The agencies that educate and mobilize U S constituencies most actively are associated with small Christian sects or with non Christian minority faiths with historic commitments to activism or service Specialized advocacy NGOs play important roles and emerging movements on immigration and climate may represent fresh political energy The book examines faith based responses to the crises of climate change COVID 19 and racial injustice and argues that these will shape the future of religion as a moral and political force in America and of NGOs in international development *Hip Hop and Political Voice for Young South Sudanese Australians* Sarah J. Williams, 2025-02-11 *Hip Hop and Political Voice for Young South Sudanese Australians Born to Stand Out* explores the building of political voice of young South Sudanese Australians to resist

racialising discourses particularly through hip hop Presented as an ethnography Sarah J Williams draws on empirical evidence from a youth participatory action research project facilitated by a small nonprofit organisation Footprints Each chapter foregrounds counter narratives young South Sudanese Australian hip hop artists portray in response to over a decade of media and moral panics targeting their communities limiting their sense of freedom and resulting in a rise in youth suicide The core message throughout suggests participants reject any goal of or focus on fitting in Instead based on their conviction that they are born to stand out these artists carve out space in the face of racialising discourses perpetuated primarily by Australian Whiteness Through the lenses of new social movements and theories and perspectives informed by critical race theory and critical Hip Hop pedagogy this book expands race and ethnicity as a central theme by exploring how the political voice of this group of young South Sudanese Australians manifests in important new ways that conventional theories of activism and resistance may not capture Participants embark on consciousness raising practices to reframe and assert their multiple identities whilst establishing themselves as social agents in the world **Women's Political Voice**

Janet A. Flammang,1997 **Prophecy and Politics in South African Pentecostalism** Mookgo Solomon

Kgatle,2023-12-28 This book is an interdisciplinary study of the relationship between prophecy and politics in South African Pentecostalism The role and the power of prophecy in enhancing the presence of politicians in the church square are unpacked through historical examples as well as case studies of contemporary prophets Solomon Kgatle argues that the influence of prophecy in politics has the potential to weaken the prophetic voice of the church in general and the Pentecostal movement in particular He proposes a Pentecostal political theology of prophecy This theology is developed by taking into cognizance the theoretical and theological frameworks of prophetic imagination and pneumatological imagination In addition this theology seeks a balance between prophecy and power and prophecy and sovereignty *Democracy and the Politics of Silence* Mónica Brito Vieira,2024-11-19 Most people equate democracy with discussion speech and making one's voice heard But where does silence fit in *Democracy and the Politics of Silence* investigates the largely overlooked role of silence in democratic politics It challenges conventional wisdom by arguing that silence can support and affirm democratic pillars and outcomes like empowerment inclusion and equality The book focuses on a particular set of problems concerning the relationship between political silence and the democratic triad of voice agency and representation Each of the book's chapters draws on a selection of hand picked case studies both historical and contemporary including the NAACP's Silent Parade in 1917 demonstrations by the Women in Black Spain's post Franco Pact of Forgetting Trump's silent majority debates related to the representation of nonhuman beings and the famous Miranda judgment on the right to silence Together they offer an innovative ambitious investigation of democratically undesirable silences and practices of silence that are powerfully affirmative of democratic subjectivities aims and norms In thus expanding the repertoire of democratic citizenship Mónica Brito Vieira invites readers to consider what silence might teach them about democracy This timely book should
