Politics, Policy, and Government in British Columbia R. Kenneth Carty, Professor of Political Science R Kenneth Carty, 1996-09-23 Politics Policy and Government in British Columbia examines the political life of Canada's dynamic Pacific province Each of the seventeen chapters written by well known experts provides an up to date portrait and analysis of one of the many faces of B C politics Taken together they provide a clear and comprehensive overview of the dominant themes and issues that have been the distinguishing features of the province s political life Key elements of the book include sections on the political setting with discussions of BC s political culture and economy and its relations with the rest of Canada and its own Native communities B C style politics which focus on electoral and parliamentary party politics the changing place of women in BC public life and the critical role of the media in explaining it all to British Columbians governing the province with accounts of the premier and cabinet the bureaucracy that delivers most government services and the complex system from the police to the courts that provides the administration of justice and the rule of law and contemporary policy issues with clear explanations of the intricacies of fiscal and social policy analyses of recent conflicts over forest policy and environmental protection a discussion of the role of lobbyists and an examination of what difference is made when NDP governments are elected Anyone interested in B C or its politics will find this book an informative up to date record of the processes and events that have marked B C s past and will continue to shape its future Politics, Policy, and Government in British Columbia R. Kenneth Carty, 1996 Politics Policy and Government in British Columbia examines the political life of Canada's dynamic Pacific province Each of the seventeen chapters written by well known experts provides anup to date portrait and analysis of one of the many faces of B C politics Taken together they provide a clear and comprehensive overview of the dominant themes and issues that have been the distinguishing features of the province s political life Transforming Provincial Politics Bryan M. Evans, Charles W. Smith, 2015-01-01 Transforming Provincial Politics is the first province by province analysis of politics and political economy in more than a decade and the first to directly examine the turn to neoliberal policies at the provincial and territorial level and examines how neoliberal policies have affected politics in each jurisdiction in Canada Human Rights and Labor Solidarity Susan L. Kang, 2012-07-24 Faced with the economic pressures of globalization many countries have sought to curb the fundamental right of workers to join trade unions and engage in collective action In response trade unions in developed countries have strategically used their own governments commitments to human rights as a basis for resistance Since the protection of human rights remains an important normative principle in global affairs democratic countries cannot merely ignore their human rights obligations and must balance their international commitments with their desire to remain economically competitive and attractive to investors Human Rights and Labor Solidarity analyzes trade unions campaigns to link local labor rights disputes to international human rights frameworks thereby creating external scrutiny of governments As a result of these campaigns

states engage in what political scientist Susan L Kang terms a normative negotiation process in which governments trade unions and international organizations construct and challenge a broader understanding of international labor rights norms to determine whether the conditions underlying these disputes constitute human rights violations. In three empirically rich case studies covering South Korea the United Kingdom and Canada Kang demonstrates that this normative negotiation process was more successful in creating stronger protections for trade unions rights when such changes complemented a government s other political interests She finds that states tend not to respect stronger economically oriented human rights obligations due to the normative power of such rights alone Instead trade union transnational activism coupled with sufficient political motivations such as direct economic costs or strong rule of law obligations contributed to changes in favor of workers rights **Doing Politics Differently?** Sylvia Bashevkin, 2019-05-01 Women have reached the highest levels of public office in Canada's provinces and territories but what difference if any has their rise to the top made Have they changed the content tone and style of politics What role has gender played in their triumph and defeat In Doing Politics Differently leading researchers from across the country assess the track records of eleven premiers including their impact on policies of particular interest to women and their influence on the tenor of legislative debate and the recruitment of other women as party candidates cabinet ministers and senior bureaucrats Canada stands out for the variety and number of women who have reached the top in subnational government By evaluating the performance of women premiers across the country and comparing their records with those of men who preceded and succeeded them this innovative volume probes how important demographic diversity is to government decision making The Privatization of Care Pat Armstrong, Hugh Armstrong, 2019-09-25 Nursing homes are where some of the most vulnerable live and work In too many homes the conditions of work make it difficult to make care as good as it can be For the last eight years an international team from Germany Sweden Norway the UK the US and Canada have been searching for promising practices that treat residents families and staff with dignity and respect in ways that can also bring joy While we did find ideas worth sharing we also saw a disturbing trend toward privatization Privatization is the process of moving away not only from public delivery and public payment for health services but also from a commitment to shared responsibility democratic decision making and the idea that the public sector operates according to a logic of service to all This book documents moves toward privatization in the six countries and their consequences for families staff residents and eventually us all None of the countries has escaped pressure from powerful forces in and outside government pushing for privatization in all its forms However the wide variations in the extent and nature of privatization indicate privatization is not inevitable and our research shows there are **In Search of Canadian Political Culture** Nelson Wiseman, 2011-11-01 What do we really mean by phrases alternatives such as western Canadian political culture the centrist political culture of Ontario Red Toryism in the Maritimes or Prairie socialism What historical geographical and sociological factors came into play as these cultures were forged In this book

Nelson Wiseman addresses many such questions offering new ways of conceiving Canadian political culture The most thorough review of the national political ethos written in a generation In Search of Canadian Political Culture offers a bottom up regional analysis that challenges how we think and write about Canada **Sustaining the Forests of the Pacific** Coast Debra Salazar, Donald K. Alper, 2011-11-01 Forests define the Pacific Coast in many ways Culturally they are part of the traditions of the First Nations economically they have sustained an industry that has created settlements and wealth throughout the area In the last twenty years the forests have become the subject of increasing conflict as economic interests clash with changing social and political values The war in the woods has escalated hardening battle lines and polarizing forest politics In this thoughtful collection of essays edited by Debra J Salazar and Donald K Alper forest policy in the U S Pacific Northwest and British Columbia is examined in a binational context While US and Canadian forest policy and forest management approaches differ the two countries face similar challenges and conflicts Contributors discuss the evolution of forest exploitation the response of timber companies to U S federal environmental regulations sovereignty for First Nations communities and the reshaping of the political economy of forests by global forces on both sides of the border Groups usually ignored in the forest policy debate such as First Nations peoples workers in the emerging non forest economy and citizen activists are also given voice in this fascinating compilation The contributors to Sustaining the Forests of the Pacific Coast offer new perspectives that recognize the complexity of the issues and the diversity of interests in forest politics A valuable contribution to the ongoing debate over forest policy on both sides of the Canada U S border these essays analyze the challenges facing forest policy makers and open the discussion up to those whose voices have not been heard before Political Space Warren Magnusson, Karena Shaw, 2002 Talk and Log Jeremy Wilson, 1998 For more than three decades British Columbia s old growthforests have been a major source of political conflict In Talk and Log Jeremy Wilson presents a comprehensive account of the rise ofthe wilderness movement examines the forest industry s political strategies and analyzes the inner workings of the policy process Wilson describes a number of major political battles such as those resulting in preservation of South Moresby the Carmanah and the Valhalla wilderness and investigates the factors that pushed the government towards a more comprehensive approach to expanding the protected areas system. He considers a wide range of forest policydevelopments and assesses the effectiveness of government and industryattempts to contain the wilderness movement In the final part heexplores the Harcourt NDP government's reform initiatives including the Commission on Resources and Environment CORE the Protected Areas Strategy and the Forest Practices Code Talk and Log illuminates the forces behind controveries that have divided British Columbians preoccupied the provincial government and drawn the attention of people across Canada and theworld By discussing the patterns and trends underlying the past threedecades of wilderness politics Wilson identifies the currents likelyto dominate B C wilderness debates in decades to come The Public Sector in an Age of Austerity Bryan M. Evans, Carlo Fanelli, 2018-07-23 Following the 2008 global financial crisis

Canada appeared to escape the austerity implemented elsewhere but this was spin hiding the reality A closer look reveals that the provinces responsible for delivering essential public and social services such as education and healthcare shouldered the burden The Public Sector in an Age of Austerity examines public sector austerity in the provinces and territories specifically addressing how austerity was implemented what forms austerity agendas took from regressive taxes and new user fees to public sector layoffs and privatization schemes and what if any political responses resulted Contributors focus on the period from 2007 to 2015 the global financial crisis and the period of fiscal consolidation that followed while also providing a longer historical context austerity is not a new phenomenon A granular examination of each jurisdiction identifies how changing fiscal conditions have affected the delivery of public services and restructured public finances highlighting the consequences such changes have had for public sector workers and users of public services The first book of its kind in Canada The Public Sector in an Age of Austerity challenges conventional wisdom by showing that Canada did not escape post crisis austerity and that its recovery has been vastly overstated **Booze, Cigarettes, and Constitutional Dust-Ups** Ryan Manucha, 2022-10-15 Gerard Comeau a retiree living in rural New Brunswick never thought his booze run would turn him into a Canadian hero In 2012 after Comeau had driven to Quebec to purchase cheaper beer and crossed back into his home province police officers participating in a low stakes sting operation tailed and detained him confiscated his haul and levied a fine of less than 300 Countries routinely engage in trade wars and erect barriers to protect domestic industries from foreign competition Comeau however was detained by the full force of the law for engaging in commerce with a Canadian business on the other side of a domestic border With Comeau's story as its starting point Booze Cigarettes and Constitutional Dust Ups tells the fascinating tale of Canadian interprovincial trade Ryan Manucha examines the historical political and legal forces that gave rise to the regulation of interprovincial commerce in Canada the trade offs that come with liberalized domestic free trade and Canada's enduring pursuit of economic union The pandemic laid bare the vulnerability of global supply chains the fickleness of foreign trading partners and the surprising slipperiness of domestic trade In a global climate of increasingly isolationist geopolitics the history and possibility of Canada's economic union quirks and all deserve careful attention **Religion and Canadian Party Politics** David Rayside, Jerald Sabin, Paul E.J. Thomas, 2017-06-07 Religion is usually thought of as inconsequential to contemporary Canadian politics Religion and Canadian Party Politics takes a hard look at just how much influence faith continues to have in federal provincial and territorial political arenas Drawing on case studies from across the country this book explores three important axes of religiously based contention in Canada Early on there were the denominational distinctions between Catholics and Protestants that shaped party oppositions Since the 1960s a newly politicized divide opened between religious conservatives and political reformers Then from the 1990s on sporadic controversy has centred on the recognition of non Christian religious minority rights Although the extent of partisan engagement with each of these sources of conflict has varied across time and region this book shows that religion still

matters in shaping party politics This detailed look at the play of religiously based conflict and accommodation in Canada fills a large gap and pulls us back from overly simplified comparisons with the United States More broadly this book also compares the role of faith in politics in Canada to that of other Western industrialized societies Branching Out, Digging In Sarah B. Pralle,2006-12-22 Sarah B Pralle takes an in depth look at why some environmental conflicts expand to attract a lot of attention and participation while others generate little interest or action Branching Out Digging In examines the expansion and containment of political conflict around forest policies in the United States and Canada Late in 1993 citizens from around the world mobilized on behalf of saving old growth forests in Clayoguot Sound Yet at the same time only a very few took note of an even larger reserve of public land at risk in northern California Both cases the Clayoquot Sound controversy in British Columbia and the Quincy Library Group case in the Sierra Nevada mountains of northern California centered around conflicts between environmentalists seeking to preserve old growth forests and timber companies fighting to preserve their logging privileges Both marked important episodes in the history of forest politics in their respective countries but with dramatically different results The Clayoquot Sound controversy spawned the largest civil disobedience in Canadian history international demonstrations in Japan England Germany Austria and the United States and the most significant changes in British Columbia's forest policy in decades On the other hand the California case with four times as many acres at stake became the poster child for the collaborative conservation approach using stakeholder collaboration and negotiation to achieve a compromise that ultimately broke down and ended up in the courts Pralle analyzes how the various political actors local and national environmental organizations local residents timber companies and different levels of government defined the issues in both words and images created and reconfigured alliances and drew in different governmental institutions to attempt to achieve their goals She develops a dynamic new model of conflict management by advocacy groups that puts a premium on nimble timing flexibility targeting and tactics to gain the advantage and shows that how political actors go about exploiting these opportunities and overcoming constraints is a critical part of the policy process

Taking Stands Maureen Gail Reed,2003 Environmental activism in rural places frequently pits residents whose livelihood depends on resource extraction against those who seek to protect natural spaces and species While many studies have focused on women who seek to protect the natural environment few have explored the perspectives of women who seek to maintain resource use This book goes beyond the dichotomies of pro and anti environmentalism to tell the stories of these women Maureen Reed uses participatory action research to explain the experiences of women who seek to protect forestry as an industry a livelihood a community and a culture She links their experiences to policy making by considering the effects of environmental policy changes on the social dynamics of workplaces households and communities in forestry towns of British Columbia's temperate rainforest The result is a critical commentary about the social dimensions of sustainability in rural communities A powerful and challenging book Taking Stands provides a crucial understanding of community change in

resource dependent regions and helps us to better tackle the complexities of gender and activism as they relate to rural sustainability Social and environmental geographers feminist scholars and those engaged in rural studies environmental sustainability and community planning will find it invaluable Executive Styles in Canada Luc Bernier, Keith Brownsey, Michael Howlett, 2015-05-07 Canada's political regime is centred on the existence of a federal system of government within the institutions of Westminster parliamentary democracy This system places a great deal of political power in the hands of cabinet ministers and while cabinet systems of government in Canada have evolved at different speeds in different federal and provincial governments they have over the last two decades increased centralization of administrative and legislative control in ever fewer hands This shift has been well demonstrated by scholars such as Donald J Savoie regarding the federal system but little examined in the context of provincial governance Executive Styles in Canada places equal emphasis on both levels explaining how and in what way cabinet systems have conformed to or diverged from this general pattern This unique collection is the only systematic cross provincial study of its kind and is certain to be of great benefit to anyone interested in the structure of government in Canada Public-Private Partnerships Stephen Osborne, 2000-11-23 This book is the first to draw upon a range of disciplines to offer theoretical perspectives upon their analysis of public private partnerships It also offers a series of case studies of their management from around the world

Pro-Family Politics and Fringe Parties in Canada Chris MacKenzie, 2014-05-14 Pro Family Politics and Fringe Parties in Canada explores the organizational and ideological nature of political parties that are initially formed to do the work of social movements Specifically it examines the development of the Family Coalition Party of British Columbia FCP from its origins as a group of alienated Social Credit Party members to its rebirth as the Unity Party of British Columbia and through its struggles as a marginal political entity along the way While addressing the FCP's relationship to the larger North American pro family movement Chris MacKenzie also deftly demonstrates how the party can be seen as organizationally congruent with its ideological antithesis the Green Party Basing his findings on seven years of field research he identifies the obstacles that political parties involved in social movement work must overcome in order for them to achieve their goals He concludes that despite their invaluable contribution to democracy such party movements have limited political institutionalization Consequently their only realistic goal may be to merge their ideals with those of another larger political body This book makes a substantial contribution to our understanding of the genesis development and impact of political party movements in Canada Moreover it provides useful insight into the dynamics and issues that make up the current pro family movements in Canadian Natural Resource and Environmental Policy Melody Hessing, Michael Canada and the United States Howlett, 1997 This book examines policy making in one of the most significant areasof activity in the Canadian economy natural resources and theenvironment It discusses the evolution of resource policies from theearly era of exploitation to the present era of resource and environmental management Using an integrated political economy and policy perspective the

book provides an analytic framework from whichthe foundation of ideological perspectives administrative structures and substantive issues are explored The integration of social science perspectives and the combination of theoretical and empirical work makethis innovative book one of the most comprehensive analyses of Canadiannatural resource and environmental policy to date Provinces Christopher Dunn, 2006-08-01 Provinces is both a study of Canadian provincial government and a review of comparative politics As such it represents a long overdue return to the comparative tradition with its emphasis on subject specific studies across the country The chapters in this revised edition of Provinces each of which has been written for the book by a leading scholar are arranged according to four major sections political life institutions public administration and public policy making the book highly suitable for those interested in areas beyond provincial politics At the same time the adopted comparative approach reveals a wealth of insight into Canadian politics at the beginning of the new millennium This new edition covers some of the vital concerns of our time a disquiet about the quality of democracy concern about women s place in provincial societies interest in the nature and potential of governance in the north unease on the question of the fiscal imbalance between all orders of government a sensitivity to the needs of cities and communities assessment of the retrenchment of the state and consideration of the policy futures influenced by the changing demography of the provinces Special Combined Price Provinces second edition may be ordered together with The Provincial State in Canada Politics in the Provinces and Territories at a special discounted price In order to secure the package price the following ISBN must be used when ordering 978 1 55402 587 9
