Politieke Geschiedenis Van België Sinds 1830 Spanningen In Een Burgerlijke Democratie:

Politieke geschiedenis van België sinds 1830 Els Witte, Jan Craeybeckx, 1985 Historical research in the Low Countries 1981-1983, 2023-09-29 The Great War in Belgium and the Netherlands Felicity Rash, Christophe Declercq, 2018-07-02

This book addresses the many avenues that are still left unexplored when it comes to our understanding of the First World War in the Low Countries With the ongoing the centenary of the Great War many events have been organized in the United Kingdom to commemorate its military events its socio political consequences and its cultural legacy Of these events very few have paid attention to the fates of Belgium or the Netherlands even though it was the invasion of Belgium in August 1914 that was the catalyst for Great Britain declaring war The occupation of Belgium had long term consequences for its people but much of the military and social history of the Western Front concentrates on northern France and the Netherlands is largely forgotten as a nation affected by the First World War By opening the field beyond the military and beyond the front this collection explores the interdisciplinary and international nature of the Great War **Belgium and the Holy See from Gregory XVI to Pius IX (1831-1859)** Vincent Viaene, 2001 The Roman orientation was the keystone of the religious revolution of the Catholic revival New or renewed congregations priests close to the people militant laymen gave a decidedly social activist turn to the faith At this crossroad of religion modernity the papacy could all the more make its weight felt as the Belgian Constitution granted the clergy a unique liberty in relations with Rome Over time the Vatican would exert a powerful impact on the shape of modern politics in Belgium The special relationship between Belgium Rome was no one way traffic From a somewhat curious ecclesiastical court hopelessly entangled in the old spider web of the Papal States the papacy became the institution we know today the leader of a modern Catholic opinion Belgium played a role of major importance in this transformation The central theme of the book can therefore be defined as a process of mutual integration if not acculturation across the Alps Small Countries in a Big Power World: The Belgian-Dutch Conflict at Versailles, 1919 H.P. van Tuyl, 2016-11-21 When a devastated Belgium emerged from World War I some of its leaders had high hopes that the upcoming negotiations would enable achievement of a long cherished goal annexing parts of the Netherlands lost in the final 1839 settlement which had established the country Belgium's strong historical and military arguments were bolstered by its courageous Great War image Yet the Dutch proved ready and able to launch an energetic counterattack which ultimately stymied the Belgian campaign This book explains why and how this happened and demonstrates that small states are active participants in their own destinies not just spectators or victims **Capital Formation in Belgium, 1900-1995** Michelangelo van Meerten, 2003 Based on the analysis of more than 35 000 company balance sheets annual series of gross private investment have been constructed for 15 different sectors in Belgium between 1900 and 1995 The resulting data clearly show that the level of gross investment in the Belgian economy expressed as a percentage of national income was generally much lower than during the post world war two period An international comparison demonstrates that Belgium

usually invested far less than its major competitors Moreover the traditional coal and metal industries benefitted most of the investment effort instead of newer sectors like the chemical industry Thus the present study contributes to explaining for the relatively poor growth performances of the Belgian economy prior to the 1960s

Architectures of Bureaucracy Jens van de Maele, 2025-01-27 This monograph examines the interrelationship between politics and modernist architecture in interwar Belgium focusing on political architectural and administrative elites as propagators of new ideas of governance While Belgium was strongly influenced by neighbouring France and Germany it also developed its own avant garde approaches to socio political problems In the second half of the 1930s the country was the scene of a remarkable political and architectural experiment involving an ambitious plan for the large scale construction of modernist government office buildings These buildings were seen as essential to the development of a technocratic model of governance aimed at strengthening the role of the executive and minimising the influence of parliament More specifically the efficient new office architecture was supposed to create a new type of perfect civil servant whose loyalties would no longer lie with political parties but with scientists and management experts Such experts and scientists constituted a rising elite of homines novi with strong though often veiled political ambitions As such this book contributes to our understanding of political culture in the age of extremes

Europe in 1848 Dieter Dowe, 2001 The events of 1848 in Europe demonstrated the renewed relevance of the mid nineteenth century uprisings both by showing once again how a revolutionary initiative could quickly spread through different European countries but also by calling into question the nature of revolution and the criteria for a revolution s success and failure To commemorate the 1848 revolution in a spirit of renewed critical inquiry an international team of prominent historians have come together to produce what must be the most comprehensive work on this topic to date and to offer a synthesis that sums up the current state of scholarly research emphasizing the many new interpretations that have developed over several decades

The Struggle for Female Suffrage in Europe Blanca Rodriguez Ruiz, Ruth Rubio-Marín, 2012-06-07 By comparing women s access to suffrage in the countries that make up the European Union i The Struggle for Female Suffrage in Europe provides a retelling of the story of how citizenship was gradually coined in Europe from the perspective of women
