Polizei Die In Der Bundesrepublik:

Beiträge zu einer vergleichenden Soziologie der Polizei Jonas Grutzpalk, 2009 Polizei und Politische Bildung Peter Leßmann-Faust, 2008-08-28 Nach der Erfahrung des terroristischen Gebrauchs von Polizeigewalt im nationalsozialistischen Regime und nach den Erfahrungen und Belastungen der protestbewegten Jahre zwischen 1960 und 1980 ist der Autoritätsanspruch der Polizei kommunikativ trainiert und gegliedert. Was hat die Veränderungen im Selbstverständnis und Verhaltensrepertoire der Polizei in den vergangenen Jahrzehnten der Bundesrepublik gekennzeichnet? Die Beiträge dieses Buches verfolgen den Wandel der Polizei unter dem Einfluss der gesellschaftlichen Veränderungen seit den 60er Jahren, die teils langwierige Ablösung tradierter Führungs- und Ausbildungsstile, die durch die Einstellung von Frauen seit Ende der 70er Jahre angestoßene Gender-Debatte und Variation maskuliner Policing-Modelle in der Polizei und skizzieren zu erwartende Folgen der gegenwärtigen Europäisierung der Polizeiarbeit. Die Autorinnen und Autoren widmen sich einem Bereich in der Ausbildung der Polizei, der in den letzten Jahrzehnten ausgebaut worden ist und an Bedeutung gewonnen hat: der Politischen Bildung.

Schutzpolizei in der Bundesrepublik Klaus Weinhauer, 2003 Der Tschakojahrzehntelang ein Kennzeichen der Schupos wurde Mitte der 60er Jahre endgültig durch die Schirmmütze ersetzt, ein neues Zeichen für die allmähliche Wandlung einer Institution, deren Wurzeln weit zurückreichen bis in die frühe Weimarer Republik. Dieses Buch bietet die erste breitgefächerte sozial- und kulturgeschichtliche Analyse zur bundesdeutschen Schutzpolizei, speziell für die Zeit der turbulenten 60er Jahre. Vor allem rücken zwei Einsatzgebiete ins Blickfeld: Die Alltagsarbeit der Funkstreifen sowie das Agieren gegen die Studentenproteste der Endsechziger. Darüber hinaus werden an Beispielen aus Hamburg und NRW die tief verankerten Weimarer Traditionen, die NS-Vergangenheit vor allem im Bandenkampf sowie die militärisch geprägte Ausbildung der Schutzpolizei untersucht. Gezeichnet wird ein plastisches Bild einer durchaus ambivalenten Modernisierung, wobei Ritualen und Männlichkeitsleitbildern breiter Raum gewidmet ist. Es zeigt sich der Bergang einer stark hermetisch geprägten Institution, deren Schwerpunkt in der Bürgerkriegsbekämpfung lag, zu einer Polizei, die sich sozialstaatlich eingebunden mehr und mehr ihre tragende Rolle im präventiv orientierten Konzept der Inneren Sicherheit erhielt.

Coping with the Nazi Past Philipp Gassert, Alan E. Steinweis, 2007 These essays examine how the collective memory of Nazism and the Holocaust influenced and was influenced by politics and culture in West Germany in the 1960s. They explore wide-ranging issues including prosecution for war crimes, student politics and restitution.

The Discreet Charm of the Police State: The Landpolizei and the Transformation of Bavaria, 1945-1965 Jose Raymond Canoy, 2007-04-30 This book examines the relationship between authoritarian policing and the modernization of postwar Germany's largest state in a passage from postwar crisis to consumer prosperity. Early in this transition pre-Nazi but also pre-liberal democratic authoritarian police traditions reemerged to meet the challenges of public order in the US occupation. Authoritarian policing then helped define the evolving relationship between society and state during the economic miracle of the 1950s. However, this regime's success

in midwifing a new post agricultural society led to its obsolescence and disappearance by the mid 1960s This story highlights the role of state authoritarianism in the emergence of prosperous post ideological societies during the later twentieth century

The Nuclear Crisis Christoph Becker-Schaum,Philipp Gassert,Martin Klimke,Wilfried Mausbach,2016-10-01 In 1983 more than one million Germans joined together to protest NATO s deployment of nuclear missiles in Europe International media overflowed with images of marches rallies and human chains as protesters blockaded depots and agitated for disarmament Though they failed to halt the deployment the episode was a decisive one for German society revealing deep divisions in the nation s political culture while continuing to mobilize activists This volume provides a comprehensive reference work on the Euromissiles crisis as experienced by its various protagonists analyzing NATO s diplomatic and military maneuvering and tracing the political cultural and moral discourses that surrounded the missiles deployment in East and West Germany

Public Order Policing Bernd Bürger,Tamara D. Herold,Ryan Lee,2023-12-31 Successful public order management is critical to upholding democracy and maintaining the rule of law Negative police public interactions during assemblies can impact the safety and well being of citizens and officers as well as local and international perceptions of police legitimacy As observed during events across the world including assemblies in the U S Myanmar Belarus Russia and elsewhere police mismanagement of mass demonstrations often instigates crowd violence and other harmful behaviors The causes of violence at assemblies are complex and multi faceted Failure to understand crowd dynamics that lead to violence limits police effectiveness and contributes to poor officer decision making This book offers an international review of public order management experiences and effective practices Practical examples grounded in multi disciplinary theory and science offer a roadmap to improve police response and increase safety at assemblies in democratic countries The diverse content perspectives and lessons learned presented in this volume will serve as a useful guide for all people working in the field of public order management including police officials policymakers and researchers This edited volume was written by and for practitioners practitioners and academics to review the complex and demanding task of policing public order

Taking on Technocracy Dolores L. Augustine, 2021-09-17 The German abandonment of nuclear power represents one of the most successful popular revolts against technocratic thinking in modern times the triumph of a dynamic social movement encompassing a broad swath of West Germans as well as East German dissident circles over political economic and scientific elites Taking on Technocracy gives a brisk account of this dramatic historical moment showing how the popularization of scientific knowledge fostered new understandings of technological risk Combining analyses of social history popular culture social movement theory and histories of science and technology it offers a compelling narrative of a key episode in the recent history of popular resistance

Police and Citizen Participation Jan-Philipp Küppers, 2025-06-30 This book explains why participation processes have gained importance for the police and how they can be successfully designed In the future an integrated security structure will increasingly be required in which stakeholder groups and affected citizens play an important role in police hazard and risk assessment and thus in shaping their context related sense of security The book pursues a guiding and action oriented approach on how practical participation processes for citizens can be integrated into the planning and projects of the police Theoretical foundations and practical application fields for the implementation of participation processes are identified involvement in cooperation discussions for discursive conflict resolution in advance of protest situations opinion formation through information and discursive exchange of arguments within the framework of municipal security and prevention work or issue related round tables in the area of independent citizen and police commissioners In a time of great uncertainty due to social change and complexity participation processes offer the opportunity to ease strained relationships between the police and civil society and to build a mutual trust relationship Citizen participation cannot replace sovereign action but can enrich it with everyday and experiential knowledge In these turbulent

times there is no better recipe for jointly shaping security and addressing problems The Content Practical assistance and better understanding of participation processes for police work Advantages of citizen participation at a glance Three practical application areas cooperation discussions in protest situations independent citizen and police commissioners and municipal security and prevention work

Control of Violence Wilhelm Heitmeyer, Heinz-Gerhard Haupt, Stefan Malthaner, Andrea Kirschner, 2010-11-04 The Control of Violence in Modern Society starts from the hypothesis that in modern society we will face an increasing loss of control over certain phenomena of violence This leads to unpredictable escalations and violence can no longer be contained adequately by the relevant control regimes such as police state surveillance institutions national repression apparatuses and international law However before investigating this hypothesis from an internationally and historically comparative perspective the terms and tools for this undertaking have to be rendered more precisely Since both control and violence are all but clear cut terms but rather highly debatable and contested concepts that may take multiple connotations The main question is whether an increase in certain forms of violence can be explained by the failure or in turn overeffectiveness of certain control mechanisms It is asked for instance which contribution religion can make to limit violence and in turn which destructive potential religion might have in its fundamentalist form Moreover the concept of individual self control as well as social institutions and strategies of collective disengagement and de radicalization are investigated with regard to their potential for controlling violence The Control of Violence in Modern Society concludes with a re examination of the hypothesis of a loss of control by specifying in what cases and under which circumstances we can speak of a loss of control over violence
