Up till now we have received over three hundred papers from various countries; this shows that there has been a growing interest in the field of energy and power engineering. Among those papers received we have eventually chosen about a hundred to be presented and included in this proceeding. These papers generally represented the current research status in this field and the future trend. We sincerely believe that these papers could be valuable to the future work of yours. Finally on behalf of the committee I would like to deeply express our gratitude to those who have supported the EPE2014, especially the international experts who helped reviewing papers, the DEStech Publications help publish the conference proceedings and last but not least the authors of these inspiring papers. Without the help from these people EPE2014 would not be as half successful as it is now. Here welcome to EPE2014 and let's hope that it will be a great success.
