Polska 5 Lat Po Sierpniu Raport:

Polska 5 lat po Sierpniu, 1986 Polen 5 r after August 1980 State, Labor, and the Transition to a Market Economy Agnieszka Paczyńska, 2015-06-19 In response to mounting debt crises and macroeconomic instability in the 1980s many countries in the developing world adopted neoliberal policies promoting the unfettered play of market forces and deregulation of the economy and attempted large scale structural adjustment including the privatization of public sector industries How much influence did various societal groups have on this transition to a market economy and what explains the variances in interest group influence across countries In this book Agnieszka Paczyńska explores these questions by studying the role of organized labor in the transition process in four countries in different regions the Czech Republic and Poland in eastern Europe Egypt in the Middle East and Mexico in Latin America In Egypt and Poland she shows labor had substantial influence on the process whereas in the Czech Republic and Mexico it did not Her explanation highlights the complex relationship between institutional structures and the critical junctures provided by economic crises revealing that the ability of groups like organized labor to wield influence on reform efforts depends to a great extent on not only their current resources such as financial autonomy and legal prerogatives but also the historical legacies of their past ties to the state This new edition features an epilogue that analyzes the role of organized labor uprisings in 2011 the protests in Egypt the overthrow of Mubarak and the post Mubarak regime *Revolution and Counterrevolution in Poland, 1980-1989* Andrzej Paczkowski, 2015 Examines the 1980 Solidarity revolution in Poland the government's subsequent establishment of martial law in response in 1981 and the eventual transition to democracy in 1989 *Crisis And Reform In Socialist Economies* Peter Gey, 2019-04-09 In contrasting the economic developments in the Soviet Union in Poland Cuba Yugoslavia Hungary and China this book evaluates the pressures and constraints of systemic changes in different types of socialist economies **Ha-Tov v'ha-Meitiv: Contemporary Scholarship in Jewish Studies** Simcha Fishbane, Eric M. Levine, Yosef Dov Robinson, 2024-06-11 This book presents a group of distinguished scholars who examine key themes in Jewish religious life Their essays revolve around the dimensions of rabbinic intellectual cultural communal educational political and social leadership as well as a reflective look at one of the most tragic events in Jewish experience towards the hope of repairing the world and not repeating such evil The scholarship reproduced in this volume captures the essence of Touro University remembering the past perpetuating the rich historic Jewish tradition of tolerance and dignity and managing the delicate ballet of serving humanity and the Jewish community at the same time These papers are expressive of the Jewish commitment to intellectual inquiry the transmission of knowledge and the pursuit of social justice **The Second Economy in Marxist States** Maria Los, 2016-01-13 This book analyses and compares the unofficial economies and their control in ten marxist states the USSR Poland Hungary Romania Yugoslavia Cuba Nicaragua China Angola and Tanzania It provides a vivid mosaic like panorama of the hidden economies in these countries The book breaks with the view that the unofficial economy

is simply a by product of the official economy It shows an unfolding interplay between these two economies which moulds and limits both the dynamics and the direction of the process of change In her final essay Maria Los develops a theoretical model linking second economies with the process of marxist economic development The key stages of this process are identified as 1 The stage of radical transformation 2 The monopolisation period 3 The reformist phase and 4 Post reformist decadence The volume throws a new light on the prospects and problems of the reformist movements which have swept the Soviet Union China and several other marxist states in the 1980s Red Eagle: The Army in Polish Politics, 1944 - 1988 Andrew A. labor movement in Europe This book takes readers inside the debates within Solidarity academic and intellectual circles and the Communist Party over the future of Poland and competing visions of society Kowalik argues that the failures of the Communist Party combined with the power of the Catholic Church and interference from the United States subverted efforts to build a cooperative and democratic economic order in the 1990s Instead Poland was subjected to a harsh return to the market resulting in the wildly unequal distribution of the nation s productive property often in the hands of former political rulers who along with foreign owners constitute the new capitalist class Kowalik aptly terms the transformation from command to market economy an epigone bourgeois revolution and asks if a new social transformation is still possible in Poland
