Advances in Textile Engineering and Materials Hua Wu Liu, Yong Xin Yang, Shi Jie Shen, Zhi Li Zhong, Lai Jiu Zheng, Peng Feng, 2012-12-27 Selected peer reviewed papers from the Second International Conference on Textile Engineering and Materials ICTEM 2012 November 17 18 2012 Changsha China *Official Gazette of the United States Patent Office* United States. Patent Office, 1965 *Water-Soluble Synthetic Polymers* Philip Molyneux, 2018-01-10

Although several monographs and reviews have appeared on individual polymers of this type and their applications and other technical aspects have also been discussed this is apparently the first book to deal with the physical chemistry of water soluble synthetic polymers as a group This collective survey enables their properties and behaviour to be compared and to be correlated with their molecular structures for predictive purposes However this has made it necessary to critically re-appraise much of the earlier fundamental work so that current discussion of more recent work can be put on a proper basis Thus of the 1800 or so references cited the middle two thirds related to the twenty year period centred on about 1968 Nevertheless sufficient key recent references have also been included so that the existing state of the art is delineated
