along the way things you hadn't realized were tucked away in there The Poo Bomb Jeff Vogel, 2005-03 Author Jeff Vogel did not go into parenthood with any delusions. He knew that he would love his daughter and that was terrifying. What if he screwed up? And he knew that life with a baby would be different; that it would be filled with an endless stream of filthy diapers, unexplained wailing, and sleepless nights. Not to mention no sex. The parenting books painted a picture of smart, communicative babies and mindless, limitless joy, but he knew they were lying to him. So he wrote his own book. The Poo Bomb. True Tales of Parental Terror recounts in a no punches pulled style the first year of life of Cordelia, Jeff's freshly hatched, gooey human girl. The first year of parenthood isn't about joy or fulfillment. It is about menial labor, wiping up human waste, and marking time until the kid is old enough to run and play and thank you for its life. Jeff chronicles the journey through the morass of year one, week by week. Rich with irreverent honesty and humor, The Poo Bomb is the reality show of parenting books. It reflects what most parents have sometimes guiltily felt about their not-so-delightful bundles of joy. **Machine**

Lectures on Language Performance C.E. Osgood, 2013-03-08
Titling this book *Lectures on Language Performance* was not done to be cleverly eye catching the title is quite literally appropriate With minor adaptations for a general reading audience the eight chapters in this volume are the actual lectures I gave as the Linguistic Society of America Professor for its Summer Institute held at the University of Illinois in 1978 The eight lectures are an anticipation of my magnum opus I guess when one has passed into his sixties he can be forgiven for saying this a much larger volume or volumes to be titled *Toward an Abstract Performance Grammar* The book in your hands is an anticipation of this work in at least three senses for one thing it doesn t pretend to cover the burgeoning literature relevant to the comparatively new field of psycholinguistics my study at home is literally overflowing with reference materials aU coded for various sections of the planned vol ume s for another both the style and the content of these Lectures were tailored to a very broad social science audience including students and teachers in anthropology linguistics philosophy and psychology as well as in various applied fields like second language learning and bilingualism and for yet another thing many sections of the planned magnum opus are hardly even touched on here for example these lectures do not anticipate major sections to be devoted to Efficiency vs
