**Studies in the Sermons of Stephen Langton** Phyllis Barzillay Roberts, 1968 **Preachers and People in the Reformations and Early Modern Period** Larissa Taylor, 2021-10-01 Sermons are an invaluable source for our knowledge of religious history and sociology anthropology and the mental landscape of men and women in pre modern Europe of what they were taught and what they practiced But how did an individual process the preached message from the pulpit How exactly do written sermons duplicate the preached Word Do they at all The 11 leading scholars who have contributed to this book do not offer uniform answers or an all encompassing study of preaching in the Reformations and early modern period in Europe They do however provide new insights on Catholic Lutheran and Reformed preaching in Western and Central Europe Part One examines changes in sermon structure style and content in Christian sermons from the thematic sermon typical of the Middle Ages to the wide variety of later preaching styles Catholic preaching after Trent proves not to be monolithic and intolerant but a hybrid of forms past and present applied as needed to particular situations Lutheran homiletic theory is traced from Luther and through Melancthon the intention of the sermon being to transform the worship service based on exegesis of Scripture In Reformed worship the expository sermon often given on a daily basis with a continuing exegesis was designed to communicate the tenets of the faith in terms that the laity could understand plain style Part Two deals with the social history of preaching in France where preachers often incited their hearers to attack human beings or holy objects or were themselves attacked in Italy where preaching became a collective and home grown product in early modern Germany

where the authorities strove for uniformity of preaching practice and the preacher was seen as a moral guardian in Switzerland where leaders from Zwingli on sought to bring religious practice conduct and government in line with biblical teaching and propagated a pastoral vision of preaching in England where after the Reformation preachers became the indispensable agents of salvation but clergy and congregations were often ill prepared for the task in Scandinavia where post Reformation sermons have a clear didactic aim teaching obedience to the authorities and in the Low Countries characterized by its numerous denominations all with their own churches and particular practices in terms of preaching The volume ends with a consideration of the influence of late medieval preaching on the Reformation concluding that the diversity of emphasis on how the practice of penance was preached and received very likely affected the appeal or not of the Lutheran Reformed message in a given country

An Explorer's Guide to Julian of Norwich Veronica Mary Rolf, 2018-06-12 Julian of Norwich's Revelations of Divine Love is truly an astounding work an inspiring example of Christian mysticism a unique contribution to Christian theology the first book in English known to have been written by a woman Veronica Mary Rolf guides us as we read examining its fourteenth century context and illuminating our understanding of this enduring work

**The Mendicant Houses of Medieval London, 1221-1539** Jens Röhrkasten, 2004 The mendicant Orders had a profound impact on urban society life and culture from the thirteenth century onwards Being engaged in extensive and ambitious pastoral activities they depended on outside support for their material existence Their influence extended into ecclesiastical as well as secular affairs leading to the creation of a network of connections to different social groups and on occasion even an involvement in politics The role of the mendicants in a medieval capital has not yet been systematically studied A first attempt to study a city of this scale is here made for London

English Gothic Misericord Carvings Betsy Chunko-Dominguez, 2017-03-06 English Gothic Misericord Carvings History from the Bottom Up by Betsy Chunko Dominguez is the first book to move beyond textual dependence and traditional iconographic analysis when examining misericords It likewise builds the most thorough discussion to date of the relationship between the misericord's several potential audiences including patron craftsman occupant of the seat and modern viewer Beyond the bounds of misericord studies there are implications here for study of the relationship between center and margin in late medieval art and indeed what constitutes center and margin as conceptual realms Ultimately this book attempts both to re integrate the study of misericords into the study of Gothic art in general and to re center them in relation to our understanding of late medieval culture

**Youth in the Middle Ages** P. J. P. Goldberg, Felicity Riddy, 2004 Evidence for childhood and youth from the sixth century to the sixteenth but with particular emphasis on later medieval England Moving on from the legacy of Ari's these essays address evidence for childhood and youth from the sixth century to the sixteenth but with particular emphasis on later medieval England The contents include the idea of childhood in the writing of Gregory of Tours skaldic verse narratives and their implications for the understanding of kingship Jewish communities of Northern Europe for whom children represented the continuity of a persecuted faith

children in the records of the northern Italian Humiliati the meaning of romance narratives centred around the departure of the hero or heroine from the natal hearth the age at which later medieval English youngsters left home how far they travelled and where they went literary sources revealing the politicisation of the idea of the child and the response of young affluent females to homiletic literature and the iconography of the virgin martyrs in the later middle ages Contributors FRANCES E ANDREWS HELEN COOPER P J P GOLDBERG SIMCHA GOLDIN EDWARD F JAMES JUDITH JESCH KIM M PHILLIPS MIKE TYLER ROSALYNN VOADEN     The Mirror of the Blessed Life of Jesus Christ Nicholas Love, 2019-05-29 Published in 2005 At a time when the church sought to control and constrain lay access to vernacular and paramystical texts the author's translation sanctioned by the Archbishop of Canterbury met a pressing need for religious guidance among lay people It became one of the most copied works of the fifteenth century     Preaching and Narrative in Piers Plowman Alastair Bennett, 2025-05-27 William Langland's Piers Plowman was written and read during a golden age of English preaching The poem describes a world where sermons took many different forms and were delivered in many different contexts from public events in the life of the realm to pastoral instruction in the parish It dramatises preaching as part of its allegorical action showing how sermons shaped their listeners' understanding of the world it also includes polemical critique of corrupt self-interested preaching and offers radical prescriptions for its reform This book argues that Langland's central insight into the way that sermons moved and engaged their audiences had to do with their characteristic use of narrative Preachers in the poem address listeners who are absorbed in the concerns of their present moment and encourage them to new forms of social and spiritual endeavour by locating that moment in a larger interpreted plot the story of an individual life or an emergent community or of salvation history as a whole The book employs a critical vocabulary derived from Paul Ricoeur to describe the process by which these narratives are composed and to show how they mediate and reconfigure their listeners' experiences     *The Censored Pulpit* Donyelle C. McCray, 2019-10-16 Few have consoled the church as ably as the fourteenth-century mystic Julian of Norwich However her prophetic gifts have received little scholarly attention Drawing on contemporary homiletical theory and the history of Christian spirituality Donyelle C. McCray presents Julian as a preacher examining the apostolic dimensions of Julian's vocation as an anchoress and highlighting the steps she took to align herself with renowned preachers like Saint Cecelia Mary Magdalene and the apostle Paul Like Paul Julian saw Jesus' body as her primary text placed human weakness at the center of her theology and used her own confined body as a rhetorical tool Yet she navigated a web of censorship that threatened to silence her To voice her convictions Julian developed a novel approach to authority and exploited the fluidity of the medieval English sermon genre McCray charts this process revealing Julian as a central personality in the history of preaching whose best contemporary parallels operate outside the pulpit in august figures like retreat leader Evelyn Underhill gospel singer Mother Willie Mae Ford Smith and street preacher Reverend Billy     English Readers of Catholic Saints Judy Ann Ford, 2020-05-18 In 1484 William Caxton the first publisher of English

language books issued *The Golden Legend* a translation of the most well known collection of saints lives in Europe This study analyzes the molding of the *Legenda aurea* into a book that powerfully attracted the English market Modifications included not only illustrations and changes in the arrangement of chapters but also the addition of lives of British saints and translated excerpts from the Bible showing an appetite for vernacular scripture and stories about England's past The publication history of Caxton's *Golden Legend* reveals attitudes towards national identity and piety within the context of English print culture during the half century prior to the Henrician Reformation
