**Preaching in Eighteenth-century London** Jennifer Farooq, 2013. This book looks at the role of preaching culture in eighteenth-century England. Beyond the confines of churches, preaching was heard at political anniversaries and elections, thanksgiving and fast days, and society and charity meetings, all of which were major occasions on the English political and social calendars. Dozens of sermons were published each year, and the popularity of sermons both from the pulpit and in print made them crucial for understanding the role of religion in eighteenth-century society. To provide a broad perspective on preaching culture, this book focuses on print and manuscript evidence for preaching in London. London had a unique combination of preaching venues and audiences, including St Paul's cathedral, parliament, the royal court, the corporation of London, London-based societies, and numerous parish churches and Dissenting meetinghouses. The capital had the greatest range of preaching anywhere in England. However, many of the developments in London reflected trends in preaching culture across the country. This was a period when English society experienced significant social, religious, and political changes, and preachers' roles evolved in response to these changes. Early in the century, preachers were heavily engaged in partisan politics. However, as these party heats waned, they increasingly became involved with societies and charities that were part of the blossoming English urban culture. The book also explores the impact of sermons on society by looking at contemporary perceptions of preaching, trends in the publication of sermons, the process of the publication and the distribution of sermons, and the reception of sermons. It demonstrates how preachers of various denominations adapted to an increasingly literate and print-centred culture and the continuing vitality of oral preaching culture. The book will be of interest not only to scholars of religion and sermon literature but also to those interested in eighteenth-century politics, urban society, oral and print cultures, and publishing.

In Volume 1, *The Biblical Period*, Old begins his survey by discussing the roots of the Christian ministry of the Word in the worship of Israel. **Geneva's Use of Lies, Deceit, and Subterfuge, 1536-1563** Jon Balserak, 2024-09-17. This study examines the ethical character of John Calvin and his Genevan colleagues' evangelizing of France. It reveals that Calvin's plans for proselytizing his homeland involved lying, deception, and obfuscation, which were employed as a means of evading detection by the French authorities. Balserak considers important questions about the relationship between godliness and cunning about Calvin's manufacturing of his image and about the lengths to which he and his colleagues went to spread their gospel.

**Sermons of Samuel Stanhope Smith** Samuel Stanhope Smith, 1821. *Social Crisis Preaching* Tyshawn Gardner, 2023-02-01. This book provides a theology for social crisis preaching by arguing that Christian proclamation is the best prescription for the social crises in our world. *Social Crisis Preaching* positions the pastor as a sacred anthropologist, one who is aware of both the crises in one's community but also as one who has a firm understanding of the people in the pews. It also equips the preacher with both the hermeneutical and homiletical tools to confront social crisis with biblical integrity. Lastly, this book argues that social crisis preaching develops Christians' disciples and congregations as those who care about and confront the social crisis in their neighbor's community, following the biblical mandate to love your neighbor as yourself.

**The New England Soul : Preaching and Religious Culture in Colonial New England** Harry S. Stout. John B. Madden, Master of Berkeley College and Jonathan Edwards Professor of American Christianity, Yale University, 1986-09-04. Throughout the colonial era, New England's only real public spokesmen were the Congregational ministers. One result is that the ideological origins of the American Revolution are nowhere more clearly seen than in the sermons they preached. *The New England Soul* is the first comprehensive analysis of preaching in New England from the founding of the Puritan colonies to the outbreak of the

Revolution Using a multi disciplinary approach including analysis of rhetorical style and concept of identity and community Stout examines more than two thousand sermons spanning five generations of ministers including such giants of the pulpit as John Cotton Thomas Shepard Increase and Cotton Mather George Whitefield Jonathan Edwards Jonathan Mayhew and Charles Chauncy Equally important however are the manuscript sermons of many lesser known ministers which never appeared in print By integrating the sermons of ordinary ministers with the printed sermons of their more illustrious contemporaries Stout reconstructs the full import of the colonial sermon as a multi faceted institution that served both religious and political purposes and explicated history and society to the New England Puritans for one and a half centuries
