Preaching The Tradition:

Theories of Preaching Richard Lischer, 1987 **Preaching the Tradition** Rex Mason, 1990-08-31 The aim of this study is to examine the speeches given to leading characters in the Books of Chronicles including those which formed the basis of Gerhard von Rad's book *The Levitical Sermon in the Books of Chronicles*. These are compared with similar material in the Books of Ezra and Nehemiah and in the post exilic prophets. It is Dr Mason's contention that recurring themes and homiletical devices suggest that these addresses while not to be classified as Sermons do reveal something of the exegetical and teaching methods employed in the Second Temple period which are here echoed. By studying the contents and aims of this preaching the author tries to clarify the process by which pre exilic Davidic Yahwism became the living faith of the post exilic community in the challenging circumstances of the Persian and Greek periods through the careful reinterpretation of earlier scriptural material **Martin Luther King in the African American Preaching Tradition** Valentino

Lassiter, 2010-06-01 Valentino Lassiter has cast spiritual breads upon the waters with this compelling comparison of the historic tradition of African American preaching and the overwhelming spiritual preaching of Martin Luther King Jr. *Martin Luther King in the African American Preaching Tradition* details preaching by slave preachers to present day preachers. More importantly it shows how King's sermon content was cut from the same loaf as those preachers who preached justice and God's assurance in the 1600s. Lassiter has written a book that will be an important resource for pastors, seminarians and those who are interested in the never ending fascination with dynamic African American preaching **Introduction to the**

Practice of African American Preaching Frank A. Thomas, 2016-11-15 *The Introduction to African American Preaching* is an important groundbreaking book. This book acknowledges African American preaching as an academic discipline and invites all students and preachers into a scholarly, dynamic and useful exploration of the topic. Author Frank Thomas opens with a bus tour study of African American preaching. He shows how African American preaching has gradually moved from an almost exclusively oral to an oral/written tradition. Readers will gain insight into the history of the study of the African American preaching tradition and catch the author's enthusiasm for it. Next, Thomas traces the relationship between homiletics and rhetoric in Western preaching, demonstrating how African American preaching is inherently theological and rhetorical. He then explores the question: what is black preaching? Thomas introduces the reader to methods of close reading and ideological criticism. And then demonstrates how to use these methods using a sermon by Gardner Calvin Taylor as his example. The next chapter considers the question: what is excellence in black preaching? The next chapter seeks to create bridges and dialogue within the field of homiletics and in particular the Euro American homiletic tradition. The goal of this chapter is to clearly demonstrate connections between the African American preaching tradition and the field of homiletics. Thomas next turns to questions about the relevancy of the church to the Millennial generation. Specifically: how will the African American church remain relevant to this generation which is so deeply concerned with social justice **The Great**

Sermon Tradition as a Fiscal Framework in 1 Corinthians Christopher L. Carter, 2010-02-03 What is Paul's theology of material possessions and where did it come from? Through demonstrating continuity in the broad fiscal thought of Jesus and Paul, Carter suggests that Paul owes his financial thought to the great sermon tradition. Carter establishes this by assessing Paul's historical environment and extant writings to display the plausibility that Paul knew the dominical tradition. Carter goes on to assess the likelihood that Paul knew the pre-synoptic sermon tradition because of its ubiquity in early church discipleship. The study finishes with the conclusion that Jesus and Paul's financial thought displays remarkable symmetry which cannot be explained merely by a common cultural environment. Consequently, it is deemed highly likely that Paul depends on the dominical tradition for the contours of his financial thought. Say It! Eric C. Redmond, 2020-02-04 Say It: A Celebration of Expository Preaching in the African American Tradition argues that Biblical Exposition is most dynamic when coupled with the African American preaching tradition. Charlie D. Romell, Williams George Parks Jr., Terry D. Streeter, and a cast of pastors and preaching professors collaborate to demonstrate the power of exposition in the cradle of the Black pulpit. The contributors in this volume give examples of African American Biblical exposition in every section of the Old Testament and New Testament. They also explain how to preach from narrative, poetical, prophetic, epistolary, and apocalyptic genres throughout the Scriptures. This important and powerful resource celebrates the faithful biblical preaching of African Americans that is so often overlooked because it's stylistically different than the style of most white preachers. Appropriate for training associate ministers or use as a textbook in homiletics, Say It! will give the preacher what is needed to speak to real life from every page of the Book. **Contemporary African American preaching P3040**, L. Susan Bond reveals the full range and diversity of African American preaching in this exploration of African American homiletical theories. Portraying the many approaches that are empowering preaching in African American churches today, Bond shows how different theological perspectives produce different methods of sermon preparation and delivery, different strategies for selecting illustrative material, and even different ways of beginning and ending sermons. Her goal is not to lift up the right way to preach in the African American tradition but to show the richness and nuance contained within this powerful cultural expression.

Preaching with Sacred Fire: An Anthology of African American Sermons, 1750 to the Present Martha Simmons, Frank A. Thomas, 2010-08-16 One hundred sermons that display the victorious although sometimes painful historical and spiritual pilgrimage of black people in America. A groundbreaking anthology, Preaching with Sacred Fire is a unique and powerful work. It captures the stunning diversity of the cultural and historical legacy of African American preaching more than three hundred years in the making. Each sermon, as editors Martha Simmons and Frank A. Thomas reveal, is a work of art and a lesson in unmatched rhetoric. The journey through this anthology, which includes selections from Jarena Lee, Frederick Douglass, Malcolm X, Martin Luther King Jr., Gardner C. Taylor, Vashti McKenzie, and many others, offers a rare view of the unheralded role of the African American preacher in American history. The collection provides new insights

into the underpinnings of the black fight for emancipation and the rise and growth of the Civil Rights and Black Power movements Sermons from the first decade of the twenty first century point toward the future of African American preaching Biographies of the preachers put their work in the cultural and homiletic context of their periods The preachers of these sermons are men and women from a range of faiths ancestries and educational backgrounds They draw on a vast and luminous landscape of poetic language using metaphor rhythm and imagery to communicate with their congregations What they all have in common is hope resilience and sacred fire Even during the most difficult and oppressive times Simmons and Thomas write in the preface the delivery creativity charisma expressivity fervor forcefulness passion persuasiveness poise power rhetoric spirit style and vision of black preaching gave and gives hope to a community under siege This magnificent work beautifully renders the complexity spiritual richness and strength of African American life The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson, 2018-10-17 The five volume Oxford History of Protestant Dissenting Traditions series is governed by a motif of migration out of England It first traces organized church traditions that arose in Britain and Ireland as Dissenters distanced themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and Royal Supremacy but then follows those traditions as they spread beyond Britain and Ireland and also analyses newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier British and Irish dissent but that have often defined a trajectory of influence independent of ecclesiastical organizations The Oxford History of Protestant Dissenting Traditions Volume V follows the spatial cultural and intellectual changes in dissenting identity and practice in the twentieth century as these once European traditions globalized While in Europe dissent was often against the religious state dissent in a globalizing world could redefine itself against colonialism or other secular and religious monopolies The contributors trace the encounters of dissenting Protestant traditions with modernity and globalization changing imperial politics challenges to biblical denominational and pastoral authority local cultures and languages and some of the century's major themes such as race and gender new technologies and organizational change In so doing they identify a vast array of local and globalizing illustrations which will enliven conversations about the role of religion and in particular Christianity
