Adventures of an Accidental Sociologist Peter L. Berger,2011-06-07 Peter L Berger is arguably the best known American sociologist living today Since the 1960s he has been publishing books on many facets of the American social scene and several are now considered classics So it may be hard to believe Professor Berger s description of himself as an accidental sociologist But that in fact accurately describes how he stumbled into sociology In this witty intellectually stimulating memoir Berger explains not only how he became a social scientist but the many adventures that this calling has led to Rather than writing an autobiography he focuses on the main intellectual issues that motivated his work and the various people and situations he encountered in the course of his career Full of memorable vignettes and colorful characters depicted in a lively narrative often laced with humor Berger s memoir conveys the excitement that a study of social life can bring The first part of the book describes Berger s initiation into sociology through the New School for Social Research a European enclave in the midst of Greenwich Village bohemia Berger was first a student at the New School and later a young professor amidst a clique of like minded individuals There he published The Social Construction of Reality with colleague Thomas Luckmann one of his most successful books followed by

The Sacred Canopy on the sociology of religion also still widely cited The book covers Berger's experience as a globe trekking sociologist including trips to Mexico where he studied approaches to Third World poverty to East Asia where he discovered the potential of capitalism to improve social conditions and to South Africa where he chaired an international study group on the future of post Apartheid society Berger then tells about his role as the director of a research center at Boston University For over two decades he and his colleagues have been tackling such important issues as globalization the secularization of Europe and the ongoing dialectic between relativism and fundamentalism in contemporary culture What comes across throughout is Berger's boundless curiosity with the many ways in which people interact in society This book offers longtime Berger readers as well as newcomers to sociology proof that the sociologist's attempt to explain the world is anything but boring

The Subversive Evangelical Peter J. Schuurman, 2019-06-30 Evangelicals have been scandalized by their association with Donald Trump their megachurches summarily dismissed as religious Walmarts In *The Subversive Evangelical* Peter Schuurman shows how a growing group of reflexive evangelicals use irony to critique their own tradition and distinguish themselves from the stereotype of right wing evangelicalism Entering the Meeting House an Ontario based Anabaptist megachurch as a participant observer Schuurman discovers that the marketing is clever and the venue a rented movie theatre is attractive to the more than five thousand weekly attendees But the heart of the church is its charismatic leader Bruxy Cavey whose anti religious teaching and ironic tattoos offer a fresh image for evangelicals This charisma Schuurman argues is not just the power of one individual it is a dramatic production in which Cavey his staff and attendees cooperate cultivating an identity as an irreligious megachurch and providing followers with a more culturally acceptable way to practise their faith in a secular age Going behind the scenes to small group meetings church dance parties and the homes of attendees to investigate what motivates these reflexive evangelicals Schuurman reveals a playful and provocative counterculture that distances itself from prevailing stereotypes while still embracing a conservative Christian faith

Inerrancy and the Spiritual Formation of Younger Evangelicals Carlos R. Bovell, 2007-03-01 In *Inerrancy and the Spiritual Formation of Younger Evangelicals* readers are urged to consider their pastoral responsibilities toward students Evangelical leaders and teachers in particular should be more sensitive to the fact that not all younger evangelicals are convinced of the Bible's inerrancy Some are earnestly searching for an orthodox alternative but in the process becoming spiritually unravelled As responsible

shepherds of God's people evangelical leaders must better understand the negative effect of presenting inerrancy as a doctrine crucial for faith *The Anthem Companion to Peter Berger* Jonathan B. Imber, 2023-01-10 Peter L. Berger 1929-2017 was among the most prominent sociologists of the past half century. He co-authored with Thomas Luckmann *The Social Construction of Reality*, considered to be a modern classic of social science. His work on social theory, the sociology of religion, third world development, and the role of capitalism in modern life define his enduring importance as a leading figure in social science. Berger established an international reputation for his various studies of economic development in different parts of the world, including Central America and South Africa **Order and Agency in Modernity** Kwang-ki Kim, 2012-02-01 In this unique analysis of three prominent theorists of modern sociology, theory is understood as implicitly but importantly reflecting especially modern problems of individual and social life. From the grand theoretical systems of Talcott Parsons to the unique symbolic interactionism of Erving Goffman and the radically mundane ethnomethodology of Harold Garfinkel, a wide variety of noted sociological theories have addressed central issues of sociology against the backdrop of modern society. When this modern backdrop is brought into the foreground of analysis, sociological theories assume new depth and breadth and new historical significance. The author outlines features of the modern experience, drawing upon neglected cultural theorists of modernity, and then shows how these features of modernity are reflected and incorporated in the scholarship of Parsons, Goffman, and Garfinkel. The result is an original and eclectic analysis that illuminates previously overlooked dimensions to modern sociological theory and suggests new possibilities for meaningful and rewarding comparisons between theoretical traditions **Peter Berger and the Study of Religion** Paul Heelas, David Martin, Linda Woodhead, 2013-07-04 Peter Berger is the most influential contemporary sociologist of religion. This collection of essays is the first in-depth study of his contribution to the field, providing a comprehensive introduction to his work and to current thought in the study of religion. Themes addressed include Berger on religion and theology, religion, spirituality, and the discontents of modernity, secularization, and de secularization. A postscript by Peter Berger responding to the essays completes this overview of this major figure's work Jacques Ellul and the Technological Society in the 21st Century Helena M. Jerónimo, José Luis García, Carl Mitcham, 2013-07-08 This volume rethinks the work of Jacques Ellul (1912-1994) on the centenary of his birth by presenting an overview of the current debates based on Ellul's insights. As one of the most significant twentieth-century thinkers about technology, Ellul was among the first thinkers to realize the importance of topics such as globalization, terrorism, communication technologies, and ecology, and study them from a technological perspective. The book is divided into three sections. The first discusses Ellul's diagnosis of modern society and addresses the reception of his work on the technological society, the notion of efficiency, the process of symbolization, de symbolization, and ecology. The second analyzes communicational and cultural problems as well as threats and trends in early twenty-first-century societies. Many of the issues Ellul saw as crucial, such as energy, propaganda, applied life sciences, and communication, continue to be so. In fact, they

have grown exponentially on a global scale producing new forms of risk Essays in the final section examine the duality of reason and revelation They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge which is to say on the one hand the experience of the human being as contained in the rationalist sociological and philosophical traditions On the other hand there are the transcendent roots of human existence as well as revealed knowledge in the mystical and religious traditions The meeting of these two traditions enables us to look at Ellul's work as a whole but above all it opens up a space for examining religious life in the technological society **No Place for Truth**

David F. Wells, 1994-12-20 Has something indeed happened to evangelical theology and to evangelical churches According to David Wells the evidence indicates that evangelical pastors have abandoned their traditional role as ministers of the Word to become therapists and managers of the small enterprises we call churches Along with their parishioners they have abandoned genuine Christianity and biblical truth in favor of the sort of inner directed experiential religion that now pervades Western society Specifically Wells explores the wholesale disappearance of theology in the church the academy and modern culture Western culture as a whole argues Wells has been transformed by modernity and the church has simply gone with the flow The new environment in which we live with its huge cities triumphant capitalism invasive technology and pervasive amusements has vanquished and homogenized the entire world While the modern world has produced astonishing abundance it has also taken a toll on the human spirit emptying it of enduring meaning and morality Seeking respite from the acids of modernity people today have increasingly turned to religions and therapies centered on the self And whether consciously or not evangelicals have taken the same path refashioning their faith into a religion of the self They have been coopted by modernity have sold their soul for a mess of pottage According to Wells they have lost the truth that God stands outside all human experience that he still summons sinners to repentance and belief regardless of their self image and that he calls his church to stand fast in his truth against the blandishments of a godless world The first of three volumes meant to encourage renewal in evangelical theology the other two to be written by Cornelius Plantinga Jr and Mark Noll **No Place for Truth** is a contemporary jeremiad a clarion call to all evangelicals to note well what a pass they have come to in capitulating to modernity what a risk they are running by abandoning historic orthodoxy It is provocative reading for scholars ministers seminary students and all theologically concerned individuals **Marginality and Dissent in Twentieth-Century American**

Sociology John F. Galliher, James M. Galliher, 1995-07-01 This book is a biography of the husband and wife team that is largely responsible for developing social problems and social deviance as areas of research Politics in the discipline of sociology is also examined **Stand-up Comedy, Theology, and Ethics** Jacob D. Myers, Nicole Graham, 2025-09-04 Bringing together the distinct but connected disciplines of theology and ethics Stand up Comedy Theology and Ethics adds to the growing field of humor and religion Beginning by re considering what we know about jokes and laughter the authors propose that more attention needs to be paid to the quasi sacramental magical quality of jokes and the ways laughter can

shift the affective states of an audience They then turn their attention to key issues and debates within stand up comedy First is the comical legitimacy or illegitimacy of comedians who employ humor ambiguously so that we are not sure at who or what they are punching Second is the phenomenon of canceling comedians for their behavior off stage Third is the sociopolitical possibilities of stand up Ultimately the authors argue that there is theological religious and ethical significance to contemporary stand up comedy

Drawn to the Gods David Feltmate, 2017-04-11 A new world of religious satire illuminated through the layers of religion and humor that make up the The Simpsons South Park and Family Guy Drawing on the worldviews put forth by three wildly popular animated shows The Simpsons South Park and Family Guy David Feltmate demonstrates how ideas about religion's proper place in American society are communicated through comedy The book includes discussion of a wide range of American religions including Protestant and Catholic Christianity Judaism Islam Buddhism Native American Religions New Religious Movements Spirituality Hinduism and Atheism Along the way readers are shown that jokes about religion are influential tools for teaching viewers how to interpret and judge religious people and institutions Feltmate develops a picture of how each show understands and communicates what constitutes good religious practice as well as which traditions they seek to exclude on the basis of race and ethnicity stupidity or danger From Homer Simpson's spiritual journey during a chili pepper induced hallucination to South Park's boxing match between Jesus and Satan to Peter Griffin's worship of the Fonz each show uses humor to convey a broader commentary about the role of religion in public life Through this examination an understanding of
