**Memory and Identity in the Narratives of Soledad Puértolas** Tamara L. Townsend, 2014-09-09 Narratives of contemporary Spanish writer Soledad Puértolas 1947 inducted into the Real Academia Española in 2010 depict the psychological struggles of the individual in postmodern democratic European society Puértolas s realist style emphasizes storytelling and character portrayal and her urban middle class characters seek satisfying interactions with others and a sense of purpose Memory aids characters in their quest for meaning and identity and their use of memory reveals their self perception and outlook on life This book maps four ways in which Puértolas s narratives use memory to approach the fundamental problem of the individual s search for purpose and identity Some characters are burdened by memory in certain texts especially Días del Arenal 1992 and Burdeos 1986 Reflection upon a painful self defining memory affects their present mood and behavior For some this burden causes them to withdraw or to act irresponsibly others accept and overcome the scars of the past A second type of character takes an escapist approach to memory as seen in Queda la noche 1989 Their nostalgic retreat indicates a restless dissatisfaction with the present In a third type of memory a secondary character provides the organizing force behind a protagonist s reminiscences often an extroverted foil to highlight the protagonist s introspective nature Memory of the relationship motivates the protagonist to mentally order his or her own life through the life review process Una vida inesperada 1997 and La se ora Berg 1998 provide

examples Finally in the amnesic mode Pu rtolas departs from realism to experiment with different forms of amnesia as in La rosa de plata 1999 and Si al atardecer llegara el mensajero 1995 Memory loss highlights the centrality of memory to personhood and identity while at the same time it draws attention to the inadequacy of memory to explain the totality of existence
