**Historic Avant-Garde Work on Paper** Sascha

Bru,2024-03-13 This book examines the many functions of paper in the fine art and aesthetics of the early twentieth century modernist or historic avant garde Expressionism Cubism Futurism Dadaism Surrealism Constructivism and many more With its many collages and photomontages the historic avant garde is generally considered to have transformed paper from a mere support into an artistic medium and to have assisted in art on paper gaining a firm autonomy Bringing together an international team of scholars this book shows that the story of paper in the avant garde has thereby hardly been told The first section looks at a selection of canonized individual avant gardists work on paper to demonstrate that the material and formal analysis of paper in the avant garde s artistic production still holds much in store In the second section chapters zoom in on forms and formats of collective artistic production that deployed paper to move around reproductions of fine art works to facilitate the dialogue between avant gardists to better promote their work among patrons and to make their work available to a wider audience Chapters in the third section lay bare how certain groups within the avant garde began to massively create monochrome works because these could be easily reproduced when transferred to or reproduced as linocuts In the last section of the book chapters explore how the avant garde s attentiveness to paper almost always also implied a critique of the ways in which paper and all that it stood for was treated and labored in European culture and society more broadly The book will be of interest to scholars working in art history modernism and design

**Beautiful Circuits** Mark

Goble,2010-11-02 Considering texts by Henry James Gertrude Stein James Weldon Johnson F Scott Fitzgerald Ralph Ellison Richard Wright James Agee and William Carlos Williams alongside film painting music and popular culture Mark Goble explores the development of American modernism as it was shaped by its response to technology and an attempt to change how literature itself could communicate Goble s original readings reinterpret the aesthetics of modernism in the early twentieth century when new modes of communication made the experience of technology an occasion for profound experimentation and reflection He follows the assimilation of such old media technologies as the telegraph telephone and phonograph and their role in inspiring fantasies of connection which informed a commitment to the materiality of artistic mediums Describing how relationships made possible by technology became more powerfully experienced with technology Goble explores a modernist fetish for media that shows no signs of abating The mediated life puts technology into

communication with a series of shifts in how Americans conceive the mechanics and meanings of their connections to one another and therefore to the world and to their own modernity *American Dreams* Williams College. Museum of Art, 2001 Williams College in Williamstown MA has collected art since the mid 19th century In this chronological journey through American art in all media each of 56 highlighted objects from the museum receives a mini essay of several hundred words signed by contributors who frequently are the acknowledged experts on particular artists or works A full factual entry on each work appears at the back of the book preceded by extremely brief summaries of the acquisitions histories of the overall collection s painting drawing sculpture Williams portraits prints photographs posters and decorative arts College alumni donated many items including collections on Rube Goldberg Thomas Nast and the Prendergasts This is not the definitive book on American art but it is an excellent survey with many interesting objects not commonly reproduced For art history collections 64 colour 65 b w illustrations **Frames of Reference** Whitney Museum of American Art, Adam D. Weinberg, Kennedy Fraser, 1999-01-01 A survey of the best of American art tours the hallowed halls of the Whitney Museum presenting the works of Edward Hopper Ben Shahn and George Bellows with essays by John Updike George Plimpton Alan Dershowitz and others **Chimneys and Towers** Betsy Fahlman, Claire Barry, Charles Demuth, 2007-09-05 Chimneys and Towers focuses on Demuth s late paintings of industrial sites in Lancaster Depicting the warehouses and factories of the city s tobacco and linoleum industries in sharp geometric forms these paintings bring to the depiction of his hometown the style of the American avant garde that he helped create *A Transatlantic Avant-garde* Sophie Lévy, Christian Derouet, 2003 Catalog of an exhibition held at Musée d Art Américain Giverny France Aug 31 Nov 30 2003 Tacoma Art Museum Tacoma Wash Dec 18 2003 Mar 28 2004 and Terra Museum of American Art Chicago April 17 June 27 2004 **Art and the Crisis of Marriage** Vivien Green Fryd, 2003 Between the two world wars middle class America experienced a marriage crisis that filled the pages of the popular press Divorce rates were rising birthrates falling and women were entering the increasingly industrialized and urbanized workforce in larger numbers than ever before while Victorian morals and manners began to break down in the wake of the first sexual revolution Vivien Green Fryd argues that this crisis played a crucial role in the lives and works of two of America s most familiar and beloved artists Georgia O Keeffe 1887 1986 and Edward Hopper 1882 1967 Combining biographical study of their marriages with formal and iconographical analysis of their works Fryd shows how both artists expressed the pleasures and perils of their relationships in their paintings Hopper s many representations of Victorian homes in sunny tranquil landscapes for instance take on new meanings when viewed in the context of the artist s own tumultuous marriage with Jo and the widespread middle class fears that the new urban multidwelling homes would contribute to the breakdown of the family Fryd also persuasively interprets the many paintings of skulls and crosses that O Keeffe produced in New Mexico as embodying themes of death and rebirth in response to her husband Alfred Stieglitz s long term affair with Dorothy Norman Art and the Crisis of Marriage provides both a penetrating reappraisal of the

interconnections between Georgia O Keeffe s and Edward Hopper s lives and works as well as a vivid portrait of how new understandings of family gender and sexuality transformed American society between the wars in ways that continue to shape it today Fantasies of Precision Ashley Lazevnick,2023-07-11 Redefining the artistic movement that helped shape American modernism In the early decades of the twentieth century a loose contingent of artists working in and around New York City gave rise to the aesthetic movement known as precisionism primarily remembered for its exacting depictions of skyscrapers factories machine parts and other symbols of a burgeoning modernity Although often regarded as a singular group these artists were remarkably varied in their subject matter and stylistic traits Fantasies of Precision excavates the surprising ties that connected them exploring notions of precision across philosophy technology medicine and many other fields Bookended by discussions of the landmark First Biennial Exhibition of Painting at the Whitney Museum in 1932 this study weaves together a series of interconnected chapters illuminating the careers of Charles Sheeler Georgia O Keeffe and Charles Demuth Built on a theoretical framework of the writing of modernist poets Marianne Moore and William Carlos Williams Fantasies of Precision outlines an ethos of precision that runs through the diverse practices of these artists articulating how the broad range of enigmatic imagery they produced was underpinned by shared strategies of restraint humility and slowness Questioning straightforward modes of art historical classification Ashley Lazevnick redefines the concept that designated the precisionist movement Through its cross disciplinary approach and unique blend of historiography and fantasy Fantasies of Precision offers a comprehensive reevaluation of one of the defining movements of artistic modernism After-Images of the City Joan Ramon Resina,Dieter Ingenschay,2018-08-06 Criticism on the textual and iconographic construction of the city is extensive yet the problem of historical change in representations of the urban has received little attention Believing traditional accounts are limited by their reflection of a specific historical moment Joan Ramon Resina and Dieter Ingenschay focus by contrast on transition In essays written for this volume scholars of literary and visual studies the history of architecture cultural theory and urban geography explore the ways perceptual or conceptual paradigms of the city supersede or replace others while at the same time retaining the after image of what went before The writers touch on a wide variety of issues related to contemporary urban cultures as they journey through cities including New York Barcelona Madrid Paris Tijuana Berlin and London Drawing on the work of Roland Barthes Walter Benjamin Camilo Jos Cela Honor de Balzac and Alfred Stieglitz their approach is broadly cultural rather than technical After Images of the City takes into account the intrinsic instability of the image and reveals that representations of the modern metropolis cannot be fixed in time and history Conversion to Modernism Francis M. Naumann,Man Ray,2003 Man Ray 1890 1976 has long been considered one of the most versatile and innovative artists of the twentieth century As a painter writer sculptor photographer and filmmaker he is best known for his intimate association with the French Surrealist group in Paris during the 1920s and 1930s particularly for his highly inventive and unconventional photographic images These remarkable

accomplishments however have tended to overshadow the importance of his earlier work significant not only for comprehending Man Ray's future artistic development but also for fleshing out our understanding of the visual arts in America during one of the most important and crucial phases of the evolution of modernism. The book and the exhibition for which this work will serve as the catalog concentrate on Man Ray's production from 1907 to 1917. Conversion to Modernism will be the first comprehensive fully illustrated work to examine this artist's seminal years. The show and the catalog begin with Man Ray's high school years in Brooklyn, his studies at the Art Students League and the American Academy in New York and the time he spent in life drawing classes at the more progressive Ferrer Center. From 1913 to 1915 Man Ray lived in a small artists colony in Grantwood, New Jersey. It was here studying with Samuel Halpert, a former student of Matisse, that Man Ray began to become the artist we know today. The last section of the show and of the book includes recently discovered photographs and other works that are influenced by a knowledge of the emergent Dada movement. Here is Man Ray in recognizable form just before he leaves the country for France in 1921. This exhibit will first be on display at the Montclair Art Museum from January 26 through March 2003. It will then travel to museums in Athens, Georgia, Philadelphia, and Chicago.

**Grabadores contra el franquismo** Noemi de Haro García, 2010. Nos encontramos ante la primera obra que analiza tras una investigación rigurosa, documentada y profunda el conjunto de agrupaciones que conformaron la Estampa Popular, movimiento de vanguardia con claros objetivos políticos y sociales y que utilizaba el realismo social y el grabado para acercar su obra al pueblo con una temática dedicada al mundo del trabajo y a la lucha antifranquista. Esta lucha fue realizada no desde el exilio como había sucedido hasta entonces sino desde el interior del país, siendo Madrid, Andalucía, Vizcaya, Cataluña y Valencia los escenarios de su nacimiento y también de su desaparición.
