Differential Diagnosis and Treatment in Social Work Francis Joseph Turner, 1983 **Crossing the Soul's River** William O. Roberts, 2009-10-01 Moving articulate and insightful this book is a welcome exploration of men's spiritual journey at midlife Written by an author with his own extraordinary middle passage the book provides practical insights for men while offering women an invaluable window into men's souls Allan Chinen author of *Beyond the Hero Classic Stories of Men in Search of Soul* Lively and unembarrassed written with great psychological acumen *Crossing the Soul's River* is a major contribution to our understanding of men at midlife This is the conversation men need to have with another man when their familiar old assumptions and priorities no longer make sense Give it to a man you really care about Give it to a woman who wants to know men at the core Stephen Bank coauthor of *The Sibling Bond* *Crossing the Soul's River* is one of the second generation of men's books that are trying to chart concrete steps men can take to do the work we need to do to become more self actualized and therefore more responsible partners citizens and churchmen Roberts's articulation of men's needs for the wisdom of Sophia is the clearest I have ever read Stephen Boyd author of *The Men We Long to Be Beyond Lonely Warriors and Desperate Lovers* William O Roberts's compelling book puts the male midlife crisis into its deepest context the growth of

ourselves as spiritual beings In so doing it moves well beyond treatments which focus solely on the psychological dimension of this process though Roberts details these too with a sharp insightful eye honed by his own personal experience Most helpful is his detailing of various rites of passage designed to help men navigate through this difficult time In this the book is of practical as well as intellectual use I found the book deeply insightful and altogether illuminating Brian Fay author of Contemporary Philosophy of Social Science A Multicultural Approach Themes of Work and Love in Adulthood Neil J. Smelser,Erik Homburger Erikson,1980 Revised papers from a conference under the auspices of the Western Center of the American Academy of Arts and Sciences which was held May 8 9 1977 at the Center for Advanced Study of the Behavioral Sciences in Palo Alto California **Christian Formation** James R. Estep,Jonathan H. Kim,2010-05-01 For Christian education professors and students Christian Formation provides a composite view of human development and learning from integrated theory theology and educational practices in the church By design the book integrates these elements into a cohesive foundational piece for Christian education Contributors include James Estep Christian Anthropology Humanity as the Imago Dei Developmental Theories Foe Friend or Folly Moral Development and Christian Formation Jonathan Kim Intellectual Development and Christian Formation Psychological Development and Christian Formation Cultural Development and Christian Formation Timothy Jones and Michael Wilder Faith Development and Christian Formation Greg Carlson Adult Development and Christian Formation Mark Maddix Spiritual Formation and Christian Formation **Life-span Development** Leonie Sugarman,2004-03-01 This thorough revision of the highly successful first edition of Life Span Development offers the reader a wide ranging and thought provoking account of human development throughout the lifespan The lifespan approach emphasises that development does not stop when we cease to be adolescents but goes on throughout adulthood and into old age In initial chapters Leonie Sugarman outlines the issues surrounding the notion of development and how it can be studied including reviews of the work of key theorists Erikson Levinson and Gould She goes on to consider the different ways in which the life course can be construed as a series of age related stages as a cumulative sequence as a series of developmental tasks as a series of key life events and transitions or as a narrative construction which creates a sense of dynamic continuity A final chapter looks at how people cope the resources that are available and the theoretical and practical issues regarding interventions to assist them in the process New to this edition is increased coverage of the topical issue of successful ageing and a new chapter on the increasingly popular narrative approach to lifespan development This edition is also more student friendly with exercises in self reflection that encourage the reader to look at the development of their own lives or those of their current or future clients Boxed material highlighting major theories and clarifying concepts is also included This book will be invaluable for students of developmental and occupational psychology and professionals in the fields of health management education and social work Sexuality in the Later Years Ruth B. Weg,2013-09-24 Sexuality in the Later Years Roles and Behavior pulls together evidence from the anthropological psychological social and

physiological disciplines and represents an effort to present a coherent picture of sexual roles and behavior in the later years. This work does not pretend to answer all questions that could be raised concerning sexuality and aging but attempts rather to concentrate on issues that have been relatively neglected: primarily options, potentials and possibilities for the individualization and humanization of sex roles and sexual behavior of older persons. The book is organized into five parts. Part I examines concepts of sexuality in the later years including cultural attitudes and behaviors towards sexuality, psychological and sociological perspectives and a life span model of sex role development. Part II on life styles deals with the impact of aging on the sexuality of those who are unmarried in later life, the relationship between interpersonal intimacy and adaptation to stress throughout adult life and the range of sexual orientations in the later years along with their incidence, their contributions to social adaptation and the particular constraints surrounding them. Part III discusses issues in research and therapy while Part IV considers views of sexuality and aging in other countries, namely Canada and Sweden. Part V inquires into the problems associated with transitions in the later part of the life cycle of love.
