**Seasoned Socialism** Anastasia Lakhtikova, Angela Brintlinger, Irina Glushchenko, 2019-04-04 This essay anthology explores the intersection of gender food and culture in post 1960s Soviet life from personal cookbooks to gulag survival Seasoned Socialism considers the relationship between gender and food in late Soviet daily life specifically between 1964 and 1985 Political and economic conditions heavily influenced Soviet life and foodways during this period and an exploration of Soviet women s central role in the daily sustenance for their families as well as the obstacles they faced on this quest offers new insights into intergenerational and inter gender power dynamics of that time Seasoned Socialism considers gender construction and performance across a wide array of primary sources including poetry fiction film women s journals oral histories and interviews This collection provides fresh insight into how the Soviet government sought to influence both what citizens ate and how they thought about food

**Multiple Moralities and Religions in Post-Soviet Russia** Jarrett Zigon, 2011-09-01 In the post Soviet period morality became a debatable concept open to a multitude of expressions and performances From Russian Orthodoxy to Islam from shamanism to Protestantism religions of various kinds provided some of the first possible alternative moral discourses and practices after the end of the Soviet system This influence remains strong today Within the Russian context religion and morality intersect in such social domains as the relief of social suffering the interpretation of history the construction and reconstruction of traditions individual and social health and business practices The influence of religion is also apparent in the way in which the Russian Orthodox Church increasingly acts as the moral voice of the government The wide ranging topics in this ethnographically based volume show the broad religious influence on both discursive and everyday moralities The contributors reveal that although religion is a significant aspect of the various assemblages of morality much like in other parts of the world religion in postsocialist Russia cannot be separated from the political or economic or transnational institutional aspects of morality
