Preface To Plato:

Preface to Plato Eric A. Havelock, 1963 Plato's frontal attack on poetry has always been a problem for sympathetic students who have often minimized or avoided it. Beginning with the premise that the attack must be taken seriously, Eric Havelock shows that Plato's hostility is explained by the continued domination of the poetic tradition in contemporary Greek thought. The reason for the dominance of this tradition was technological. In a nonliterate culture, stored experience necessary to cultural stability had to be preserved as poetry in order to be memorized. Plato attacks poets, particularly Homer, as the sole source of Greek moral and technical instruction. Mr. Havelock shows how the Iliad acted as an oral encyclopedia. Under the label of mimesis, Plato condemns the poetic process of emotional identification and the necessity of presenting content as a series of specific images in a continued narrative. The second part of the book discusses the Platonic Forms as an aspect of an increasingly rational culture. Literate Greece demanded instead of poetic discourse a vocabulary and a sentence structure both abstract and explicit in which experience could be described normatively and analytically in short a language of ethics and science.

Preface to Plato Eric A. HAVELOCK, 1963 Preface to Plato Eric Alfred Havelock, 1967 **Preface to Plato** Eric A. Havelock, 1994 **Preface to Plato** Erica Havelock, 1982 **Preface to Plato (Eric A. Havelock, Belknap Press, Harvard, 1963)** Charles Olson, 1964 **Rhetoric and Irony** C. Jan Swearingen, 1991-09-05 This pathbreaking study integrates the histories of rhetoric, literacy, and literary aesthetics up to the time of Augustine, focusing on Western concepts of rhetoric as dissembling and of language as deceptive that Swearingen argues have received curiously prominent emphasis in Western aesthetics and language theory. Swearingen reverses the traditional focus on rhetoric as an oral agonistic genre and examines it instead as a paradigm for literate discourse. She proposes that rhetoric and literacy have in the West disseminated the interrelated notions that through learning rhetoric, individuals can learn to manipulate language and others that language is an unreliable, manipulable, and contingent vehicle of thought, meaning, and communication, and that literature is a body of pretty lies and beguiling fictions. In a bold concluding chapter, Swearingen aligns her thesis concerning early Western literacy and rhetoric with contemporary critical and rhetorical theory, with feminist studies in language, psychology, and culture, and with studies of literacy in multi- and cross-cultural settings.

Comparative Criticism: Volume 5, Hermeneutic Criticism E. S. Shaffer, 1986-04-17 Addresses literary theory and criticism, comparative studies in terms of theme, genre, movement, and influence, and interdisciplinary perspectives.

Oral Tradition and the Gospels Barry Henaut, 1993-01-05 The problem of oral tradition is well known, for without some theory of this medium, no history of Jesus would be possible. This study examines Mark 4:1-34 in the light of three distinctive models of orality: Rudolf Bultmann's form-critical method, B. Gerhardsson's Memory and Manuscript theory, and the recent contribution of W. Kelber. The form critically separates units in the text; allegory, parables, and aphorisms are examined on the basis of their attestation in various documents. Mark Q. Thomas to determine whether independent versions of these sayings can be identified and what they tell

us about the oral phase and Jesus This analysis suggests that the criteria for authenticity of distinctiveness and multiple attestation need to be re examined in light of the folkloric understanding of orality

Five Paradigms for Education T. Newell, 2014-11-20 Newell compares the fundamental assumptions of five major worldviews of education and their implications for classroom practice incorporating history and case studies and posing questions about the limits and benefits of employing each today

The Greek Concept of Justice Eric Alfred Havelock, 1978 In this book Eric Havelock presents a challenging account of the development of the idea of justice in early Greece and particularly of the way justice changed as Greek oral tradition gradually gave way to the written word in a literate society He begins by examining the educational functions of poets in preliterate Greece showing how they conserved and transmitted the traditions of society a thesis adumbrated in his earlier book *Preface to Plato* Homer he demonstrates has much to say about justice but since that idea is nowhere in the epics directly stated or expressed it must be deduced from the speech and actions of the characters Havelock's careful reading of the *Iliad* and the *Odyssey* is original and revealing it sheds light both on Homeric notions of justice and on the Archaic Greek society depicted in the poems As Havelock continues his inquiry from Hesiod to Aeschylus his findings become more complex The oral Greek world shades into a literate one Words lose some kinds of meanings gain others and steadily become more suited to the conceptualization that Plato strove for and achieved This evolution of language itself Havelock shows was one of the principal accomplishments of the Greek world Lucidly written and forcefully argued this book is a major contribution to our knowledge of ancient Greece its politics philosophy and literature from Homer to Plato
