Controversies in Diabetes and Pregnancy Lois

Jovanovic,2012-12-06 As I read this unique volume on diabetes and pregnancy edited by Lois Jovanovic I was struck by two themes that run throughout these collected chapters First this volume provides an excellent assessment of past problems present management and future challenges presented by diabetes in pregnancy Orury's unique longitudinal experience with diabetes in pregnancy provides the reader with an important overview as does Coetzee's discussion of gestational diabetes Current problems determining the etiology and prevention of congenital malformations in infants of diabetic mothers 10M assessment of antepartum fetal condition management of pregnant patients with diabetic retinopathy recognition of thyroid dysfunction in the pregnant diabetic woman and understanding the multitude of metabolic sequelae observed in the 10M are thoroughly reviewed Finally important considerations for future treatment and therapy such as the adaptation of the fetal pancreas to the disordered intra uterine environment often seen in maternal diabetes the use of fetal pancreatic tissue for transplantation the application of exercise in the management of the pregnant woman with diabetes and the long term consequences for the 10M provide an exciting glimpse into the future The second important theme that emerges is the critical role the problem of diabetes in pregnancy has played in our understanding of maternal and fetal physiology Clinical

observations supported by basic research have emphasized the role of fetal fuels in teratogenesis Diabetes in Pregnancy J. should be counselled before pregnancy about the implications of pregnancy and given particular support to optimise blood glucose control and the management of related medical complications when trying to conceive Women with either pre existing diabetes or GDM require multidisciplinary care during the pregnancy All women with GDM should be offered annual screening for diabetes to identify the development of type 2 diabetes after pregnancy
