theology brings to the experiences of pregnancy as well as the situations of oppression and underrepresentation that currently exist. Allowing for intersections of race, parenting, childlessness, and disability, this book approaches pregnancy from different theological perspectives in order to complexify the theological response and engagement as well as produce constructive resources for both the academy and the church. Bergmann, 2009-03-13. Crises and catastrophes of all kinds have always confronted humans with great challenges. The present study examines the question of how literary texts process and deal with these challenges through the imaginary world of metaphors. It concentrates on the metaphor of childbirth, which compares people racked with crisis to women in labour, and sometimes vice versa. The texts examined are taken from the Ancient Orient and the Old Testament, together with a text exemplar from the Qumran corpus which takes up the metaphor of childbirth and develops it further.
