EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels The Ancient Maya Marketplace Eleanor M. King,2015-11-12 Trading was the favorite occupation of the Maya according to early Spanish observers such as Fray Diego de Landa 1566 Yet scholars of the Maya have long dismissed trade specifically market exchange as unimportant They argue that the Maya subsisted primarily on agriculture with long distance trade playing a minor role in a largely non commercialized economy The Ancient Maya Marketplace reviews the debate on Maya markets and offers compelling new evidence for the existence and identification of ancient marketplaces in the Maya Lowlands Its authors rethink the prevailing views about Maya economic organization and offer new perspectives They attribute the dearth of Maya market research to two factors persistent assumptions that Maya society and its rainforest environment lacked complexity and an absence of physical evidence for marketplaces a problem that plagues market research around the world Many Mayanists now agree that no site was self sufficient and that from the earliest times robust local and regional exchange existed alongside long distance trade Contributors to this volume suggest that marketplaces the physical spaces signifying the presence of a market economy did not exist for purely economic reasons but served to exchange information and create social ties as well The Ancient Maya Marketplace offers concrete links between Maya archaeology ethnohistory and contemporary cultures Its in depth review of current research will help future investigators to recognize and document marketplaces as a long standing Maya cultural practice The volume also provides detailed comparative data for premodern societies elsewhere in the world Perspectives on Ancient Maya Rural Complexity Samuel V. Connell,Gyles Iannone,2003-12-01 Settlement archaeology in the Maya area has focused much of its attention on the polar extremes of the settlement continuum As a result of this urban rural bias a whole range of complex rural settlements remain under explored The chapters in this volume highlight the variable quality of these middle level settlements Historical Dictionary of Mesoamerica Walter R. T. Witschey,Clifford T. Brown,2012 Mesoamerica is one of six major areas of the world where humans independently changed their culture from a nomadic hunter gatherer lifestyle into settled communities cities and civilization In addition to China twice the Indus Valley the Fertile Crescent of southwest Asia Egypt and Peru Mesoamerica was home to exciting and irreversible changes in human culture called the Neolithic Revolution The changes included domestication of plants and animals leading to agriculture husbandry and eventually sedentary village life These developments set the stage for the growth of cities social stratification craft specialization warfare writing mathematics and astronomy or what we call the rise of civilization These changes forever transformed humankind The Historical Dictionary of

Ancient Mesoamerican Warfare Kathryn M. Brown, Travis W. Stanton, 2003-10-07 The understanding of warfare in ancient Mesoamerica has blossomed in recent years In this volume the authors use recent empirical studies to help us understand the patterns and nature of Mesoamerican warfare Using evidence from ceramics settlement pattern epigraphy ethnohistory and ethnography these projects define the martial nature of Mesoamerican societies and link it to ritual political economy and other cultural systems The studies range from preclassic to post contact and from Belize to Central Mexico A comparison between this corpus and warfare studies in the American Southwest is also included This volume will be of interest to Mesoamericanists and other archaeologists anthropologists and historians of ancient warfare **The**

Reagan, 2004-09-22 This text

provides a brief yet comprehensive overview of a number of non Western approaches to educational thought and practice Its premise is that understanding the ways that other people educate their children as well as what counts for them as education may help us think more clearly about some of our own assumptions and values and to become more open to alternative viewpoints about important educational matters The value of this informative mind opening text for preservice and in service teacher education courses is enhanced by Questions for Discussion and Reflection and Recommended Further Readings

included in each chapter New in the Third Edition Chapter 2 Conceptualizing Culture I We and The Other is new to this edition It is a response to feedback about the problems inherent in our general discourse about culture and in addition provides an example of a culture that is near to us but nevertheless alien the culture of the Deaf World Chapter 9 which deals with Islam and traditional Muslim education has been substantially revised The subtitle of the Third Edition has been changed to Indigenous Approaches to Educational Thought and Practice reflecting not so much a change in the emphases found in the book but rather a recognition of the growing scholarly interest in indigenous peoples their languages cultures and histories Various points throughout the text have been expanded and clarified and chapters have been updated as needed
