Archeology in Cultural Systems Lewis R. Binford,2017-07-05 Archeology shares with other anthropological sciences the goal of explaining differences and similarities among cultural systems Sally R Binford and Lewis R Binford therefore are concerned with theory and arguments which treat problems of the interrelationship of cultural variables with explanatory value Archeology in Cultural Systems is devoted to four different aspects of archeology This book progresses from theoretical methodological discussions to specific consideration of archeological materials It focuses on the analysis of archeological remains from a single site Its concern is primarily with recognizing measuring and explaining variability in the form and distribution of a site s cultural remains The authors argue that internal variability derives from the composition and distribution of societal segments represented at the site The work then shifts to study of archeological components or their attributes and seeks explanations for observed differences and similarities A final section of the volume comments and discusses materials in the volume Archeology in Cultural Systems is not a monolithic presentation of any particular school of archeological thought There are common interests and many points of agreement among the authors but there is also diversity of opinion on several points These points are the focus of research here *Depositional History of Franchthi Cave* William R. Farrand,2018-10-26 This fascicle describes the background of the Franchthi project and its excavation history and methodology Particle size mineralogy and chemistry are all taken into consideration as the cultural remains and the sediments from the cave are analyzed to determine their origin and history William Farrand constructs an integrated stratigraphy for the entire cave using excavators notes laboratory analyses and personal field data to correlate sequences in separate trenches On the basis of some 60 radiocarbon dates the evolution and chronology of the sedimentary fill is postulated

The Agricultural Revolution in Prehistory Graeme Barker,2009 Addressing one of the most debated revolutions in the history of our species the change from hunting and gathering to farming this title takes a global view and integrates an array of information from archaeology and many other disciplines including anthropology botany climatology genetics linguistics and zoology The Origins of Agriculture C. Wesley Cowan,Nancy L. Benco,Patty Jo Watson,2006-05-18 The eight case studies in this book each a synthesis of available knowledge about the origins of agriculture in a specific region of the globe enable scholars in diverse disciplines to examine humanity s transition to agricultural societies

Contributors include Gary W Crawford Robin W Dennell and Jack R Harlan **Ancient Irrigation Systems of the Aral Sea Area** Boris V. Andrianov,2013-12-31 Ancient Irrigation Systems in the Aral Sea Area is the English translation of Boris

Vasilevich Andrianov's work *Drevnie orositelnye sistemy priaralya* concerning the study of ancient irrigation systems and the settlement pattern in the historical region of Khorezm south of the Aral Sea, Uzbekistan. This work holds a special place within the Soviet archaeological school because of the results obtained through a multidisciplinary approach combining aerial survey and fieldwork surveys and excavations. This translation has been enriched by the addition of introductions written by several eminent scholars from the region regarding the importance of the Khorezm Archaeological Ethnographic Expedition and the figure of Boris V Andrianov and his landmark study almost 50 years after the original publication.
