A Prehistoric Sequence in the Middle Pecos Valley, New Mexico Arthur J. Jelinek, 1967-01-01 Arthur J Jelinek describes the results of his archaeological surveys and excavations in east central New Mexico and provides a prehistoric cultural sequence of the Middle Pecos Valley from the Paleoindian period to the Late McKenzie Phase With a contribution on pollen analysis by Paul S Martin     *A Prehistoric Sequence in the Middle Pecos Valley, New Mexico, with a Contribution on*

*Palynology*, by Paul S. Martin Arthur J. Jelinek,     **Late Prehistoric Bison Procurement in Southeastern New Mexico** John D. Speth, William J. Parry, 1980-01-01 The Garnsey site is a late prehistoric protohistoric bison kill site in southeastern New Mexico During the 1978 excavation the crew clarified the stratigraphy and chronology of the site and increased the number of bison remains In this data rich monograph the authors present the results of their fieldwork and analyze their findings In addition to bison remains researchers found lithics ceramics and fire cracked rock     Prehistory of the Rustler

Hills Donny L. Hamilton, 2010-07-05 The Northeastern Trans Pecos region of Texas is an unforgiving environment for anyone living off the land yet nomadic hunters and gatherers roamed its deserts and mountains and sheltered in caves and sinkholes from around AD 200 to 1450 This book provides detailed insights into the lifeways of these little known prehistoric peoples It places their occupation of the region in a wider temporal and cultural framework through a comprehensive description and analysis of the archaeological remains excavated by Donny L Hamilton at Granado Cave in 1978 Hamilton begins with a brief overview of the geology and environment of the Granado Cave area and reviews previous archaeological investigations Then he and other researchers present detailed analyses of the burials and other material remains found in the cave as well as the results of radiocarbon dating From these findings he reconstructs the subsistence patterns and burial practices of these Native Americans whom he identifies as a distinct group that was pushed into the environment by surrounding peoples He proposes that they should be represented by a new archaeological phase thus helping to clarify the poorly understood late prehistory of the Trans Pecos     *Late Prehistoric Hunter-Gatherers and Farmers of the Jornada Mogollon* Thomas R.

Rocek, Nancy A. Kenmotsu, 2019-02-21 Often seen as geographically marginal and of limited research interest to archaeologists the Jornada Mogollon region of the southwestern United States and northern Mexico deserves broader attention Late Prehistoric Hunter Gatherers and Farmers of the Jornada Mogollon presents the major issues being addressed in Jornada research and reveals the complex dynamic nature of Jornada prehistory The Jornada branch of the Mogollon culture and its inhabitants played a significant economic political and social role at multiple scales This volume draws together results from recent large scale CRM work that has amassed among the largest data sets in the Southwest with up to date chronological architectural faunal ceramic obsidian sourcing and other specialized studies Chapters by some of the most active researchers in the area address topics that reach beyond the American Southwest such as mobility forager adaptations the transition to farming responses to environmental challenges and patterns of social interaction Late Prehistoric Hunter

Gatherers and Farmers of the Jornada Mogollon is an up to date summary of the major developments in the region and their implications for Southwest archaeology in particular and anthropological archaeological research more generally The publication of this book is supported in part by the Arizona Archaeological and Historical Society and the Center for Material Culture Studies at the University of Delaware Contributors Rafael Cruz Antill n Douglas H M Boggess Peter C Condon Linda Scott Cummings Moira Ernst Tim Graves David V Hill Nancy A Kenmotsu Shaun M Lynch Arthur C MacWilliams Mary Malainey Timothy D Maxwell Myles R Miller John Montgomery Jim A Railey Thomas R Rocek Matt Swanson Christopher A Turnbow Javier Vasquez Regge N Wiseman Chad L Yost **Water-resources Investigations** ,1979 **Cultural**

**Prehistoric Pueblo World, A.D. 1150-1350** Michael A. Adler,2016-10-15 From the mid twelfth to the mid fourteenth century the world of the ancestral Pueblo people Anasazi was in transition undergoing changes in settlement patterns and community organization that resulted in what scholars now call the Pueblo III period This book synthesizes the archaeology of the ancestral Pueblo world during the Pueblo III period examining twelve regions that embrace nearly the entire range of major topographic features ecological zones and prehistoric Puebloan settlement patterns found in the northern Southwest Drawn from the 1990 Crow Canyon Archaeological Center conference Pueblo Cultures in Transition the book serves as both a data resource and a summary of ideas about prehistoric changes in Puebloan settlement and in regional interaction across nearly 150 000 square miles of the Southwest The volume provides a compilation of settlement data for over 800 large sites occupied between A D 1100 1400 in the Southwest These data provide new perspectives on the geographic scale of culture change in the Southwest during this period Twelve chapters analyze the archaeological record for specific districts and provide a detailed picture of settlement size and distribution community architecture and population trends during the period

Additional chapters cover warfare and carrying capacity and provide overviews of change in the region. Throughout the chapters, the contributors address the unifying issues of the role of large sites in relation to smaller ones, changes in settlement patterns from the Pueblo II to Pueblo III periods, changes in community organization and population dynamics. Although other books have considered various regions or the entire prehistoric area, this is the first to provide such a wealth of information on the Pueblo III period and such detailed district-by-district syntheses. By dealing with issues of population aggregation and the archaeology of large settlements, it offers readers a much needed synthesis of one of the most crucial periods of culture change in the Southwest.

*The Prehistory of Texas* Timothy K. Pertulla, 2012-09-24

Paleoindians first arrived in Texas more than eleven thousand years ago, although relatively few sites of such early peoples have been discovered. Texas has a substantial post-Paleoindian record, however, and there are more than fifty thousand prehistoric archaeological sites identified across the state. This comprehensive volume explores in detail the varied experience of native peoples who lived on this land in prehistoric times. Chapters on each of the regions offer cutting-edge research, the culmination of years of work by dozens of the most knowledgeable experts. Based on the archaeological record, the discussion of the earliest inhabitants includes a reclassification of all known Paleoindian projectile point types and establishes a chronology for the various occupations. The archaeological data from across the state of Texas also allow authors to trace technological changes over time, the development of intensive fishing and shellfish collecting, funerary customs, and the belief systems they represented, long-term

changes in settlement mobility and character landscape use and the eventual development of agricultural societies The studies bring the prehistory of Texas Indians all the way up through the Late Prehistoric period ca a d 700 1600 The extensively illustrated chapters are broadly cultural historical in nature but stay strongly focused on important current research problems Taken together they present careful and exhaustive considerations of the full archaeological and paleoenvironmental record of Texas

**Ancient Pakistan - An Archaeological History** Mukhtar Ahmed,2014-10-18 This is the fourth volume of the Ancient Pakistan An Archaeological History It deals with a number of issues of the Indus Civilization which are primarily of theoretical importance The main topics that have been discussed are the social and political organization of the Harappan society the Harappan religion the Indus script and language the beginning and the end of this vast civilization and the recent attempts in creating some myths around the Indus Civilization Since this volume is primarily dedicated to the theoretical and the abstract descriptive material is kept to a minimum
