Prehistoric Stone Monuments Hc 1993:

The Stone Circles of Britain, Ireland, and Brittany Aubrey Burl, 2000-01-01 The spectacular stone circles of western Europe some nearly 6000 years old have intrigued viewers through the ages This beautiful book about these megalithic rings explores their ancestry methods of construction and eventual desertion A substantially revised version of Aubrey Burl's highly praised work *The Stone Circles of the British Isles* it offers new insights into the purpose of stone circles It also provides a new interpretation of Stonehenge and of Callanish in Scotland the first overview of the cromlechs in Brittany a discussion of the problems of archaeoastronomy as related to stone circles a greatly expanded Gazetteer and an up to date list of radiocarbon dates and recent excavations

Stonehenge - A New Understanding: Solving the Mysteries of the Greatest Stone Age Monument Mike Parker Pearson, 2014-03-25 The most authoritative important book on Stonehenge to date Kirkus starred review Stonehenge stands as an enduring link to our prehistoric ancestors yet the secrets it has guarded for thousands of years have long eluded us Until now the millions of enthusiasts who flock to the iconic site have made do with mere speculation about Stonehenge's celestial significance human sacrifice and even aliens and druids One would think that the numerous research expeditions at Stonehenge had left no stone unturned Yet before the Stonehenge Riverside Project a hugely ambitious seven year dig by today's top archaeologists all previous digs combined had only investigated a fraction of the monument and many records from those earlier expeditions are either inaccurate or incomplete Stonehenge A New Understanding rewrites the story From 2003 to 2009 author Mike Parker Pearson led the Stonehenge Riverside Project the most comprehensive excavation ever conducted around Stonehenge The project unearthed a wealth of fresh evidence that had gone untouched since prehistory Parker Pearson uses that evidence to present a paradigm shifting theory of the true significance that Stonehenge held for its builders and mines his field notes to give you a you are there view of the dirt drama and thrilling discoveries of this history changing archaeological dig

From Carnac to Callanish Aubrey Burl, Dr Aubrey Burl, 1993-01-01 This book discusses the lines of standing stones that until now have been the neglected wonders of prehistoric Europe rows that were foci of rituals in Britain Ireland and Brittany for over two thousand years Places such as Carnac in Brittany and Callanish in the Hebrides are visited by many visitors each year but before now there has been no book that seriously explains the history significance and background to these impressive sites Aubrey Burl shows that the settings vary from pairs of isolated stones in the far south west of Ireland to networks of long lines in Scotland Dartmoor and Brittany and describes the types in a sequence of architectural chapters that stress the increasing social and commercial connections between regions hundred of miles apart He uses information from a wide variety of sources excavation reports megalithic art astronomical analyses and legends to provide explanations of why the rows were erected when and what they may have been used for

Molecular Biology and Cultural Heritage C.

Saiz-Jimenez,2017-11-22 This book contains forty reviewed papers delivered at the International Congress on Molecular Biology and Cultural Heritage held in Seville March 2003 It is divided in four parts the first one presents the state of the art and reviews molecular techniques applied to the study of microbial communities colonizing monuments and cultural heritage assets Part two covers specific molecular techniques used in biodeterioration studies part three includes an updated overview on on going biodeterioration European Commission projects and part four presents selected biodeterioration case studies from all over the world **Catalogue of the Reference Library of the Royal Albert Memorial Museum, Exeter** University of Exeter. Museum and Library,1901 **Readers' Guide to Periodical Literature** ,1910 Prehistoric Journeys Vicki Cummings,Robert Johnston,2007 This collection of thirteen papers focuses on what it meant to be on the move at different times in prehistory Ideas of journeys and travel are integral to many traditions of interpreting the prehistoric archaeological record Travel was after all the driving force behind the formation and trans formation of identity How ironic it is that this feature of prehistory has been so overlooked when the ancient world s discovery in the Eighteenth and Nineteenth Centuries occurred primarily as the result of travel The contributors to this volume see journeys as an integral part of prehistoric life socially meaningful which must be understood within their pre historic contexts *Classic Period Mixtequilla, Veracruz, Mexico* Barbara L. Stark,2001 This archaeological site report presents new in sights on an important but poorly studied Mesoamerican culture the Classic period of the Mexican Gulf Coast Stark discusses her excavations at several sites in the Mixtequilla region describes the deposits and artifacts encountered and provides interpretations of the sites and their significance within a wider context Her analysis of the ephemeral remains of perishable houses is innovative and contains one of the most sophisticated treatments of site formation processes yet carried out in Latin America Particularly important is the identification of some of the earliest spindle whorls in Mesoamerica leading to new views of the importance of cotton textiles in the changing economies of the Late Preclassic and Classic periods Superb artifact illustrations detailed descriptions and an ample use of data tables make this a valuable reference work Mesoamericanists will find much of interest in this book as will readers interested in tropical lowland settlement patterns household archaeology and site formation processes *Cultural Heritage Microbiology* Ralph Mitchell,Christopher J. McNamara,2010 Ideal for anyone concerned with recognizing and dealing with microbial deterioration of heritage materials Provides a unique single overview of the seminal literature in conservation microbiology Presents the current state of the art along with a synthesis of the major developments over the years Represents the findings of leading international experts and pioneers in the field Offers conservation scientists and conservators an inclusive view of the heritage conservation field plus extensive resources for further investigation **Monuments in the Making** Vicki Cummings,Colin Richards,2021-09-29 In this book we offer an exciting new perspective on a distinctive form of megalithic monument that is found across most areas of northern Europe In order to achieve this we have abandoned outmoded typological classifications and reintroduced the term dolmen to

embrace a range of sites that share a common form of megalithic architecture the elevation and display of a substantial stone By critically assessing the traditionally assigned role of these monuments and their architecture as megalithic tombs the presence of the dead is reassessed and argued to form part of a process generating vibrancy to the materiality of the dolmen As such this book argues that the megalithic architecture identified as a dolmen is not a chambered tomb at all but instead is a qualitatively different form of monument We also provide an entirely different conception of the utility of this extraordinary megalithic architecture one that seeks to emphasize its building as articulating discourses of wonder as a broad social strategy In this respect it is important to remember that many of these monuments were erected very early in the Neolithic and as a consequence of new people entering new lands or social transformation In short dolmens are monumental constructions employing experimental and emergent technologies to raise huge stones which once built enchant those who come within their spaces Our claim is that dolmens were megalithic installations of affect magical and extraordinary in construction and strategically positioned to induce both drama and awe in their encounter

Mortuary Monuments and Burial Grounds of the Historic Period Harold Mytum, 2012-12-06 Burial grounds strike an immediate chord with all who visit them They are land scapes full of pathos and cultural associations which many find attractive though a minority feel are too morbid to deserve detailed attention This book is designed to offer a framework for studying historic burial ground monuments and contains a certain amount of information regarding below ground archaeology as some projects will involve the study of both Moreover from a research perspective above and below ground archaeology together can throw considerable light on the process of dying body disposal and commemoration that formed a continuum for those involved However the more easily accessible graveyard memorials can be used to study many aspects of past culture beyond that directly associated with death and they are the focus of the book Most people who become interested in historic graveyard memorials come to the subject via the material itself Only rarely does a research question get posed and graveyard data seem like an appropriate arena for investigation This has the advantage that many researchers have some ideas about the data available but the disadvantage that they may not have clear questions to ask of it nor how to set their discoveries in a wider intellectual context

Transactions of the Woolhope Naturalists' Field Club, 1903 Transactions of the Woolhope Naturalists' Field Club Woolhope Naturalists' Field Club, 1903 **Nature** Sir Norman Lockyer, 1913 Ritual Human Sacrifice in Mesoamerica Rubén G. Mendoza, Linda Hansen, 2024-03-01 This edited volume addresses the environmental and cultural underpinnings of the kind of social conflict that spawned the origins and elaboration of ritualized human and animal sacrifice in Mesoamerica The chapters variously document the place of cultural evolution and social complexity in the origins and elaboration of ritual human sacrifice cannibalism and trophy taking across a broad spectrum of Mesoamerican cultural and social contexts that first saw the light of day before 2600 BCE and rapidly developed and proliferated across the Mesoamerican world in the centuries to follow They study the developments in sacrifice rituals

through the centuries into the first millennium CE when the Mexica Aztec and their allies had elevated ritual human sacrifice such that they produced a plethora of sacrificial acts modes and manners of death and associated deities to articulate the necro cultures and blood tribute of the times The chapters further study present day rites of Amerindian communities from throughout Mesoamerica that include paying homage to the deities of earth and sky through sacrifice and consumption of animal surrogates The interdisciplinary effort undertaken by this international cadre of scientists including anthropologists bioarchaeologists art historians ethnohistorians iconographers and religious studies experts provides a particularly rich forum for launching an interrogation into the role of conflict environment and social complexity in the emergence and persistence of ritual violence and human sacrifice in the Mesoamerican world

The Prehistory of Britain and Ireland Richard Bradley, 2019-05-16 Sited at the furthest limits of the Neolithic revolution and standing at the confluence of the two great sea routes of prehistory Britain and Ireland are distinct from continental Europe for much of the prehistoric sequence In this landmark study Richard Bradley offers an interpretation of the unique archaeological record of these islands Highlighting the achievements of its inhabitants Bradley surveys the entire archaeological sequence over a 5 000 year period from the last hunter gatherers and the adoption of agriculture in the Neolithic period to the discovery of Britain and Ireland by travellers from the Mediterranean during the later pre Roman Iron Age His study places special emphasis on landscapes settlements monuments and ritual practices This edition has been thoroughly revised and updated The text takes account of recent developments in archaeological science such as isotopic analyses of human and animal bone recovery of ancient DNA and more subtle and precise methods of radiocarbon dating

Stonehenge Michael Parker Pearson, Stonehenge Riverside Project (England), 2012-06-07 Our knowledge about Stonehenge has changed dramatically as a result of the Stonehenge Riverside Project 2003 2009 led by Mike Parker Pearson and included not only Stonehenge itself but also the nearby great henge enclosure of Durrington Walls

This book is about the people who built Stonehenge and its relationship to the surrounding landscape. The book explores the theory that the people of Durrington Walls built both Stonehenge and Durrington Walls and that the choice of stone for constructing Stonehenge has a significance so far undiscovered, namely that stone was used for monuments to the dead. Through years of thorough and extensive work at the site, Parker Pearson and his team unearthed evidence of the Neolithic inhabitants and builders which connected the settlement at Durrington Walls with the henge and contextualised Stonehenge within the larger site complex linked by the River Avon, as well as in terms of its relationship with the rest of the British Isles. Parker Pearson's book changes the way that we think about Stonehenge, correcting previously erroneous chronology and dating, filling in gaps in our knowledge about its people and how they lived, identifying a previously unknown type of Neolithic building, discovering Bluestonehenge, a circle of 25 blue stones from western Wales, and confirming what started as a hypothesis that Stonehenge was a place of the dead through more than 64 cremation burials unearthed there which span the monument's use during the third millennium BC. In lively and engaging prose, Parker Pearson brings to life the imposing ancient monument that continues to hold a fascination for everyone.
