## **Prehistory In Peril The Worst And The Best Of Durango Archeology:**

**Prehistory in Peril** Florence Cline Lister, 1997 Prehistory in Peril is the first accurate account of the early period of archaeological study of the Durango area. The area still rife with unexplored sites drew many self-trained amateurs and pothunters. As more and more historically significant artifacts were found, bitter confrontation and animosity developed between professionals and enthusiasts. Prehistory in Peril follows this fascinating drama and reevaluates data from two prominent archaeologists of that time, Earl Morris and Robert Burgh, and takes into account more recent research to draw new conclusions about the prehistoric cultural patterns revealed in the southern Colorado area of Durango. **Prehistory in Peril** Florence Cline Lister, P. G. Duke, 1997 Durango, Colorado, situated in the four corners region of southwest Colorado, has long been an area of interest to professional archaeologists and non-professional enthusiasts alike. In addition to its natural beauty, the area has been host to a number of ancestral Pueblo Indian groups dating back to prehistoric times. In the 1930s, archaeological professionals made up a small, growing group, while the ranks of amateur enthusiasts and pothunters, those who dug ancient sites for artifacts out of curiosity or for monetary gain, swelled. Prehistory in Peril is the first accurate account of the early period of archaeological study of the Durango area. The area still rife with unexplored sites drew many self-trained amateurs and pothunters. As more and more historically significant artifacts were found, bitter confrontation and animosity developed between professionals and enthusiasts. Prehistory in Peril follows the fascinating drama and re-evaluates data from two prominent archaeologists of that time and takes into account more recent research to draw new conclusions about the prehistoric cultural patterns revealed in the southern Colorado area of Durango. Cultural Negotiations David L. Browman, 2013-06-01 This meticulously researched reference work documents the role of women who contributed to the development of Americanist archaeology from 1865 to 1940. Between the Civil War and World War II, many women went into anthropology and archaeology fields that at the beginning of this period welcomed and made room for amateurs of both genders. But over time, the increasingly professional structure of these fields diminished or even obscured the contributions of women due to their lack of access to prestigious academic employment and publishing opportunities. As a result, a woman archaeologist during this period often published her research under her husband's name or as a junior author with her husband. In Cultural Negotiations, archaeologist David L. Browman has scoured the archaeological literature and archival records of several institutions to bring the stories of more than two hundred women in Americanist archaeology to light through detailed biographies that discuss their contributions and publications. This work highlights how the social and cultural construction of archaeology as a field marginalized women and will serve as an invaluable reference to those researchers who continue to uncover the history of women in the sciences. **Troweling Through Time** Florence C. Lister, 2004-11 Florence Lister, one of archaeology's eminent authorities, presents the long and colorful history of exploration in the Mesa Verde area of the American Southwest. Ruins and Rivals James E. Snead, 2022-02-08 Published in cooperation

with the William P Clements Center for Southwest Studies Southern Methodist University Ruins are as central to the image of the American Southwest as are its mountains and deserts and antiquity is a key element of modern southwestern heritage Yet prior to the mid nineteenth century this rich legacy was largely unknown to the outside world While military expeditions first brought word of enigmatic relics to the eastern United States the new intellectual frontier was seized by archaeologists who used the results of their southwestern explorations to build a foundation for the scientific study of the American past In Ruins and Rivals James Snead helps us understand the historical development of archaeology in the Southwest from the 1890s to the 1920s and its relationship with the popular conception of the region He examines two major research traditions expeditions dispatched from the major eastern museums and those supported by archaeological societies based in the Southwest itself By comparing the projects of New York s American Museum of Natural History with those of the Southwest Museum in Los Angeles and the Santa Fe based School of American Archaeology he illustrates the way that competition for status and prestige shaped the way that archaeological remains were explored and interpreted The decades long competition between institutions and their advocates ultimately created an agenda for Southwest archaeology that has survived into modern times Snead takes us back to the days when the field was populated by relic hunters and eastern museum men who formed uneasy alliances among themselves and with western boosters who used archaeology to advance their own causes Richard Wetherill Frederic Ward Putnam Charles Lummis and other colorful characters all promoted their own archaeological endeavors before an audience that included wealthy patrons museum administrators and other cultural figures The resulting competition between scholarly and public interests shifted among museum halls legislative chambers and the drawing rooms of Victorian America but always returned to the enigmatic ruins of Chaco Canyon Bandelier and Mesa Verde Ruins and Rivals contains a wealth of anecdotal material that conveys the flavor of digs and discoveries scholars and scoundrels tracing the origins of everything from national monuments to Santa Fe Style It rekindles the excitement of discovery illustrating the role that archaeology played in creating the southwestern past and how that image of antiquity continues to exert its influence today
