How German Parties Select Candidates of Immigrant Origin Sara Ceyhan, 2020-10-31 This book analyzes the threshold candidates of immigrant background need to overcome to run for legislative office Understanding whether political parties are able to adapt their selection criteria helps to assess their ability to respond to the underrepresentation of citizens of immigrant origin in parliament Although Germany's ethnic diversity is on a steady rise citizens of immigrant origin remain descriptively underrepresented Despite the pivotal role the intra party candidate selection plays in shaping who runs for election the question of how candidates of immigrant background fare in political parties candidate selection in comparison to native born candidates remained a blind spot of research Therefore the author presents in depth empirical evidence on the selection of candidates of immigrant background in German political parties The book addresses scholars of political science interested in electoral studies as well as policy makers and party officials interested in a balanced representation of their political representatives

Loh, 1984-09-17 How to inform the judicial mind Justice Frankfurter remarked during the school desegregation cases is one of the most complicated problems Social research is a potential source of such information Indeed in the 1960s and 1970s with activist courts at the forefront of social reform the field of law and social science came of age But for all the recent activity and scholarship in this area few books have attempted to create an intellectual framework a systematic introduction to applied social legal research Social Research in the Judicial Process addresses this need for a broader picture Designed for use by both law students and social science students it constructs a conceptual bridge between social research the realm of social facts and judicial decision making the realm of social values Its unique casebook format weaves together judicial opinions empirical studies and original text It is a process oriented book that teaches skills and perspectives cultivating an informed sensitivity to the use and misuse of psychology social psychology and sociology in appellate and trial adjudication Among the social legal topics explored are school desegregation capital punishment jury impartiality and eyewitness identification This casebook is remarkable for its scope its accessibility and the intelligence of its conceptual integration It provides the kind of interdisciplinary teaching framework that should eventually help lawyers to make knowledgeable use of social research and social scientists to conduct useful research within a legally sophisticated context

Psychoanalysis and Other Disciplines Confront Prejudice Fanny Blanck Cerejido, 2022-12-08 Psychoanalysis and Other Disciplines Confront Prejudice Discrimination Against the Other presents interdisciplinary perspectives on prejudice

This book considers both the negative and positive implications of a priori transmission of values and knowledge. It examines various aspects of prejudice from the perspectives of psychoanalysis, biology, sociology, and law. The contributors consider prejudice to be a judgement that precedes experience; it organises and discriminates the events and facts we must assess to understand the world around us, thereby helping us make sense of the world of words, concepts, networks, and values into which we are born. Chapters cover a range of topics such as racism, superstition, discrimination, and prejudice in psychoanalytic practice. This volume provides a path-breaking treatment of prejudice and how it affects our lives and interactions with others. Psychoanalysts in training and in practice will find this book a vital resource.
