Keith,2001-01-11 Law and Justice in China s New Marketplace provides the first comprehensive multidisciplinary analysis of the jurisprudence and related law underlying the contemporary Chinese transition to the socialist market economy New pluralized jurisprudence has moved beyond Marxist class analysis to consider a new balance of values relating to economic efficiency and social justice in the marketplace and yet the interior debates and perspectives concerning these values are virtually unknown in the Western scholarly literature By analysing the changing Chinese approach in law to the adjustment of social interests in the context of profound economic change Law and Justice in China s New Marketplace provides a unique reference tool It outlines the new vocabulary of market jurisprudence and law and examines new legal thinking on rights protection with reference to widely ranging and often hot internal debate over human rights property law and procedural or judicial justice      **Policing Serious Crime in China** Susan Trevaskes,2012-08-06 Despite a resurgence in the number of studies of Chinese social control over the past decade or so no sustained work in English has detailed the recent developments in policy and practice against serious crime despite international recognition that Chinese policing of serious crime is relatively severe and that more people are executed for crime in China each year than in the rest of the world combined In this book the author skilfully explores the politics practice procedures and public perceptions of policing serious crime in China focusing on one particular criminal justice practice anti crime campaigns in the period of transition from planned to market economy from the 1980s to the first years of the twenty first century Susan Trevaskes analyzes the elements that led to the Hard Strike becoming the preferred method of attacking the growing problem of serious crime in China before going on to examine the factors surrounding the failure of the Hard Strike as a way of addressing the main problems of serious crime in China today that is drug trafficking and organized crime Drawing on a rich variety of Chinese sources Serious Crime in China is an original and informed read for scholars of China criminologists generally and the international human rights community      **Social Learning Theory and the Explanation of Crime** Ronald L.
