Raising the Spiritual Light Quotient David K. Miller,2011-04-25 The concept of raising the spiritual light quotient is similar to the intelligence quotient used in modern psychology the IQ test However the spiritual light quotient is not the same as intelligence Rather the SLQ reflects one s ability to understand spiritual concepts to meditate and to connect with other dimensions It also is a measurement of one s ability to understand the relationship between Earth and the environment of the Earth and Earth s relationship to the galaxy Finally it is a measurement of one s ability to understand the existence of other dimensions as well as the relationship between the ascended masters and guides and our journey to higher realms for soul evolution Thus it appears necessary to look at the SLQ of a person the SLQ of an area and the SLQ of a planet All of the channeling I bring forth is based on the concept of the Sacred Triangle which is a new paradigm for spirituality This paradigm states that in order to heal Earth and bring everything into balance one must unite the concepts of galactic spirituality with ancient mystical thought and with the energies of native peoples including Native Americans

opportunities to be aware It asks the big question Why am I here and leads the reader to examine the most significant questions of a lifetime **AHA! The Realization Book** Janet McClure, Lillian Harben, 1997-06-01 What is a realization It is bringing together making real and understanding where you are now with respect to a certain area of your life usually a certain large area in your life Suddenly something that you didn't see or understand previously becomes crystal clear especially to the mental body If you recognize that you create your own life from your beliefs about yourself and this book is based on that premise then you know also that you can change your life improve it by changing the beliefs that are not serving you well Usually however to make a complete change it is necessary to recognize or realize more than just mentally Your emotional body's beliefs and needs must be met The emotional body needs to feel supported as you change this pattern The emotional works through feelings and symbols but its conclusions are just as valid just as meaningful and even more powerful than the mental conclusions In this book I Vywamus have given many possible causes of a lot of undesirable or unclear circumstances that you may be mirroring in your life You can read the sections and see if they seem to apply to what you are mirroring into your life from your beliefs If you are manifesting into your life in a way that is not clear then reading this book may give you a light bulb or a realization that you are holding a specific erroneous belief **The Matter of Mind** Kathlyn Kingdon, 2007-01-01 In this remarkable book Ascended Master Djwhal Khul also known as the Tibetan lays out the dimensions of the mind in a coherent presentation unlike any other available today Whether you approach the mind from a psychological basis a spiritual perspective or simply want fuller disclosure of how it perceives and creates this book will provide amazing insights You will discover why those who have attained enlightenment all teach the critical necessity of training the mind as the only means to achieving lasting peace In collaboration with Kathlyn Kingdon Master Djwhal Khul reveals that the keys to happiness lie within each of us buried beneath our conditioning and false beliefs which we mistake for reality **The New Spiritual Exercises** Louis M. Savary, 2010 One can say that the last true revolution in spirituality came with the Spiritual Exercises of Ignatius Loyola Many devout Christians use the Exercises unchanged from their origins in the sixteenth century In the twentieth century another Jesuit Pierre Teilhard de Chardin developed a revolutionary spirituality by integrating science and faith offering us a new way to understand the Word of God and the immensity of the Universal Christ Unfortunately he never spelled out how to practice this new understanding in our daily lives Louis Savary offers an approach on how the Spiritual Exercises could be re-envisioned for contemporary believers using the transformative spirituality of Teilhard The Nov Spiritual Exercises provides a vision of how a twenty first century Teilhard might have adapted Ignatius classic work in the hope that Teilhard himself would approve Book Jacket **Shining the Light IV** Robert Shapiro, Arthur Fanning, 1996-10-01 Learn to heal the planet and the planet will heal you The purpose of this book is to allow you to understand the sacred nature of your own physical body and some of the magnificent gifts it offers you When you work with your physical body in these new ways you will discover not only its sacredness but how it is compatible with Mother

Earth the animals the plants and even the nearby planets all of which you now recognize as being sacred in nature It is important to feel the value of yourself physically before you can have a lasting impact on the world The less you think of yourself physically the less likely your physical impact on the world will be sustained by Mother Earth If a physical energy does not feel good about itself it will usually be resolved other physical or spiritual energies will dissolve it because it is unnatural The better you feel about your physical self when you do the work in the previous book Shamanic Secrets for Material Mastery A as wel
