Premature Menopause A Multidisciplinary Approach:

Premature Menopause Dani Singer, Myra Hunter, 2000-02-08 This work deals with questions about premature menopause while challenging some of the myths and stereotypes surrounding it Taking a biopsychosocial approach the editors bring together experts from a range of disciplines including endocrinology gynecology general practice nursing psychotherapy complementary medicine and clinical psychology as well as hearing from women themselves Dewhurst's Textbook of Obstetrics & Gynaecology Christoph Lees, Tom Bourne, 2018-11-13 This classic textbook continues to provide the basic knowledge relevant to the practice of obstetrics and gynaecology Comprehensive in scope Dewhurst's Textbook of Obstetrics Gynaecology offers contributions from a noted panel of experts and contains an integrated approach that is designed to help deliver the highest possible care to patients Since the publication of the previous edition there have been a number of obstetric breakthroughs that are addressed in this new edition Written for both students and professionals Dewhurst's Textbook of Obstetrics Gynaecology is a straightforward authoritative and practice based guide to women's reproductive health *Dewhurst's Textbook of Obstetrics and Gynaecology* Sir John Dewhurst, 2012-02-13 This textbook of obstetrics and gynaecology includes coverage of menstrual disorders fertilisation ectopic pregnancy multiple pregnancy foetal growth labour contraception infertility menopause ovarian diseases tumours of the uterus Oxford Textbook of Psychotherapy Glen O. Gabbard, Judith S. Beck, Jeremy Holmes, 2007 With the publication of this book psychotherapy finally arrives at the mainstream of mental health practice This volume is an essential companion for every practising psychiatrist clinical psychologist psychotherapy counsellor mental health nurse psychotherapist and mental health practitioner It is integrative in spirit with chapters written by an international panel of experts who combine theory and research with practical treatment guidelines and illustrative case examples to produce an invaluable book Part One gives a comprehensive account of all the major psychotherapeutic approaches Parts Two and Three systematically describe psychotherapeutic approaches to the major psychiatric disorders and personality disorders Many chapters are multi authored and describe the psychodynamic cognitive behavioural and other approaches for treating these illnesses Part Four examines applications and modifications of psychotherapy across the lifecycle Part Five describes psychotherapy with specific populations such as medical patients and those where gender is an issue and finally Part Six tackles some of the special topics of concern to psychotherapists including ethics legal issues and psychotherapy and neuroscience The first of its kind this is a must have volume for all trainee and practising psychological therapists whatever their background psychiatry psychology social work or nursing Oxford Desk Reference: Obstetrics and Gynaecology Sabaratnam Arulkumaran, 2011-06-23 A concise evidence based textbook collating the key recommendations that practising obstetricians and gynaecologists need to know The easily accessible format allows for quick consultation whilst in the clinic or on the ward Ethics and Intersex Sharon E. Sytsma, 2006-06-07 This collection of 21 articles is designed to serve as a state of the art reference book for intersexuals their

parents health care professionals ethics committee members and anyone interested in problems associated with intersexuality It fills an important need because of its uniqueness as an interdisciplinary effort bringing together not just urologists and endocrinologists but gynecologists psychiatrists psychologists lawyers theologians gender theorists medical historians and philosophers Most contributors are well known experts on intersexuality in their respective fields The book is also unique in that it is also an international effort including authors from England the Netherlands Germany Australia India Canada and the United States The book begins with introductory chapters on the etiology of intersex conditions conceptual clarification legal issues and reflections about the inherent characteristics of medical care that have led up to the issues we face today and explain the resistance to change in traditional practices Researchers provide recent data on gender identity surgical outcomes and appropriate clinical care Issues never having been addressed are introduced The significance of intersexuality for Christianity and for philosophical concerns with authenticity add further depth to the collection The final chapters deal with future possibilities in the treatment of intersex and for intersex advocacy **Inconceivable**

Conceptions Jane Haynes, Juliet Miller, 2004-03 It is over two decades since the first test tube baby was born During this period a new belief that all infertile women can now have babies has become widely accepted indeed infertile couples may feel great pressure to seek a medical solution However the psychological and social effects of the changing experiences of infertility remain confusing both for those who experience infertility and for wider society In this book a distinguished range of contributors including novelist Hilary Mantel and Germaine Greer examine the experience of infertility from both male and female perspectives the psychological aspects of infertility diagnosis and treatment and the often radical and unexpected effects on kinship Drawing from a wide range of theoretical backgrounds including Jungian analytical and compelling personal reflections this book aims to unravel the implications of advancing reproductive technology for our understanding of ourselves and our families **The Psychological Processes of Childbearing** Joan Raphael-Leff, 2018-05-03 Childbearing

seems eternal primordial and universal Yet human reproduction in the 21st century is in a state of flux This accessible book highlights dramatic changes that have occurred over the last decades focusing on both individual and cross cultural diversity across the now elongated childbearing cycle and the uniqueness of desire and emotional experience It does so by locating the transition to parenthood in its psycho sexual and socio economic context emphasising interweaving internal external realities and our inherent interconnectedness with others Included are conscious and unconscious factors determining beliefs expectations and parenting practices and ways in which these are affected by rapid urbanisation shrinking families societal instability HIV governmental maternity and child care policies and attitudes of professionals Drawing widely on empirical and clinical research from disparate disciplines psychoanalytic neuro scientific neonatal sociological obstetric anthropological and midwifery this resource book synthesises these to illustrate a spectrum of processes affecting each person s mental health **Motherhood in the Twenty-First Century** Mariam Alizade, 2020-06-16 Mothers in the twenty first century

confront us both in clinical practice and in theory with fascinating challenges that to some extent subvert the traditional maternal ideal the motherhood of single women motherhood in which the mother child relationship seems minimal in the case of very busy working mothers teenage motherhood in which there is no true awareness of the maternal function motherhood in couples of homosexual women men who take upon themselves the maternal function men mothers complex motherhood by virtue of the multiple variants that have nowadays become possible thanks to new reproductive techniques shared motherhood surrogate motherhood sublimated motherhood and perverse motherhood *Assisted Human Reproduction* Dani Singer, Myra Hunter, 2006-02-22 With contributions from Eric Blyth Ken Daniels Julia Feast Robert Lee Nina Martin Alexina McWhinnie Derek Morgan Clare Murray Sharon Pettle Claire Potter Jim Richards and Francoise Shenfield The separation of procreation from conception has broadened notions of parenthood and created novel dilemmas A woman may carry a foetus derived from gametes neither or only one of which came from her or her partner or she may carry a foetus created using in vitro fertilisation IVF with the purpose of handing it to two other parents one neither or both of whom may be genetically related to the prospective child Parents may consist of single sex couples only one of them genetically related to the child the prospective mother may be past her menopause and genetic parenthood after death is now achievable In a world increasingly reliant on medical science how can the argument that equates traditional with natural and novel with unnatural unethical be justified Should there be legislation which is notoriously slow to change in a field driven by dazzling new possibilities at ever faster rate particularly when restrictions differ from country to country so that those who can afford it travel elsewhere for their treatment of choice Whose rights are paramount the adults hoping to build a family or the prospective child ren s future well being On what basis can apparently competing rights be regulated or adjudicated and how and to what extent can these be enforced in practice **Primary Ovarian Insufficiency** Nanette F. Santoro, Amber R. Cooper, 2016-02-09 Presenting the most current and relevant information on the diagnosis and management of primary ovarian insufficiency also known as premature ovarian failure POI POF this book presents two equally important voices The first is the scientific evidence based voice discussing the latest information on POI POF in a concise and logical fashion etiologies symptoms genetics mechanisms associated conditions as well as psychological and lifestyle considerations The second voice presents the first person stories of affected women who are often faced with a diagnosis of irreversible infertility at a very young age and who somehow learn to live with great uncertainty about their ability to create a family a core identity issue for many women It is thus not simply a clinical case based presentation but a more collaborative effort between clinicians who are well versed in the field and women who have POI POF Primary Ovarian Insufficiency A Clinical Guide to Early Menopause will therefore be an excellent practical yet personal reference for OB GYNs reproductive medicine specialists and any clinician nurse or health care worker treating women living with POI POF
