Postmodern Poetry and Queer Medievalisms: Time Mechanics David Hadbawnik,2022-06-06 This volume builds on recent scholarship on contemporary poetry in relation to medieval literature focusing on postmodern poets who work with the medieval in a variety of ways Such recent projects invert or queer the usual transactional nature of engagements with older forms of literature in which readers are asked to exchange some small measure of bewilderment at archaic language or forms for a sense of having experienced a medieval text The poets under consideration in this volume demand that readers grapple with the ways in which we are still medieval in other words the ways in which the questions posed by their medieval source material still reverberate and hold relevance for today s world They do so by challenging the primacy of present over past toppling the categories of old and new and suggesting new interpretive frameworks for contemporary and medieval poetry alike A Listening Walk --and Other Stories Gene Hill,1985 *Catalog of Copyright Entries. Teaching a

Child to Read and Write Well Auntie Alice, 2013-12-18 In spite of the wide range of resources and innovative teaching methods schools have had and are using many students still fail to acquire literacy Many have specific problems with word and letter symbols They reverse and invert them their hearing cannot discriminate fine differences in letter sounds or they do not perceive patterns easily for their brain to make connections Their visual and auditory memory may fail them or their culture may use language that does not align with the standard accepted forms in the text These children are disadvantaged because their brains work differently and they think and respond differently This book embraces a different metaphor for teaching literacy that does not compartmentalize the curriculum into separate areas such as spelling reading writing listening speaking and presenting Instead the focus is on assessing their written language as a place to start in planning for success An unassisted sample of a learners writing could be said to be an example of what they understand of literacy whether it be a scribble at three or an essay at twelve I have proved conclusively that if teacher and student work collaboratively on improving their writing using their reading as a model their reading ability rises naturally This customized and individualized teaching method enables authentic teacher student interactions This not only allows the teacher to closely tailor their teaching to each students unique learning needs but it also brings the student on board in assessing their progress Teaching a Child to Read and Write Well will clear a path towards mastering literacy that can engage all students and lead to success for all Give it a go
