Space(s) of the Fantastic David Punter, C. Bruna Mancini, 2020-12-29 This book provides a series of new addresses to the enduring problem of how to categorize the Fantastic The approach taken is through the lens of spatiality the Fantastic gives us new worlds although of course these are refractions of worlds already in being In place of real spaces whatever they might be the Fantastic gives us imaginary spaces

although within those spaces historical and cultural conflicts are played out albeit in forms that stretch our understanding of everyday location and our usual interpretations of cause and effect Many authors are addressed here from a variety of different geographical and national traditions thus demonstrating how the Fantastic as a mode a genre a way of thinking imagining and writing continually traverses borders and boundaries We hope to move the ongoing debate about the Fantastic forward in a scholarly as well as an engaging way **The Literary World** ,1890 **Place, Craft and Neurodiversity**

confused by academic jargon Do you know your discourse from your dialectic Can you tell the difference between anomie and alienation The Social Science Jargon Buster tackles the most confusing concepts in the social sciences breaking each down and bringing impressive clarity and insight to even the most complex terms This book successfully addresses the central task for any teacher of social theory how to make the material accessible without making it simplistic and banal The overall effect is a most effective text that hard pressed students and lecturers will grab with both hands Dave Harris Senior Lecturer in Social Science This practical down to earth dictionary will help students new to social science discourse gain a thorough understanding of the key terms Each entry includes a concise core definition a more detailed explanation and an introduction to the associated debates and controversies In addition students will find a useful outline of the practical application of each term as well as a list of key figures and recommendations for further reading This dictionary brings a refreshing clarity to social science discourse making it essential reading for all students on undergraduate social science courses

Paradigmatic Shifts in Geographical Thought Lalita Rana, 2020-01-01 In advancing disciplines like Geography the methodological debate is a sign of health In Geography there has been extreme diversity of viewpoints on both philosophy

and methodology with constant extension and also a shift in focus The methodology of geography came under debate for the first time during the middle of twentieth century when the paper published by F K Schaefer an American scholar brought both the qualitative and quantitative revolution in geographic development Shortly after this publication were discussed the paradigmatic shifts in a discipline by Thomas S Kuhn another American scholar through his seminal work in which he painted a picture of the development of science quite unlike that had gone before In order to elucidate this process of development of science Kuhn prepared a model termed as the Paradigm of Science Distinct parallels may be sought between the historical evolution of scientific discipline as explained by Thomas Kuhn and the historical evolution of the discipline of geography Seeking inspiration from the works of both of the great scholars mentioned above the present book examines the evolution of geographical thought from the perspective of Thomas Kuhn Two publications of mine 2008 2014 are on this line only However the methodological literature to understand the philosophical background making possible this disciplinary growth is too small The purpose here is to explore and screen the growth and development of Geography under sequential methodological changes over time in the light of various paradigmatic shifts with the acknowledgement of crises and revolutionary phases of development in the discipline Accordingly the work identifies eight paradigmatic shifts intercepted by eight phases of crises in the discipline
