Realism And Appearances An Essay In Ontology:

Realism and Appearances John W. Yolton, 2000-05-18 This book addresses one of the fundamental topics in philosophy the relation between appearance and reality John Yolton draws on a rich combination of historical and contemporary material ranging from the early modern period to present day debates to examine this central philosophical preoccupation which he presents in terms of distinctions between phenomena and causes causes and meaning and persons and man He explores in detail how Locke Berkeley and Hume talk of appearances and their relation to reality and offers illuminating connections and comparisons with the work of contemporary philosophers such as Paul Churchland and John McDowell He concludes by offering his own proposal for a realism of appearances which incorporates elements of both Humean and Kantian thinking His important study will be of interest to a wide range of readers in the history of philosophy the history of ideas and contemporary philosophy of mind epistemology and metaphysics

Gaze, Vision, and Visuality in Ancient Greek

Literature Alexandros Kampakoglou, Anna Novokhatko, 2018-03-05 Visual culture performance and spectacle lay at the heart of all aspects of ancient Greek daily routine such as court and assembly cult and ritual and art and culture Seeing was considered the most secure means of obtaining knowledge with many citing the etymological connection between seeing and knowing in ancient Greek as evidence for this Seeing was also however often associated with mere appearances false perception and deception Gazing and visuality in the ancient Greek world have had a central place in the scholarship for some time now enjoying an abundance of pertinent discussions and bibliography If this book differs from the previous publications it is in its emphasis on diverse genres the concepts gaze vision and visuality are considered across different Greek genres and media The recipients of ancient Greek literature both oral and written were encouraged to perceive the narrated scenes as spectacles and to follow the gaze of the characters in the narrative By setting a broad time span the evolution of visual culture in Greece is tracked while also addressing broader topics such as theories of vision the prominence of visuality in specific time periods and the position of visuality in a hierarchisation of the senses

Hume's 'A Treatise of Human Nature' John P. Wright, 2009-11-26 David Hume's *A Treatise of Human Nature* 1739/40 presents the most important account of skepticism in the history of modern philosophy In this lucid and thorough introduction to the work John P. Wright examines the development of Hume's ideas in the *Treatise* their relation to eighteenth century theories of the imagination and passions and the reception they received when Hume published the *Treatise* He explains Hume's arguments concerning the inability of reason to establish the basic beliefs which underlie science and morals as well as his arguments showing why we are nevertheless psychologically compelled to accept such beliefs The book will be a valuable guide for those seeking to understand the nature of modern skepticism and its connection with the founding of the human sciences during the Enlightenment

The art of the observer David MacDougall, 2022-11-15 The art of the observer is a personal guide to documentary filmmaking based on the author's years of pioneering work in the fields of ethnographic and documentary cinema It stands in sharp contrast to

books of academic film criticism and handbooks on visual research methods being based extensively on concrete examples from the author's own filmmaking experience. The book places particular emphasis on observational filmmaking and the ways in which this approach is distinct from other forms of documentary. It offers both practical insights and reflections on what it means in both emotional and intellectual terms to attempt to represent the lives of others. The book makes clear that documentary cinema is not simply a matter of recording reality but of artfully organising the filmmaker's observations in ways that reveal the complex patterns of social life.

Dictionary Of Modern American Philosophers John R.

Shook, 2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected. It includes those intellectuals involved in the development of psychology, pedagogy, sociology, anthropology, education, theology, political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century. Each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings and suggestions for further reading. While all the major post Civil War philosophers are present, the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers. In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers. This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought.

Appearance in Reality John

Heil, 2021-09-16 In *Appearance in Reality* John Heil addresses a question at the heart of metaphysics: how are the appearances related to reality? How does what we find in the sciences comport with what we encounter in everyday experience and in the laboratory? Objects, for instance, appear to be colourful, noisy, self-contained and massively interactive. Physics tells us they are dynamic swarms of colourless particles or disturbances in fields or something equally strange. Is what we experience illusory, present only in our minds? But then what are minds? Do minds elude physics? Or are the physicist's depictions mere constructs with no claim to reality? Perhaps reality is hierarchical: physics encompasses the fundamental things, the less than fundamental things are dependent on but distinct from these. Heil's investigation advances a fourth possibility: the scientific image, what we have in physics, affords our best guide to the nature of what the appearances are.

True to the Spirit

Colin MacCabe, Rick Warner, Kathleen Murray, 2011 Fifty percent of Hollywood productions each year are adaptations: films that use an already published book, dramatic work or comic as their source material. If the original is well known, then for most spectators the question of whether these adaptations are true to the spirit of the original is central. The recent wave of adaptation studies dismisses the question of fidelity as irrelevant, mistaken or an affront to the unstable nature of meaning itself. The essays gathered here, mixing the field's top authorities (Andrew Gunning, Jameson, Mulvey and Naremore) with fresh new voices, take the question of correspondence between source and adaptation as

seriously as do producers and audiences Spanning examples from Shakespeare to Ghost World and addressing such notable directors as Welles Kubrick Hawks Tarkovsky and Ophuls the contributors write against the grain of recent adaption studies by investigating the question of what fidelity might mean in its broadest and truest sense what it might reveal of the adaptive process and why it is still one of the richest veins of investigation in the study of cinema *The Philosophy of Richard Rorty* Richard Rorty,2010 The Library of Living Philosophers has exceeded even Schilpp s expectations enabling the outstanding philosophers of each generation to do more than clarify by extending and elaborating their thoughts A volume in the Library of Living Philosophers is not merely a commentary on a philosopher s work it is a crucial part of that work International Studies in Philosophy ,1974 *Thomasson on Ontology* Miguel Garcia-Godinez,2023-06-10 Amie L Thomasson the Daniel P Stone Professor of Intellectual and Moral Philosophy at Dartmouth College has gained international recognition as a leading figure within various areas of philosophy She has recently been celebrated as one of the most influential living philosophers for her significant contributions to metaphysics ontology phenomenology and aesthetics By engaging critically with her approach to metaphysics modality conceptual analysis and the methodological issues concerning ontological questions about ordinary objects social entities and fictional characters as well as including a chapter from Thomasson herself where she makes explicit the internal connections which run through her body of work this volume delivers the first thorough discussion of Thomasson s philosophy **What Cinema Is!** Dudley Andrew,2011-09-09 What Cinema Is offers an engaging answer to Andre Bazin s famous question exploring his idea of cinema with a sweeping look back at the near century of Cinema s phenomenal ascendancy Written by one of the foremost film scholars of our time Establishes cinema s distinction from the current enthusiasm over audio visual entertainment without relegating cinema to a single older mode Examines cinema s institutions and its social force through the qualities of key films Traces the history of an idea that has made cinema supremely alive to and in our times *The Despair of the Physical* Todd Stuart Cronan,2005 **The Review of Metaphysics** ,2001 *The Journal of Speculative Philosophy* William Torrey Harris,2000 **The Journal of Philosophy** ,2000
