U.S. Army War College Guide to National Security Issues: National security policy and strategy J. Boone

Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012 Volume II continues the analyses and discussion of

national security policy and strategy **Real Leadership** Gilbert W. Fairholm, 2011-01-04 This text explains why values

based spiritual leadership that coalesces employees into a harmonious group is the only way to successfully manage

increasingly diverse workers in the 21st century A person's values are the most powerful factor defining his or her actions

everyone has a value system or a spiritual component that triggers their behavior Our personal values are a more powerful

force upon individual action than corporate policy procedures tradition or peer pressure Since the work environment is

where the typical worker will spend the most time more than at home with family with friends or at church it is reasonable

that workers will have spiritual demands as well as economic needs from their work lives Unfortunately this is a task

managers are not prepared to meet **Real Leadership** How Spiritual Values Give Leadership Meaning argues that values based

i.e. spiritual leadership is the only way to do leadership in today's globalized multi differentiated world The author traces the

development of real leadership through five generations of theory then builds a strong case for the values leadership strategy

because of its ability to unify workers and because it allows them to find personal meaning in the workplace task at hand
