## **Reason And Belief In The Age Of Roscelin And Abelard:**

*Reason and Belief in the Age of Roscelin and Abelard* Constant J. Mews, 2024-10-28 The previous collection by Constant J Mews focused on the work and thought of Peter Abelard 1079 1142 the present volume looks more broadly at Abelard s intellectual and religious context in the Latin West and at his teacher the controversial nominalist philosopher and theologian Roscelin of Compi gne It opens with surveys of educational theory and practice in the 12th century schools Mews next explores the widespread movement in the period which sought to explain religious belief in terms accessible to reason and the background to accusations of heresy made by monks troubled by new attempts to interpret Christian belief both within and outside a school environment Five related studies then deal with previously unedited texts by Roscelin of Compi gne and St Anselm that throw new light on the importance of the philosopher and theologian who exercised a major influence on Peter Abelard

*Reason and Belief in the Age of Roscelin and Abelard* C. J. Mews, 2002 The papers that comprise this collection synthesise the author s research into the dynamism of thinking about reason and belief in northern France from the time of St Anselm until the mid twelfth century

Micro Middle Ages Paul Edward Dutton, 2023-10-30 *Micro Middle Ages* brings together five microhistorical case studies focusing on small or seemingly

inconsequential evidence that leads to broader conclusions about medieval history and the way we do and understand history in general Paul Dutton provides an overview of microhistorical approaches and theorizes about its use in pre modern history As opposed to studying history from above or history from below Dutton shows the advantages for historians of doing history from the inside out starting from some single overlooked but potentially knowable thing delving deep inside and then reattaching it to its time and place Such an approach has one abiding advantage its insistence on being grounded in the particularity of the evidence The book highlights what the microhistorical is its conceptual and practical challenges Dutton argues that the attention to the micro has always been with us and is a constitutive cognitive part of who we are as human beings

*Anselm of Canterbury and the Desire for the Word* Eileen C. Sweeney, 2012-04 Sweeney discusses the tensions of prayerful meditations and argumentative essays in Anselm's writings in a cumulative and comparative interpretation

**A Companion to Bernard of Clairvaux**, 2011-03-21 Bernard of Clairvaux is perhaps the most controversial figure of Western Europe's vibrant twelfth century Unlike Abelard who is seen as a proponent of modern thinking Bernard is often relegated to the darkest corner of the Middle Ages Nothing is easy with Bernard but these fresh evaluations of him and their reviews of recent scholarship enable the reader to make a more balanced evaluation of the man his writings and his impact on his period Bernard emerges as a multifaceted figure who sought to reform monasticism and ended up becoming a saint with an appeal to virtually all classes in medieval society Bernard lives on today with the lay and monastic scholars who continue to find new layers of meaning in his writings Contributors include Christopher Holdsworth Michael Casey James France Diane Reilly John Sommerfeldt Mette B Bruun Burcht Pranger Chrysogonus Waddell E Rozanne Elder and Brian Patrick McGuire

Logical Fictions in Medieval Literature and Philosophy Virginie Greene, 2014-10-23 In the twelfth and thirteenth centuries new ways of storytelling and inventing fictions appeared in the French speaking areas of Europe This new art still influences our global culture of fiction Virginie Greene explores the relationship between fiction and the development of neo Aristotelian logic during this period through a close examination of seminal literary and philosophical texts by major medieval authors such as Anselm of Canterbury Abelard and Chr tien de Troyes This study of Old French logical fictions encourages a broader theoretical reflection about fiction as a universal human trait and a defining element of the history of Western philosophy and literature Additional close readings of classical Greek philosophers Plato and Aristotle and modern analytic philosophy including the work of Bertrand Russell and Rudolf Carnap demonstrate peculiar traits of Western rationalism and expose its ambivalent relationship to fiction

**Cistercian Stories for Nuns and Monks** Martha G. Newman, 2020-11-27 Around the year 1200 the Cistercian Engelhard of Langheim dedicated a collection of monastic stories to a community of religious women Martha G Newman explores how this largely unedited collection of tales about Cistercian monks illuminates the religiosity of Cistercian nuns As did other Cistercian storytellers Engelhard recorded the miracles and visions of the order's illustrious figures but he wrote from Franconia in modern Germany rather than the Cistercian heartland

His extant texts reflect his interactions with non Cistercian monasteries and with Langheim's patrons rather than celebrating Bernard of Clairvaux. Engelhard was conservative, interested in maintaining traditional Cistercian patterns of thought. Nonetheless, by offering to women a collection of narratives that explore the oral qualities of texts, the nature of sight, and the efficacy of sacraments, Engelhard articulated a distinctive response to the social and intellectual changes of his period. In analyzing Engelhard's stories, Newman uncovers an understudied monastic culture that resisted the growing emphasis on the priestly administration of the sacraments and the hardening of gender distinctions. Engelhard assumed that monks and nuns shared similar interests and concerns and he addressed his audiences as if they occupied a space neither fully sacerdotal nor completely lay, neither scholastic nor unlearned, and neither solely male nor only female. His exemplary narratives depict the sacramental value of everyday objects and behaviors whose efficacy relied more on individual spiritual formation than on sacerdotal action. By encouraging nuns and monks to imagine connections between heaven and earth, Engelhard taught faith as a learned disposition. Newman's study demonstrates that scholastic questions about signs, sacraments, and sight emerged in a narrative form within late twelfth-century monastic communities.

*How Marriage Became One of the Sacraments* Philip L. Reynolds, 2016-06-30. An indispensable guide to how marriage acquired the status of a sacrament. This book analyzes in detail how medieval theologians explained the place of matrimony in the church and her law and how the bitter debates of the sixteenth century elevated the doctrine to a dogma of the Catholic faith.

**Friendship and Faith: Cistercian Men, Women, and Their Stories, 1100-1250** Brian Patrick McGuire, 2024-10-28. In these articles, Professor McGuire explores the riches of the Cistercian exemplum tradition. These texts are made up of brief stories, often with a miraculous content, which provided moral support for novices and monks in Cistercian abbeys all over Europe in the High Middle Ages. The Cistercians have been seen mainly in terms of their great writers like Bernard of Clairvaux and the impressive buildings they left behind. But Cistercian literature also provides us with more humble insights from daily life, shedding light on questions of sexuality, anger, depression, and bonds of friendship, also between monks and nuns. They bring a freshness of insight and immediate experience, and their seeming naivety lets us be aware of monks' commitment to each other in individual and community bonds. In Cistercian storytelling, the Gospel's message meets an historical context and bears witness to a transformation of Christian life and idealism, while at the same time allowing us precious insights into how ordinary men and women, not just monks and nuns, lived and thought.

*The Oxford Handbook of the Trinity* Gilles Emery, Matthew Levering, 2011-10-27. This Handbook surveys the complex history of Trinitarian theology and reveals the Nicene unity still at work among Christians today, despite ecumenical differences. Forty-five contributors examine doctrinal developments and variations from biblical times to the present day.

**When Ego Was Imago** Brigitte Bedos-Rezak, 2010-11-26. The diffusion of personal signs of identity during the twelfth century introduced individuals to mediated forms of communication. The book analyses the conditions for and the implications of their partnering with material signs and images in expressing self and accountability.
